5. OPERATING INSTRUCTIONS

5.1 Charging the Battery

Before first use, charge the battery for 8-12 hours. Subsequent charges should be 8-12 hours, not exceeding 18 hours. Connect the charger to the charging port on the vehicle and then plug it into a standard wall outlet. The indicator light on the charger will show charging status.

5.2 Driving Modes

The Aosom Ride On Truck offers two driving modes:

- **Kids Manual Operate:** The child can drive the truck using the steering wheel and foot pedal.
- **2.4G Parent Remote Control:** An adult can control the truck's movement (forward, reverse, left, right, speed, and brake) using the included remote control. This is ideal for younger children or for safety intervention.

TWO MODES TO DRIVE

6. MAINTENANCE

- **Cleaning:** Wipe the vehicle with a damp cloth. Do not use abrasive cleaners or submerge the vehicle in water.
- **Battery Care:** Recharge the battery after each use. If storing for an extended period, charge the battery once a month to prolong its lifespan.
- **Storage:** Store the vehicle in a dry, cool place away from direct sunlight and moisture.
- **Inspection:** Periodically check all nuts, bolts, and electrical connections to ensure they are secure.

7. TROUBLESHOOTING

If you encounter issues with your Aosom 12V Kids Ride On Truck, please refer to the following common problems and solutions:

- **Vehicle does not move:** Check battery charge, ensure all connections are secure, and verify the power switch is in the 'ON' position.
- **Slow speed:** Battery may be low, or the vehicle might be overloaded. Ensure operation on flat surfaces.
- **Remote control not working:** Check remote control batteries, ensure it's paired correctly with the vehicle, and that there are no obstructions.
- **Unusual noises:** Stop operation immediately and inspect for loose parts or foreign objects.

For persistent issues, please contact Aosom customer support.
