# BLANCO drink.soda EVOL-S Pro Multifunctional Soda Water System User Manual

Model: 526633

## 1. INTRODUCTION

The BLANCO drink.soda EVOL-S Pro is a sophisticated multifunctional soda water system designed to enhance your kitchen experience. This system provides chilled, filtered water with customizable carbonation levels (still, medium, or sparkling), alongside standard cold and hot tap water. This manual provides essential information for the safe and efficient installation, operation, and maintenance of your BLANCO drink.soda EVOL-S Pro.

## 2. SETUP AND INSTALLATION

Before beginning installation, ensure all components are present and undamaged. Professional installation is recommended for optimal performance and safety.

## 2.1 Included Components

- Faucet
- Mounting Kit
- BWT Filter
- Cooling Unit

## 2.2 Installation Overview

1. **Prepare the Installation Area:** Ensure adequate space under the sink for the cooling unit and filter. Refer to the dimension diagrams for clearance requirements.
2. **Mount the Faucet:** Secure the faucet to the countertop using the provided mounting kit.
3. **Connect Water Lines:** Connect the hot and cold water supply lines to the faucet.
4. **Install BWT Filter:** Connect the BWT filter in line with the water supply for the filtered water system.
5. **Install Cooling Unit:** Position the cooling unit in a well-ventilated area under the sink and connect it to the filtered water line and power supply.
6. **Connect CO2 Cylinder:** Attach the CO2 cylinder to the cooling unit for carbonation.
7. **Test System:** After all connections are made, slowly open the water supply and check for leaks. Power on the cooling unit and test all faucet functions.

## **3. OPERATING INSTRUCTIONS**

The BLANCO drink.soda EVOL-S Pro offers a 5-in-1 functionality, providing cold, hot, chilled, and refined drinking water (still, medium, or sparkling).

### **3.1 Standard Tap Water (Cold & Hot)**

The right lever controls the standard tap water. Move the lever forward for cold water and backward for hot water. Adjust the lever position to control flow rate and temperature.

### **3.2 Filtered & Chilled Drinking Water (Still, Medium, Sparkling)**

The left side of the faucet is dedicated to filtered and chilled drinking water. It features a separate spout and intuitive controls for carbonation and volume.

- **Carbonation Level Selection:** Use the rotary wheel to select your desired carbonation level: **Still**, **Medium**, or **Sparkling**. The selected level will be indicated on the display.
- **Volume Control (Click & Touch):** The precise rotary wheel and touch control allow you to set the exact amount of filtered water you need. Available volume settings typically include 100ml, 200ml, 300ml, 500ml, 700ml, and 1000ml. Rotate the wheel to select the volume, then touch to dispense.
- **Separate Spout:** Refined drinking water is dispensed from a dedicated spout to prevent mixing with unfiltered tap water.

### 3.3 Shower Spray with Magnetic Holder

The faucet features a pull-out shower spray with a precise magnetic holder for convenient use and secure retraction. This is ideal for rinsing dishes or cleaning the sink area.

## 4. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your BLANCO drink.soda EVOL-S Pro system.

### 4.1 Filter Replacement

The BWT filter requires periodic replacement to maintain water quality. The system will typically indicate when a filter change is due. Refer to the BWT filter manual for specific replacement instructions and frequency.

### 4.2 Cleaning

- **Faucet:** Clean the faucet regularly with a soft cloth and mild soap. Avoid abrasive cleaners or scouring pads, which can damage the finish.
- **Cooling Unit:** Ensure the cooling unit's ventilation grilles are free from dust and obstructions to maintain efficient operation.

### 4.3 CO2 Cylinder Replacement

Replace the CO2 cylinder when the sparkling water output diminishes or ceases. Follow the instructions provided with your CO2 cylinder for safe replacement.

## 5. TROUBLESHOOTING

If you encounter issues with your BLANCO drink.soda EVOL-S Pro, consult the following common troubleshooting steps:

Problem	Possible Cause	Solution
No water flow (tap water)	Water supply turned off; clogged aerator	Check main water supply; clean faucet aerator.
No filtered water flow	Filter clogged or expired; cooling unit not powered; water supply to unit off	Replace BWT filter; ensure cooling unit is plugged in and powered on; check water supply to cooling unit.
No sparkling water	CO2 cylinder empty; CO2 cylinder not connected properly	Replace CO2 cylinder; ensure CO2 cylinder is securely connected.
Water not chilled	Cooling unit not powered; ventilation obstructed	Ensure cooling unit is powered on; clear any obstructions from cooling unit vents.
Leaks	Loose connections; damaged seals	Check all water connections and tighten if necessary; inspect seals and replace if damaged.

If the problem persists after attempting these solutions, please contact BLANCO customer support.

## 6. SPECIFICATIONS

Detailed technical specifications for the BLANCO drink.soda EVOL-S Pro (Model 526633).

Specification	Detail
Brand	BLANCO
Model Name	Drink.soda EVOL-S Pro
Item Model Number	526633
Manufacturer	BLANCO
Product Dimensions	44.7 x 25.2 x 16 cm (Faucet)
Item Weight	23 Kilograms
