GROWNSY LS-BE916

GROWNSY Bottle Sterilizer and Dryer User Manual

Model: LS-BE916

1. INTRODUCTION

The GROWNSY Bottle Sterilizer and Dryer is designed to simplify the process of sterilizing and drying baby bottles, pacifiers, pump parts, and other feeding essentials. This compact and efficient device ensures your baby's items are 99.99% germ-free and completely dry, preventing mold growth and secondary contamination. It offers multiple functions to suit your needs, providing peace of mind for busy parents.

Key Features:

- **Compact Design:** Smaller footprint while holding enough daily feeding supplies.
- **99.99% Steam Sterilization:** Effectively eliminates germs with natural steam.
- **Efficient Drying Function:** Automatically dries items to prevent mold, featuring a 31% faster drying time.
- **Built-in Filter:** Prevents secondary pollution from airborne contaminants.
- **Universal Fit:** Accommodates various brands and sizes of baby bottles, pacifiers, pump parts, and teethers.
- **Multiple Modes:** Use as Sterilizer & Dryer, Sterilizer Only, Dryer Only, or Storage System.

2. PRODUCT OVERVIEW

Familiarize yourself with the components of your GROWNSY Bottle Sterilizer and Dryer.

4 in 1 Compact Baby Bottle Sterilizer

Your All-in-One, Effortless, Space-Saving Solution!

Figure 2: Control panel with various function modes.

3. SETUP

Before first use, ensure all components are clean. Wash all parts that come into contact with bottles or water (excluding the base unit) with warm soapy water and rinse thoroughly.

1. Place the main base unit on a flat, stable, heat-resistant surface.

2. Using distilled water, pour 60ml of water into the heating plate located in the base unit.
3. Place the bottle rack onto the base unit, ensuring it is properly seated.
4. Place the basket for small parts on top of the bottle rack.
5. Place the lid securely on top of the basket.
6. Plug the unit into a power outlet.

4. OPERATING INSTRUCTIONS

The GROWNSY Bottle Sterilizer and Dryer offers four main functions:

- **Sterilize Only:** For steam sterilization without drying.
- **Dryer Only:** For drying pre-cleaned items.
- **Auto (Sterilize & Dry):** Performs both sterilization and drying cycles automatically.
- **Fast Auto:** A quicker combined sterilization and drying cycle.

Steps for Use:

1. Ensure bottles and accessories are pre-cleaned before placing them in the sterilizer.
2. Place bottles upside down on the bottle rack. Place smaller items like pacifiers and nipples in the top basket.

Max Capacity to Fit All Your Baby's Feeding Essentials!

Figure 3: Max capacity for various baby feeding essentials.

3. Add 60ml of distilled water to the heating plate in the base unit.
4. Close the lid securely.
5. Press the power button to turn on the unit.
6. Select your desired mode by pressing the corresponding function button. The indicator light will illuminate for the selected mode.

Eliminate **99.99%** of Germs with Natural Steam

30% Faster, **100%** Thorough

Figure 4: Natural steam sterilization process.

7. The unit will automatically begin the cycle. Do not open the lid or touch the unit immediately after disinfection to avoid scalding by high-temperature steam.
8. Once the cycle is complete, the unit will automatically shut off. Allow items to cool before handling. Use the provided tongs to safely remove hot items.

5. MAINTENANCE AND CLEANING

Proper maintenance ensures the longevity and effectiveness of your sterilizer.

- **Daily Cleaning:** After each use, clean the heating plate and other components.
- **Descaling:** Over time, mineral deposits may accumulate on the heating plate. Use a citric acid descaling solution (like the one provided) to remove these deposits. Follow the instructions on the descaling product for best results.
- **Storage:** Store the unit in a clean, dry place when not in use.

6. TROUBLESHOOTING

If you encounter any issues with your GROWNSY Bottle Sterilizer and Dryer, please refer to the following common solutions:

- **Unit not turning on:** Ensure the power cord is securely plugged into both the unit and a working electrical outlet.
- **No steam or insufficient steam:** Check if the correct amount of distilled water (60ml) has been added to the heating plate. Ensure the lid is properly sealed.
- **Items not drying completely:** Verify that the drying function was selected. Ensure items are placed in a way that allows for proper air circulation. Check if the air filter is clean and not obstructed.
- **White/brown residue on heating plate:** This is mineral buildup from water. Perform a descaling cycle as described in the Maintenance section.
- **Unusual odors:** Ensure all parts are thoroughly cleaned and rinsed after each use. Perform a descaling cycle if necessary.

If the problem persists, please contact GROWNSY customer support for assistance.

7. SPECIFICATIONS

Product Dimensions	8.1 x 7.5 x 14.94 inches
Item Model Number	LS-BE916
Item Weight	3.47 pounds
Material Free	BPA Free
Care Instructions	Clean after Use
