HOMCOM CA835-4330231

HOMCOM Sideboard Buffet Cabinet with 2 Drawers and 4 Doors

Model: CA835-4330231

Introduction

Thank you for choosing the HOMCOM Sideboard Buffet Cabinet. This manual provides essential information for the safe assembly, operation, and maintenance of your new furniture. Please read these instructions carefully before beginning assembly and retain them for future reference.

Image: The HOMCOM Sideboard Buffet Cabinet, white with an oak-colored top, positioned in a dining area. It features two glass-front cabinets, two central drawers, and a double-door cabinet below the drawers. A coffee machine and decorative items are on the countertop.

Safety Information

To ensure safe use of this product, please adhere to the following guidelines:

- **Anti-Tipping Device:** Always secure the cabinet to the wall using the provided anti-toppling device to prevent accidental tipping, especially in households with children or pets.
- **Weight Capacity:** Do not exceed the maximum weight capacity of**132 lbs (60 kg) overall**. Each shelf has a maximum weight capacity of **22 lbs (10 kg)**. Overloading can lead to structural damage or injury.
- **Glass Doors:** Handle the tempered glass doors with care during assembly and use to avoid breakage. In case of breakage, dispose of glass fragments safely.
- **Assembly:** Follow all assembly instructions precisely. Ensure all fasteners are tightened securely before use. Do not use power tools for tightening screws unless explicitly stated, as this may strip threads or damage components.

- **Placement:** Place the cabinet on a flat, stable, and level surface. Avoid placing it near heat sources or in areas with excessive moisture.

Product Features

Storage Solution

This sideboard cabinet offers versatile storage with a spacious counter, two smooth-gliding drawers, and three cabinets. The interior shelves are 3-level adjustable, allowing you to customize the storage space to fit various items, from dishes to pantry staples.

Image: An interior view of the HOMCOM Sideboard Buffet Cabinet, illustrating the adjustable shelves within the side cabinets. Arrows indicate the 3.2 cm (1.25 inch) adjustment range for the shelves.

Framed Glass Doors

The two side cabinets feature framed tempered glass doors, allowing you to display your items while keeping them protected from dust. The zinc-alloy nickel plating round handles provide a comfortable grip for easy opening and closing.

Modern Style & Quality Material

The classic two-tone design (white body with an oak-colored top) adds elegance to any room. Constructed from durable MDF, rubber wood, and tempered glass, this cabinet is designed for stability and long-lasting use.

Assembly Instructions

Assembly of the HOMCOM Sideboard Buffet Cabinet requires two adults and basic household tools (not included). Please ensure all parts are present before beginning. Refer to the included assembly diagram for step-by-step instructions.

1. **Unpack and Identify:** Carefully unpack all components and hardware. Compare them against the parts list in your separate assembly guide to ensure nothing is missing or damaged.
2. **Prepare Workspace:** Assemble the cabinet on a clean, soft surface (e.g., a blanket or carpet) to prevent scratches.
3. **Assemble Frame:** Follow the numerical sequence in the assembly guide to connect the main frame components. Ensure all cam locks and screws are securely fastened.
4. **Install Drawers:** Assemble the drawer boxes and install the drawer slides onto both the drawers and the cabinet frame. Insert the drawers into their designated slots.
5. **Attach Doors:** Mount the hinges to the cabinet doors and then attach the doors to the cabinet frame. Adjust hinges

as needed for proper alignment.

6. **Install Shelves:** Insert the shelf pins into the desired height positions within the cabinets and place the adjustable shelves on top.
7. **Attach Anti-Tipping Device:** Securely attach the anti-tipping hardware to the back of the cabinet and to a wall stud, following the specific instructions provided with the device. This step is crucial for safety.

Note: If any parts are missing or damaged, please contact customer support for assistance. Do not proceed with assembly if components are compromised.

Operating Instructions

- **Opening/Closing Doors:** Gently pull the handles to open the cabinet doors. Push firmly to close. Avoid slamming doors to prevent damage to hinges and glass.
- **Using Drawers:** Pull the drawer handles to open. Push until fully closed. Do not overload drawers to ensure smooth operation of the slides.
- **Adjusting Shelves:** To adjust a shelf, remove all items from it. Lift the shelf, remove the four shelf pins, reposition them to the desired height, and then place the shelf back on the pins. Ensure all four pins are securely seated before placing items back on the shelf.
- **Countertop Use:** The countertop is suitable for displaying decorative items, small appliances, or serving food. Use coasters or protective mats under hot items or items that may scratch the surface.

Maintenance

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or excessive moisture, which can damage the finish. For glass doors, use a standard glass cleaner.
- **Spills:** Clean up spills immediately to prevent staining or damage to the wood and engineered wood surfaces.
- **Hardware:** Periodically check all screws, bolts, and fasteners to ensure they remain tight. Retighten as necessary to maintain stability.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or discoloration of the finish.
- **Temperature and Humidity:** Maintain a stable room temperature and humidity level to prevent warping or cracking of wood components.

Troubleshooting

Problem	Possible Cause	Solution
Cabinet feels wobbly or unstable.	Loose fasteners; uneven floor; anti-tipping device not installed or improperly secured.	Ensure all screws and bolts are tightened. Place shims under legs if the floor is uneven. Install or re-secure the anti-tipping device to a wall stud.
Drawers do not slide smoothly.	Overloaded drawer; debris in slides; misaligned slides.	Reduce weight in the drawer. Clean drawer slides. Check if slides are correctly installed and aligned.
Cabinet doors are misaligned or do not close properly.	Loose hinges; improper hinge adjustment.	Tighten hinge screws. Adjust hinges using the adjustment screws to align doors.

Problem	Possible Cause	Solution
Missing parts during assembly.	Packaging error.	Contact HOMCOM customer support with your model number and a list of missing parts.
