Larktale Universal Ride-Along Stroller Board

Larktale Universal Ride-Along Board Instruction Manual

Introduction

The Larktale Universal Ride-Along Board is designed to provide an additional riding option for an older child, transforming your single or double stroller into a multi-child transport solution. It offers both sitting and standing modes for your child's comfort and convenience, ensuring they can ride along safely and comfortably.

Important Safety Information

- Always ensure the ride-along board is securely attached to the stroller frame before each use.
- Do not exceed the maximum weight capacity of**48 lbs (21.7 kg)**.
- This product is suitable for children aged**2 years and older**.
- Always supervise your child while they are using the ride-along board.
- Ensure your child's hands and feet are clear of all moving parts, especially the wheels.
- Do not use the ride-along board on uneven terrain, stairs, escalators, or steep inclines.
- Regularly check all components for wear, damage, or loose fasteners. Discontinue use if any damage is found.

Package Contents

Please verify that all components are present in your package:

- 1 x Larktale Universal Ride-Along Board (main unit with wheels)
- 1 x Height-Adjustable Saddle Seat (may be pre-attached)
- 2 x Universal Attachment Arms
- 2 x Quick-Release Brackets
- 1 x Foot Rest
- 4 x Screws (for assembly of certain parts, if applicable)

Setup Instructions

The Larktale Universal Ride-Along Board features a tool-free installation process for convenience.

1. **Attaching Brackets:** Identify suitable attachment points on your stroller's rear frame. The universal quick-release brackets are designed to fit most stroller models. Securely fasten the brackets to the stroller frame. Ensure they are tight and do not slide.
2. **Connecting the Board:** Align the attachment arms of the ride-along board with the installed brackets. Press the quick-release buttons on the arms and slide them into the brackets until they click securely into place. Pull gently on the board to confirm it is locked.
3. **Adjusting Position:** Use the user-friendly adjustment knobs on the attachment arms to position the ride-along board correctly for your specific stroller model and your child's comfort. Ensure the board is level and stable, providing adequate clearance for the stroller's wheels and your walking stride.

Operating Modes

The Ride-Along Board offers two versatile modes to accommodate your child's preference and energy levels: sitting and standing.

Sitting Mode

The padded, height-adjustable saddle seat provides a comfortable resting spot for your child during longer walks. To adjust the seat height, locate the adjustment mechanism beneath the seat post. Press the release button or turn the knob, then raise or lower the seat to the desired position. Ensure the seat is locked securely before your child sits on it.

Standing Mode

For older toddlers who prefer to stand and observe their surroundings, the saddle seat can be easily removed. This reveals a sturdy, non-slip platform for safe standing. To remove the saddle seat, locate the release mechanism (typically a button or lever) at the base of the seat post and detach the seat. Store the seat in a safe place when not in use.

Usage and Storage

The Ride-Along Board is designed for universal compatibility with most single strollers, double strollers, and stroller/wagons, offering flexibility for growing families.
When not in use, the board can be conveniently flipped up and stowed against the stroller frame to save space. Alternatively, it can be completely removed from the stroller using the quick-release buttons on the attachment brackets for more compact storage or transport.

Maintenance

- **Cleaning:** Wipe down the board, wheels, and saddle seat with a damp cloth and mild soap. Avoid using abrasive cleaners or harsh chemicals, as these can damage the materials.
- **Inspection:** Regularly inspect all connections, wheels, and moving parts for any signs of wear, damage, or loose fasteners. Ensure all screws and quick-release mechanisms are functioning correctly and are tight.
- **Storage:** Store the ride-along board in a dry, cool place away from direct sunlight when not in use for extended periods. This helps preserve the materials and extends the product's lifespan.

Troubleshooting

- **Board feels unstable or wobbly:** Double-check that all attachment brackets are securely fastened to the stroller frame and that the adjustment knobs on the arms are fully tightened. Ensure the board is level and properly aligned.

- **Difficulty attaching or detaching the board:** Verify that there are no obstructions around the stroller frame where the brackets attach. Ensure the quick-release buttons are fully depressed when inserting or removing the attachment arms.
- **Wheels not rolling smoothly:** Inspect the wheels for any accumulated dirt, debris, or hair. Clean as necessary. If the issue persists after cleaning, contact Larktale customer support for further assistance.
- **Saddle seat not adjusting:** Check for any obstructions in the seat post mechanism. Ensure the release button or knob is fully engaged when attempting to adjust the height.
