WiiM WiiM Mini

WiiM Mini User Manual

Model: WiiM Mini

INTRODUCTION

The WiiM Mini is a compact and versatile audio streamer designed to transform your existing stereo system into a smart, high-resolution audio setup. It supports AirPlay 2, Spotify Connect, TIDAL Connect, and Amazon Music Cast, offering unparalleled sound quality up to 192kHz, 24-bit. With seamless multiroom streaming capabilities and integration with Alexa and Siri voice assistants, the WiiM Mini provides a comprehensive and affordable solution for modern audio enthusiasts.

Simple to set up and use

Step 1
Plug in the WiiM Mini, connect to your stereo.

Step 2
Connect to your network with the WiiM Home App.

Step 3
Configure your device and play Hi-Res music.

SETUP

Follow these steps to set up your WiiM Mini and begin enjoying high-resolution audio:

1. **Connect the WiiM Mini:** Plug the WiiM Mini into your stereo system using either the AUX OUT (3.5mm) or SPDIF OUT (optical) port. Ensure the device is powered via the USB Type-C port.

2. **Download the WiiM Home App:** Install the "WiiM Home" app on your mobile device (available on iOS and Android).

3. **Connect to Network:** Open the WiiM Home app, choose the discovered device, and follow the on-screen instructions to connect it to your Wi-Fi network.

4. **Configure and Play:** Once connected, configure your device settings within the app and start streaming your favorite music.

Hi·Res AUDIO

OPERATING INSTRUCTIONS

The WiiM Mini offers various ways to stream and control your audio:
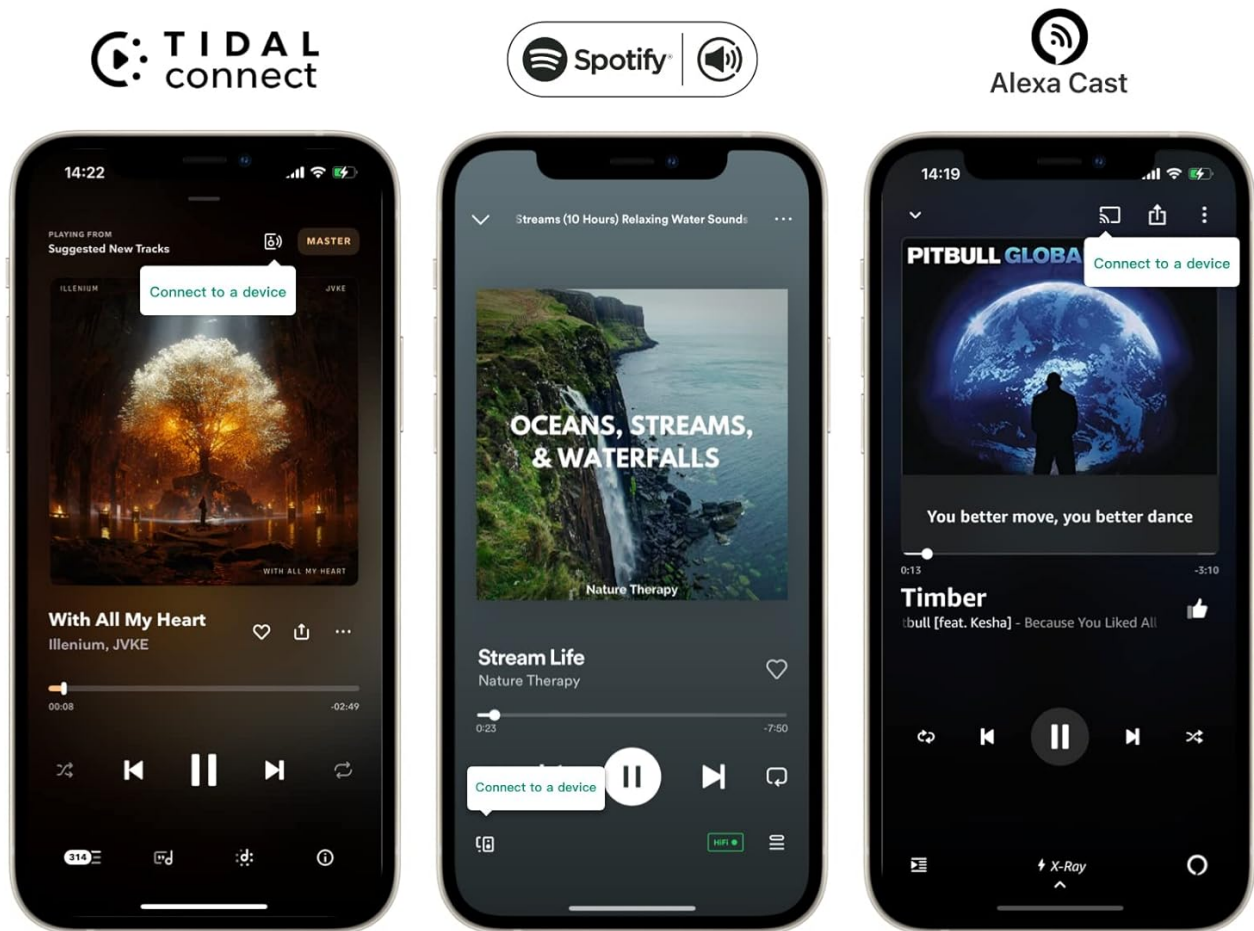

Streaming Services

Stream music directly from popular services using their native apps or the WiiM Home app:

- **AirPlay 2:** Transform your stereo into an AirPlay 2-enabled speaker. Stream from iOS and Mac devices or transmit TV audio from Apple TV.
- **Spotify Connect, TIDAL Connect, Amazon Music Cast:** Stream directly from the Spotify, TIDAL, or Amazon Music apps. This provides superior audio quality and extended range compared to Bluetooth.

Image: The WiiM Mini next to an iPhone displaying the AirPlay menu, indicating compatibility with Apple AirPlay.

Stream directly from Spotify , TIDAL and Amazon Music

Works with TIDAL HiFi and HiFi+ (with MQA), Spotify free and premium, Amazon Music Prime and Unlimited.

Image: Three smartphone screens showing music playback from TIDAL, Spotify, and Amazon Music, highlighting direct streaming capabilities.

Voice Assistant Integration

Control your music and playback using voice commands:

- **Works with Alexa and Siri:** Use voice commands from your phone, HomePod, or Echo device to control music, adjust volume, and manage playback.
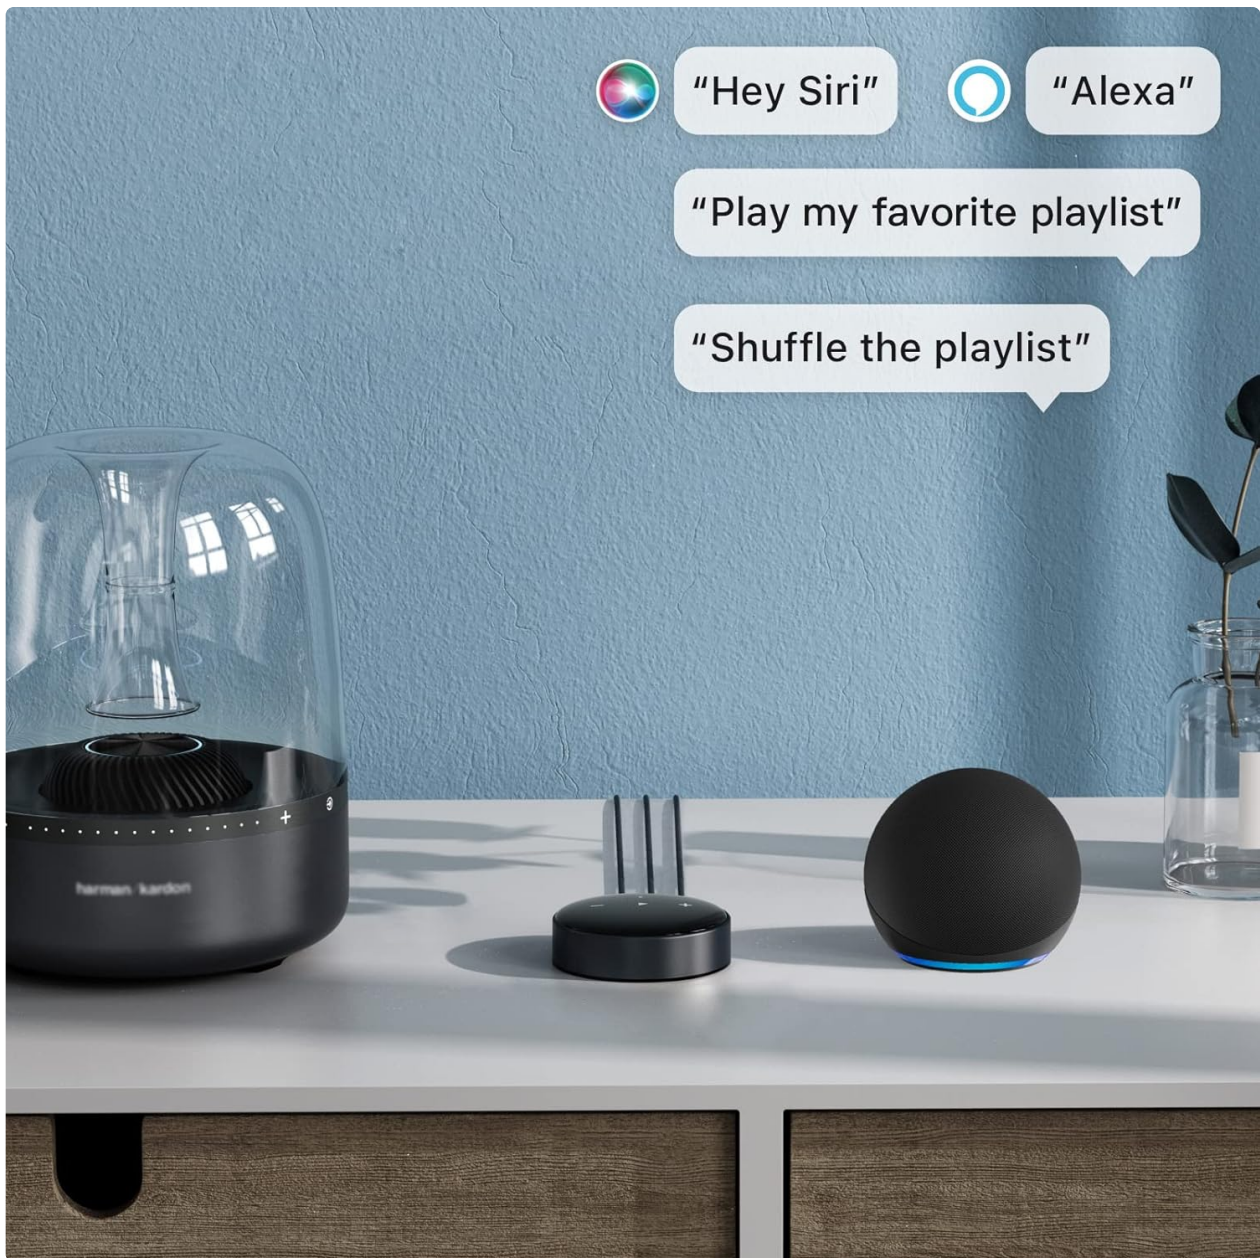

Image: The WiiM Mini positioned between a smart speaker and an Echo Dot, with speech bubbles indicating "Hey Siri" and "Alexa" commands.

Multiroom Streaming

Enjoy synchronized music playback throughout your home:

- **Seamless Integration:** Effortlessly form groups with other AirPlay 2 or Alexa devices (like Echo and HomePod) or connect multiple WiiM devices for synchronized playback across various audio devices simultaneously.

Play Music Everywhere

WiiM Home App

The WiiM Home App provides comprehensive control over your content and devices:

- Manage music services, create presets, and browse your library.
- Control playback, volume, and group devices for multiroom audio.
- Access advanced features like EQ settings for customized sound.

Feature-Rich WiiM Home App

Control your content and devices from one place

Available on iOS, Android, Windows (beta), Mac OS (beta).
