Sportspower MSC-5332

Sportspower Triple Swing & Saucer Backyard Swing Set

MODEL: MSC-5332

Instruction Manual

1. INTRODUCTION

Thank you for choosing the Sportspower Triple Swing & Saucer Backyard Swing Set. This manual provides essential information for the safe assembly, operation, and maintenance of your new playset. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This swing set is designed to provide a fun and engaging outdoor play experience for children aged 3 to 8 years, with a maximum individual weight capacity of 100 lbs per user, and a total maximum capacity of 600 lbs. It meets or exceeds ASTM safety standards.

2. SAFETY INFORMATION

Your safety and the safety of others are paramount. Always adhere to the following safety guidelines:

- Adult supervision is required at all times.
- Ensure the playset is installed on level ground and anchored securely.
- Maintain a safe perimeter around the playset, free from obstacles.
- Regularly inspect all components for wear, damage, or loose connections.
- Do not allow more than the recommended number of children or weight on any component.
- Dress children in appropriate clothing, avoiding loose items that could get caught.
- Review the product packaging and manual for additional safety information.

3. COMPONENTS OVERVIEW

The Sportspower Triple Swing & Saucer Swing Set includes the following main components:

- **Steel Frame:** Heavy-duty 2-inch powder-coated steel tubes for durability.
- **Sling Swings (x3):** Adjustable sling-style swings with rubber-coated chains to prevent pinching.
- **Saucer Swing (x1):** A large, two-person saucer swing with reinforced inner netting.
- **Slide (x1):** A 5-foot one-piece blow-molded slide.
- **Anchor Kit (x1):** A 4-piece anchor kit for securing the playset to the ground.

4. SETUP AND ASSEMBLY

Assembly of the Sportspower Triple Swing & Saucer Swing Set requires two adults and typically takes several hours. Please refer to the detailed assembly instructions provided in the separate assembly guide included with your product for step-by-step directions.

Key Assembly Points:

- Ensure all parts are present before beginning assembly.
- Assemble the A-frames first, ensuring all bolts are securely tightened.
- Attach the main top bar to the A-frames.
- Install the swings and slide according to the instructions.
- Utilize the provided 4-piece anchor kit to secure the playset firmly into the ground, preventing movement during use.

SAFE & STURDY A-FRAME

**RUST-RESISTANT &
POWDER-COATED**

**PAINTED WITH
WEATHER-
RESISTANT
FINISH**

5. OPERATING INSTRUCTIONS

The Sportspower Triple Swing & Saucer Swing Set offers multiple play options:

Sling Swings:

- The three sling swings are designed for individual use.
- Chains are adjustable to suit various age ranges and heights. To adjust, locate the chain links and reposition the swing seat to the desired height.
- Ensure children hold onto the chains firmly while swinging.

3 BELT SWINGS WITH MOLDED CHAIN COVERS

**ADJUSTABLE
CHAINS FOR
GROWING KIDS**

Image 4: Two children enjoying the sling swings, which feature molded chain covers for comfort and safety.

Saucer Swing:

- The saucer swing is designed to accommodate up to two children simultaneously.
- Children can sit or lie down comfortably within the reinforced inner netting.
- Ensure children maintain a safe distance from each other and the frame while swinging.

2-PERSON ADJUSTABLE SAUCER

Image 5: Two children enjoying the spacious 2-person saucer swing.

SPORTSPOWER™ **UNIQUE PATENTED** **“BIRD’S NEST” DESIGN**

- Deep concave surface cradles kids
- Bowl shape prevents kids from sliding off easily, reducing fall risk
- Better support for sitting, lounging, or lying down in hammock-like comfort

COMPETITORS **STANDARD “DISC” DESIGN**

- Flat surface means higher fall risk - kids can slip off more easily if they stand, twist, or lean
- Less flexibility in play posture - kids can only stand or lie down
- Not as comfortable

Image 6: A comparison illustrating the secure 'Bird's Nest' design of the Sportspower saucer swing.

Slide:

- The 5-foot slide is for single-user descent.
- Ensure children slide feet-first and clear the landing zone before the next child slides.
- The slide features a 2-inch edge on each side for added safety.

Image 7: A child preparing to use the 5-foot blow-molded slide, highlighting its safe landing zone and side edges.

6. MAINTENANCE

Regular maintenance is crucial to ensure the longevity and safety of your swing set:

- **Monthly Inspection:** Check all nuts, bolts, and connections for tightness. Tighten as necessary.
- **Component Check:** Inspect swings, chains, ropes, and the slide for signs of wear, cracks, or damage. Replace any worn or damaged parts immediately.
- **Cleaning:** Clean the playset regularly with mild soap and water. Avoid harsh chemicals that could damage the finish.
- **Rust Prevention:** The steel frame is powder-coated for weather resistance, but inspect for any chips or scratches in the paint that could lead to rust. Touch up as needed.
- **Ground Anchors:** Verify that the ground anchors remain securely in place.

7. TROUBLESHOOTING

If you encounter any issues with your swing set, consider the following common solutions:

- **Playset Wobbles:** Ensure the playset is on level ground. Re-tighten all frame bolts. Verify ground anchors are fully inserted and secure.
- **Squeaking Swings:** Apply a small amount of lubricant (e.g., silicone spray) to the pivot points of the swing hangers.
- **Missing Parts:** If you find any parts missing during assembly, contact customer support immediately for assistance.
- **Damaged Components:** Do not use the playset if any critical components are damaged. Contact customer support for replacement parts.

8. SPECIFICATIONS

Feature	Detail
Brand	Sportspower
Model Number	MSC-5332
Product Dimensions (L x W x H)	186.5" x 93" x 73" (approximately 15.5 ft W x 7.75 ft D x 6.1 ft H)
Frame Material	Alloy Steel (Powder Coated)
Item Weight	112 Pounds
Recommended Age	36 months - 8 years
Maximum User Weight (per station)	100 lbs
Total Maximum Weight Capacity	600 lbs
