JINPUS JINPUS02

JINPUS Air Purifier Model JINPUS02 User Manual

Brand: JINPUS | Model: JINPUS02

Introduction

Welcome to your JINPUS Air Purifier. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new air purifier. Please read it thoroughly before first use and keep it for future reference.

The JINPUS Air Purifier is designed to improve indoor air quality by filtering out common airborne particles.

Key Features

- **TRUE HEPA Air Purifier:** Features a 3-stage filtration system including a pre-filter, TRUE HEPA filter, and

activated carbon filter. Effectively removes 99.97% of particles as small as 0.3 microns, reducing PM2.5, dust, smoke, pollen, pet dander, and odors. Zero ozone emission ensures a healthy environment.

- **High Efficiency Air Cleaner:** Offers a high purification performance of 110-130 m^3/h and wide coverage of 169 ft^2 / 15 m^2, with 360° air intake for optimized air circulation. CARB certified and available for California.
- **Easy Operation:** Equipped with individual touch buttons for each function, allowing selection of low, medium, and high modes. Includes optional 2H/4H/8H timer and nightlight for user convenience.
- **Quiet Operation:** Utilizes upgraded quiet KEAP technology, operating at only 26dB in low mode, ideal for a good night's sleep in bedrooms, small living rooms, kitchens, and offices. Perfect for pet owners, babies, children, and the elderly.

The air purifier features 360-degree air intake for efficient purification across a wide area, targeting common indoor pollutants.

Equipped with a 3-stage filtration system, including a pre-filter, True HEPA filter, and activated carbon filter, to capture various airborne particles and odors.

The air purifier provides wide coverage, effectively purifying air in spaces up to 167 sq ft (15 m²).

Setup Guide

Unpacking and Initial Setup

Carefully remove the air purifier from its packaging. Place the unit on a flat, stable surface.
Important Note: If you cannot find the power adapter, it is located inside the air purifier's base to save space during shipping.

To access the power adapter and filter, gently twist and remove the bottom cover of the unit.

Filter Installation

Ensure the filter is properly seated inside the unit before operating. If it came wrapped in plastic, remove the plastic packaging before installation. Refer to the image above for filter access.

Operating Instructions

Control Panel Overview

The intuitive touch control panel allows easy selection of various modes and settings.

- **Power Button (ON/OFF):** Press this button to turn the air purifier on or off.
- **Mode Setting Button:** Cycle through the available fan speeds: Low (L), Medium (M), and High (H).
- **Timer Button:** Press to set the operating time for 2 hours, 4 hours, or 8 hours. The unit will automatically shut off after the selected time. This button also functions as the filter replacement reminder.
- **Nightlight Button:** Toggle the nightlight feature on or off.

Fan Speed Settings

The air purifier offers three fan speeds to suit your needs. Select a higher speed for faster purification or a lower speed for quieter operation.

The sleep mode, timer, and nightlight features are designed for undisturbed rest and energy saving.

The air purifier operates at a low noise level of 26dB in night mode, ensuring a quiet environment suitable for bedrooms.

Maintenance

Filter Replacement

The air filter should be replaced every 2-4 months, depending on usage and air quality. The unit features a filter indicator on the control panel to remind you when replacement is due.
To replace the filter:

1. Unplug the air purifier from the power outlet.
2. Gently twist and remove the bottom cover of the unit.
3. Remove the old filter.
4. Insert the new filter, ensuring it is properly seated.
5. Replace the bottom cover and plug the unit back in.

Replacement filters for model JINPUS02 can be found by searching for ASIN "B08NVH84SF".

Regular filter replacement is crucial for maintaining optimal air purification performance.

The filter indicator light on the control panel will illuminate when it's time to replace the filter.

Product Specifications

Feature	Detail
Product Dimensions	7.2 x 7.2 x 7.87 inches; 2.84 Pounds

Date First Available	November 16, 2021
ASIN	B09HK7D4D8
Brand	JINPUS
Specification Met	CARB Certified
Noise Level	26 dB
Controller Type	Button Control

Troubleshooting

Common Issues and Solutions

- **Unit not turning on:** Ensure the power adapter is correctly connected to both the unit and a working power outlet. Verify that the filter is properly installed inside the unit's base.
- **Reduced airflow or purification:** Check if the air filter needs replacement. A clogged filter can significantly reduce the unit's performance. Refer to the Maintenance section for filter replacement instructions.
- **Unusual noise:** Ensure the unit is placed on a flat, stable surface. Check for any obstructions around the air intake or outlet. If the noise persists, ensure the filter is correctly seated.

For issues not listed here, please contact customer support for further assistance.

Warranty and Customer Support

JINPUS is committed to providing quality products and customer satisfaction. For any questions regarding your air purifier, including warranty inquiries, technical assistance, or replacement parts, please contact the seller directly through your purchase platform.

For support, users can typically find an 'Ask a question' option on the product page or order details to contact the seller directly.
