Logickeyboard LKB-OSX-A2M-US

Logickeyboard Astra 2 Backlit Keyboard for macOS User Manual

Model: LKB-OSX-A2M-US

INTRODUCTION

Thank you for choosing the Logickeyboard Astra 2 Backlit Keyboard for macOS. This keyboard is specifically engineered to enhance your workflow on macOS systems with clearly labeled shortcut keys and a comfortable typing experience. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your new keyboard.

SETUP

Follow these steps to connect your Logickeyboard Astra 2 to your macOS device.

1. **Unpack the Keyboard:** Carefully remove the keyboard and the included USB cable from its packaging.
2. **Connect the USB Cable:** Locate an available USB port on your macOS computer or a powered USB hub. Insert the USB connector from the keyboard cable into the port. The keyboard features a USB 3.0 hub, which requires a stable connection to function optimally.
3. **System Recognition:** Your macOS system should automatically detect and install the necessary drivers for the keyboard. No additional software installation is typically required.
4. **Verify Functionality:** Once connected, test the keyboard by typing in a text editor to ensure all keys are responsive.

OPERATING INSTRUCTIONS

The Logickeyboard Astra 2 is designed for intuitive use with macOS. Here are its primary operational features:

Adjustable Backlit Illumination

The keyboard features five selectable brightness levels for its backlight. Use the dedicated brightness control keys, typically located on the function row (F1-F12), to cycle through the illumination settings. This allows for comfortable typing in various lighting conditions.

macOS Optimized Design and Shortcut Keys

The keycaps are clearly labeled with macOS-specific shortcuts and color-coded commands, streamlining your workflow in various

applications. Familiarize yourself with these labels to maximize productivity.

Integrated USB 3.0 Hub

The keyboard includes a built-in USB 3.0 hub. This allows you to connect peripheral devices such as a mouse, smartphone, or USB dongle directly to the keyboard, reducing cable clutter and providing convenient access to additional USB ports.

MAINTENANCE

Proper care will ensure the longevity and optimal performance of your Logickeyboard Astra 2.

- **Cleaning:** Use a soft, lint-free cloth slightly dampened with water or a mild, non-abrasive cleaning solution to wipe the surface of the keyboard. Avoid spraying liquids directly onto the keyboard.
- **Dust Removal:** Use compressed air to remove dust and debris from between the keys.
- **Avoid Spills:** Keep liquids away from the keyboard to prevent damage to internal components.
- **Storage:** When not in use for extended periods, store the keyboard in a clean, dry environment.

TROUBLESHOOTING

If you encounter issues with your Logickeyboard Astra 2, refer to the following common solutions:

- **Keyboard Not Responding:**
 - Ensure the USB cable is securely connected to both the keyboard and your computer.
 - Try connecting the keyboard to a different USB port on your computer.
 - Restart your macOS device.
- **Backlight Not Working:**
 - Press the backlight control keys (usually F1-F12) to ensure the brightness is not set to the lowest level or turned off.
 - Verify the keyboard is receiving sufficient power, especially if connected via a non-powered USB hub.
- **USB Hub Not Functioning:**
 - Ensure the main keyboard USB cable is connected to a USB 3.0 port on your computer for optimal performance.

- Test the connected peripheral directly to your computer to rule out issues with the device itself.
- Avoid connecting high-power-draw devices to the keyboard's USB hub without an external power source for the hub.
- **Incorrect Key Layout:**
 - Check your macOS system settings for keyboard input sources and ensure the correct layout (e.g., U.S. English) is selected.

SPECIFICATIONS

Brand	Logickeyboard
Model Number	LKB-OSX-A2M-US
Connectivity Technology	USB-C, USB
Compatible Devices	PC, Laptop (macOS)
Keyboard Description	Multimedia
Switch Type	Scissor-Switch
Number of Keys	104
Keyboard Layout	QWERTY
Color	Black
Product Dimensions (L x W x H)	17.63" x 6" x 2.75"
Included Components	USB Cable
Special Feature	Ergonomic, Backlit, Integrated USB Hub
