## Homedics FAC-SV100-EU

# HoMedics Nano Facial Steamer FAC-SV100-EU Instruction Manual

Model: FAC-SV100-EU

## INTRODUCTION

---

The HoMedics Nano Facial Steamer is designed to provide a deep and refreshing facial treatment. Its advanced nano steam technology produces finer steam particles than ordinary steam, allowing for deeper penetration into the outer layer of the skin. This process helps to open pores, soften blackheads for easier removal, and enhance the absorption of your skincare products. This manual provides essential information for the safe and effective use of your device.

## IMPORTANT SAFETY WARNINGS

---

To ensure safe operation and prevent injury or damage, please observe the following precautions:

- Keep the device out of reach of children.
- Do not leave the device unattended during operation.
- Always allow the device to cool completely before handling or refilling the water tank.
- Exercise extreme caution with hot steam to avoid burns or scalding. Maintain a safe distance from the steam nozzle.
- Ensure the device is unplugged when not in use, during cleaning, or when refilling.
- Do not immerse the device in water or other liquids.
- Use only distilled or purified water in the water tank to prevent mineral buildup.

## PRODUCT OVERVIEW

---

The HoMedics Nano Facial Steamer is designed for ease of use and effective facial treatment. Key components include:

- **Adjustable Steam Nozzle:** Allows for targeted steam application.
- **Removable Water Tank:** 70ml capacity for easy filling.
- **Power Button:** For turning the device on and off.
- **Cosmetic Mirror Surface:** The reflective top surface doubles as a mirror.

- **Integrated Handle:** For convenient portability.

## SETUP

---

Before first use, ensure all packaging materials are removed and the device is placed on a stable, flat surface.

1. **Fill the Water Tank:** Locate the removable 70ml water tank. Carefully remove it and fill it with distilled or purified water up to the maximum fill line. Avoid overfilling.
2. **Replace Water Tank:** Securely reinsert the filled water tank into its designated slot on the steamer.
3. **Connect Power:** Plug the power cord into a suitable electrical outlet.

# THE PERFECT TEMPERATURE

43°C mist for optimum soothing effect

## OPERATING INSTRUCTIONS

---

Follow these steps for an effective facial steaming session:

1. **Power On:** Press the power button to turn on the device. The steamer will begin to heat up and produce nano steam.
2. **Position Your Face:** Carefully position your face towards the adjustable steam nozzle. Maintain a comfortable distance to avoid direct contact with hot steam, typically 20-30 cm (8-12 inches).
3. **Adjust Nozzle:** Adjust the 45-degree nozzle to direct the steam to specific areas of your face as desired.
4. **Steaming Duration:** Steam your face for the recommended duration, typically 8-10 minutes. The device produces mist at approximately 43°C for an optimal soothing effect.
5. **Power Off:** After your session, press the power button to turn off the device. Unplug the unit from the power outlet.
6. **Post-Steam Care:** After steaming, gently pat your face dry and proceed with your regular skincare routine, such

as applying toners, serums, or moisturizers, as your pores are now more receptive to product absorption.

## MAINTENANCE

---

Proper maintenance ensures the longevity and optimal performance of your facial steamer.

- **Cleaning the Water Tank:** After each use, empty any remaining water from the tank. Rinse the tank with clean water and allow it to air dry completely before storing.
- **Exterior Cleaning:** Wipe the exterior of the device with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Descaling (if necessary):** If mineral buildup occurs due to hard water (though distilled water is recommended to prevent this), a mild descaling solution or a mixture of water and white vinegar can be used. Consult the manufacturer's website for specific descaling instructions if needed.
- **Storage:** Store the steamer in a cool, dry place, away from direct sunlight and moisture. Ensure the device is completely dry before storage.

## TROUBLESHOOTING

If you encounter any issues with your HoMedics Nano Facial Steamer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No steam is being produced.	<ul style="list-style-type: none"><li>• Water tank is empty.</li><li>• Device not plugged in or powered on.</li><li>• Mineral buildup in the heating element.</li></ul>	<ul style="list-style-type: none"><li>• Fill the water tank with distilled water.</li><li>• Ensure the power cord is securely plugged in and the power button is pressed.</li><li>• Perform descaling as per maintenance instructions.</li></ul>
Steam has a plastic odor.	<ul style="list-style-type: none"><li>• New device odor.</li><li>• Residue from manufacturing.</li></ul>	<ul style="list-style-type: none"><li>• Run the steamer with a full tank of distilled water several times before first use. The odor should dissipate over time.</li><li>• Ensure the water tank is thoroughly cleaned.</li></ul>
Water leaks from the device.	<ul style="list-style-type: none"><li>• Water tank not properly seated.</li><li>• Water tank overfilled.</li></ul>	<ul style="list-style-type: none"><li>• Ensure the water tank is securely inserted.</li><li>• Do not fill water beyond the maximum fill line.</li></ul>

## SPECIFICATIONS

Feature	Detail
Model Number	FAC-SV100-EU
Brand	HoMedics
Product Name	Facial Steamer
Dimensions (L x W x H)	50 x 50 x 28 cm
Weight	955 grams
Material	Plastic
Color	White
Power Source	Corded Electric
Voltage	230 Volts
Power	150 Watts
Water Tank Capacity	70 Milliliters
Mist Temperature	Approximately 43°C
Product Benefits	Softening, Pore Cleansing

## WARRANTY AND SUPPORT

---

HoMedics products are manufactured with the highest quality standards. For detailed warranty information, please refer to the warranty card included with your purchase or visit the official HoMedics website. For technical support, troubleshooting assistance, or to inquire about replacement parts, please contact HoMedics customer service through their official channels.

You can typically find contact information on the HoMedics official website or within the product packaging.
