多彩な6つのモード

Figure 4: Overview of the device's operational modes.

- **Pre-care Mode:** Uses the Pre-care head to prepare the skin for subsequent treatments.
- **Ion Head Modes:**
 - **Moisturizing:** Designed to enhance the penetration of moisturizing ingredients.
 - **Brightening:** Aims to improve the absorption of brightening agents like Vitamin C.
 - **Multi:** Combines various ion treatments for comprehensive care.
 - **Skin Clear:** Focuses on deep cleansing and refining skin texture.
 - **Cool:** Provides a cooling sensation to soothe the skin and tighten pores.

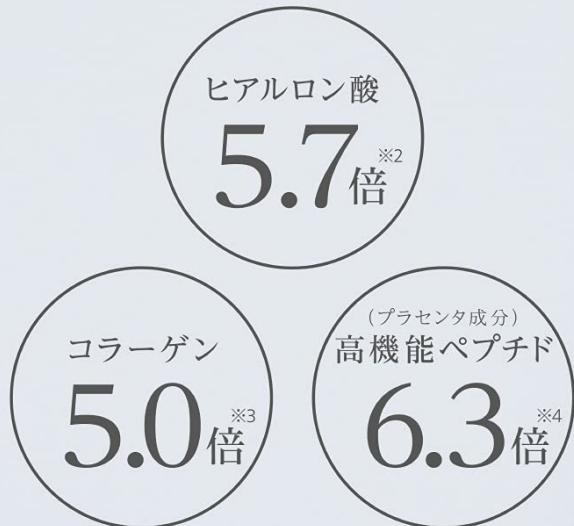

5.2 General Usage Steps

1. **Cleanse your face:** Ensure your face is clean and free of makeup before use.
2. **Apply skincare product:** Apply your desired toner, serum, or cream to your face or directly onto the device head (if using a cotton pad).
3. **Select a mode:** Turn on the device and select the desired mode using the control buttons.
4. **Glide the device:** Gently glide the device head over your face, following the contours of your skin. Avoid

pressing too hard.

5. **Treatment duration:** Each treatment typically lasts around 10 minutes. The device is designed for approximately 3 uses on a full charge.
6. **After use:** Turn off the device and clean the head as instructed in the Maintenance section.

6. MAINTENANCE

6.1 Cleaning the Device

1. Always turn off the device and disconnect it from the power source before cleaning.
2. Wipe the device head with a soft, damp cloth. For stubborn residue, use a mild, non-abrasive cleanser.
3. Do not immerse the device in water or rinse it under running water.
4. Ensure the device is completely dry before storing or recharging.

6.2 Storage

After cleaning, place the protective cap over the device head and store the device on its stand in a cool, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

If you encounter any issues with your Panasonic EH-ST99-N Ion Facial Device, please refer to the following common solutions:

- **Device not turning on:** Ensure the device is fully charged. If the battery is low, connect it to the AC adapter and charge for 1 hour.
- **No sensation during use:** Ensure the device head is in full contact with your skin. Some modes may have subtle sensations.
- **Charging issues:** Verify that the AC adapter is properly connected to both the device and the power outlet. Check if the power outlet is functional.
- **Skin irritation:** Discontinue use immediately. Ensure you are using appropriate skincare products for your skin type and not applying excessive pressure.

If the problem persists after trying these steps, please contact customer support.
