

Kensington K81175WW

Kensington W2000 1080P Auto Focus Webcam User Manual

Model: K81175WW

1. INTRODUCTION

The Kensington W2000 1080P Auto Focus Webcam is designed to provide high-quality video and clear audio for video conferencing and online communication. This manual provides instructions for setting up, operating, and maintaining your webcam, along with detailed specifications and troubleshooting tips.

Figure 1: Kensington W2000 1080P Auto Focus Webcam

2. PACKAGE CONTENTS

Verify that all items are present in your package:

- Kensington W2000 Webcam
- USB-C to USB-A Adapter

3. SETUP

3.1 Physical Placement

The webcam features an adjustable clip that allows for secure mounting on various displays or placement on a flat surface. It also includes a universal tripod mount for alternative positioning.

1. **On a Monitor:** Open the clip and place the webcam on top of your monitor, ensuring the front of the webcam faces you. Adjust the clip to securely grip the back of the monitor.
2. **On a Flat Surface:** Fold the clip to create a stable stand and place the webcam on a desk or shelf.
3. **Tripod Mounting:** Attach the webcam to a standard tripod using the integrated tripod mount on the bottom of the clip.

Figure 2: Webcam mounted on a monitor

3.2 Connection

The Kensington W2000 Webcam connects to your computer via a USB cable. It supports both USB-A and USB-C ports.

1. Connect the USB cable from the webcam directly to an available USB port on your computer.
2. If your computer only has USB-C ports, use the provided USB-C to USB-A adapter.
3. The webcam is plug-and-play and should be automatically recognized by your operating system.

4. OPERATING INSTRUCTIONS

4.1 Basic Operation

Once connected, the webcam is ready for use with most video conferencing applications (e.g., Zoom, Microsoft Teams, Google Meet). Select the Kensington W2000 as your video and audio input device within your application's settings.

4.2 Privacy Shutter

The webcam includes an integrated lens cover for privacy. Slide the cover to the left to expose the lens for use, and slide it to the right to cover the lens when not in use.

1080p (1920x1080/30fps)

Provides automatic focus.

Supports low-light environments.

Figure 3: Integrated Privacy Shutter

4.3 Manual Adjustment

The webcam can be manually adjusted to achieve optimal camera angles:

- **Vertical Adjustment:** Tilt the webcam up or down by up to 37 degrees.
- **Horizontal Adjustment:** Rotate the webcam horizontally by up to 360 degrees.

Privacy Focused

Narrow 75° view is ideal for 1-on-1 calls.
Integrated lens cover controls when you are seen.

Figure 4: Manual Pan and Tilt

5. SOFTWARE CONTROL: KENSINGTON KONNECT

For advanced customization of your video settings, download and install the Kensington Konnect software. This software allows you to:

- Adjust focus settings.
- Utilize electronic pan, tilt, and 2x zoom (ePTZ) to optimize your video frame.
- Personalize video with various effects, mood, and lighting controls.

The Kensington Konnect software is compatible with popular platforms such as Microsoft Teams, Google Meet, and Zoom.

Kensington Konnect™ Software

Personalize video settings with

Kensington Konnect™

Supports Microsoft Teams, Google Meet, Zoom.

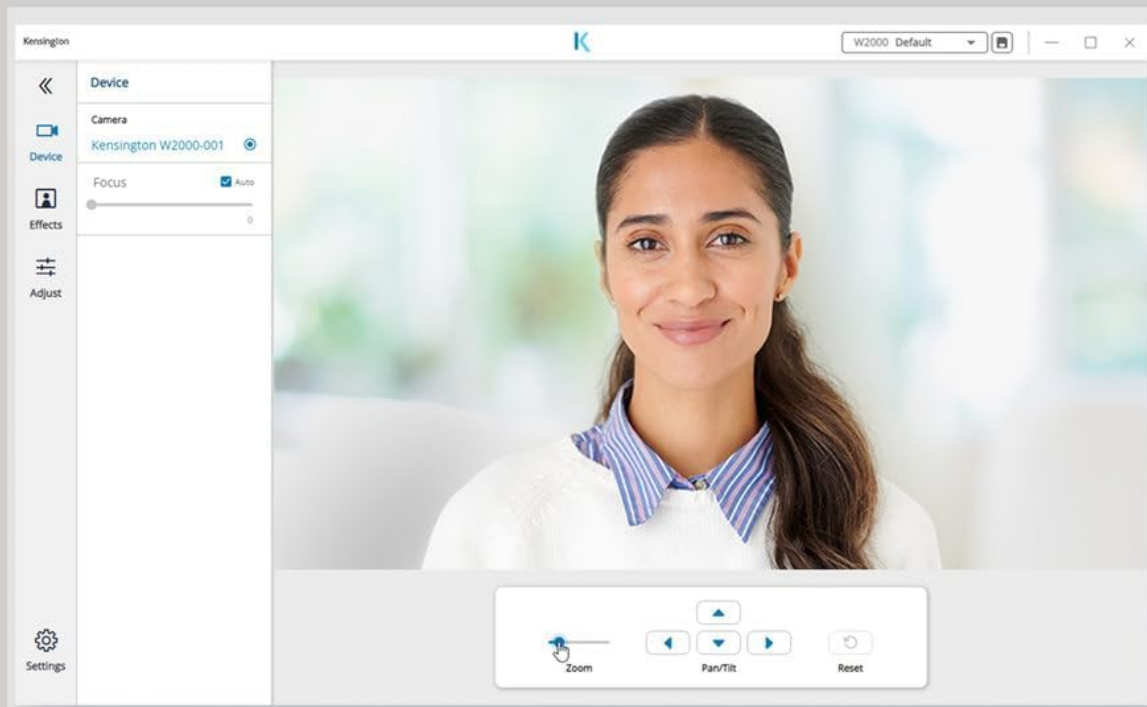

Figure 5: Kensington Konnect Software Interface

6. KEY FEATURES

- **High-Quality Video:** Delivers crisp 1080p video at 30 frames per second (1920x1080/30fps).
- **Automatic Focus and Light Correction:** Ensures clear and vibrant video quality, adapting to various lighting conditions.

Versatile Positioning

Electronic pan, tilt, and 2x zoom (ePTZ).
Manually adjusts up to 37° vertically and 360° horizontally.

Figure 6: 1080p Video and Auto Focus

- **Privacy-Focused Field of View:** A narrow 75-degree diagonal field of view is ideal for individual calls, minimizing background distractions.
- **Integrated Lens Cover:** Provides physical privacy control.

Kensington:

Others:

✓ 1080p with autofocus and light correction technology

✓ Simple and powerful Kensington Connect™ software

✓ Privacy focused - optimized for 1-on-1 calls

✓ Versatile positioning

✗ Grainy with poor low-light support

✗ No customization features

✗ Not optimized for 1-on-1 calls and no lens cover to protect against hackers

✗ No options for better camera angles or optimized frames

Figure 7: Privacy-Focused 75° Field of View

- **Built-in Omni-directional Microphone:** Features noise-reduction technology for clear audio capture.
- **Universal Compatibility:** Works with both USB-A and USB-C devices.

7. SPECIFICATIONS

Feature	Specification
Model Number	K81175WW
Product Dimensions	3.5 x 2.13 x 1.93 inches
Item Weight	10.6 ounces
Video Capture Resolution	1080p (1920x1080) at 30fps
Photo Sensor Technology	CMOS
Maximum Focal Length	4

Feature	Specification
Maximum Aperture	2.4 f
Field of View	75° Diagonal
Microphone	Built-in Omni-directional with Noise Reduction
Connectivity Technology	USB-A, USB-C (via adapter)
Video Capture Format	MP4
Supported Audio Format	MP3

8. MAINTENANCE

To ensure optimal performance and longevity of your webcam:

- **Cleaning the Lens:** Gently wipe the lens with a soft, lint-free cloth. Avoid using harsh chemicals or abrasive materials.
- **Cleaning the Body:** Use a soft, dry cloth to clean the webcam's exterior.
- **Storage:** When not in use, store the webcam in a clean, dry environment. Utilize the integrated privacy shutter to protect the lens.

9. TROUBLESHOOTING

If you encounter issues with your Kensington W2000 Webcam, consider the following:

- **No Video/Audio:**
 - Ensure the USB cable is securely connected to both the webcam and your computer.
 - Verify that the webcam is selected as the primary video and audio device in your operating system's settings and within your video conferencing application.
 - Check if the privacy shutter is open.
 - Try connecting the webcam to a different USB port or another computer to rule out port or system issues.
- **Poor Video Quality:**
 - Ensure adequate lighting in your environment.
 - Clean the webcam lens with a soft cloth.
 - If using the Kensington Konnect software, check and adjust video settings such as brightness, contrast, and focus.
- **Microphone Issues:**
 - Confirm the webcam's microphone is selected as the input device in your system and application settings.
 - Ensure the microphone is not muted in your system or application.

10. WARRANTY AND SUPPORT

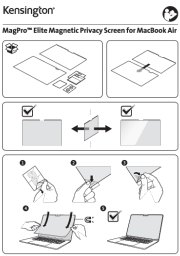

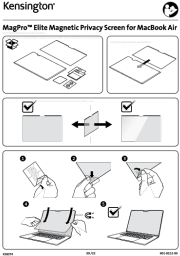

Kensington stands behind the W2000 Webcam with a **2-year warranty**. For technical support, driver downloads, or

further assistance, please visit the official Kensington support website.

Ottimizzata per videoconferenze.

Molti professionisti sono spaventati dalle conoscenze tecnologiche necessarie a creare una configurazione desktop ottimizzata e dal fatto di dover comprendere, implementare e aggiornare vari pacchetti software richiesti per ottimizzare la propria esperienza di videoconferenza. Abbiamo una soluzione che semplifica questo processo. Ottimizzata per le videoconferenze, la webcam W2000 offre video in qualità HD (1080p a 30 FPS), suono unidirezionale, ricerca e caratteristiche uniche per migliorare il vostro processo creativo della videoconferenza e immagini migliori in streaming con audio unidirezionale. Risolve problemi e vi aiuta a personalizzare il vostro setup e a risolvere gli accessori Kensington.

Le caratteristiche includono:

- Ottimizzata per Microsoft Teams, Zoom e altri software
- Campo visuale ristretto a 75° focalizza l'attenzione sull'utente
- Personalizzazione delle impostazioni video con Kensington Komem™
- Rotazione, inclinazione a 30° in entrambi i sensi, regolazione orizzontale fissa
- Regolazione manuale verticale di 30° e automatica di 30°
- Sensori di grandi dimensioni per immagini di qualità in ambienti con scarsa illuminazione
- Microfono unidirezionale con soppressione dei rumori
- Sicurezza da polso

Zoptymalizowana pod kątem prowadzenia wideokonferencji.

Wielu pracowników jest przytłoczonych potrzebą znajomości technologii niezbędnej do optymalnej konfiguracji komputera oraz oprogramowania. Wiele osób potrzebuje pomocy w zrozumieniu, jak skonfigurować komputer do prowadzenia wideokonferencji. Dlatego stworzyliśmy rozwiązanie, które upraszcza ten proces. Zoptymalizowana pod kątem zastosowań wideo internetowa kamera W2000 zapewnia wysokiej jakości wideo (1080p przy 30 klatkach na sekundę), wideo unidirectional, automatyczną i ręczną regulację pionową, funkcję zoomowania, funkcję przechyłu i funkcję obrotu. Rozwiązuje problemy i pomaga w personalizacji Twojego zestawu i w rozwiązywaniu problemów z akcesoriar. Kensington.

Właściwości produktu:

- Zoptymalizowana pod kątem wideokonferencji przez oprogramowanie Komem™
- Wzrost pola widzenia na 75° skupia uwagę na Tobie
- Personalizacja ustawień za pomocą Kensington Komem™
- Elektronika sterująca obrótem, przechyłem i zoomowaniem pionowym zoptymalizowana dla Ciebie
- Regulacja manualna pionowa 30° i automatyczna 30° w pionie oraz 30° w poziomie
- Duże czujniki światła i czujniki głosu dla lepszej jakości
- Unidirectional mikrofon z redukcją szumów i tłumieniem
- Wyposażenie w opaskę na nadgarstek dla zwiększenia bezpieczeństwa
