Samsung HAF-QIN-3P/EXP

SAMSUNG Refrigerator Water Filter

Model: HAF-QIN/EXP (HAF-QIN-3P)

Genuine Filters for Refrigerator Water and Ice

1. Introduction

This manual provides essential information for the proper installation, operation, and maintenance of your SAMSUNG Genuine Refrigerator Water Filter. Designed to deliver clean, fresh-tasting water, this filter utilizes advanced carbon block filtration to reduce common contaminants found in tap water. Please read this manual thoroughly before use to ensure optimal performance and longevity of your filter.

2. Product Overview

The SAMSUNG HAF-QIN/EXP water filter is engineered to provide safe and healthy filtered water directly from your refrigerator. It is certified by NSF International for its ability to significantly reduce various contaminants.

Key Features:

- **Fresh Filtered Water:** Samsung water filters reduce contaminants, giving your family fresh tasting water.
- **Reduces Contaminants:** Samsung's ultra-high-grade carbon block reduces 99% of potentially harmful contaminants, including lead, mercury, chlorine, DEET, pharmaceuticals, herbicides, and pesticides.
- **Genuine Samsung Filters:** Samsung filters are designed to work with your refrigerator to avoid the risk of flooding while giving you clean, filtered water.
- **Long Lasting Use:** Samsung refrigerator water filters offer long-lasting use and easy installation. It is recommended to replace your water filter every 6 months.
- **Avoid Water Damage:** Only Samsung filters are guaranteed to perform correctly with your refrigerator, avoiding the risk of water damage to your fridge and your home.
- **Fridge Compatibility:** Compatible with Samsung French Door, Side by Side, or Bespoke Refrigerators.

3. Setup & Installation

The SAMSUNG HAF-QIN/EXP water filter is designed for easy installation. Before beginning, ensure you have read all safety warnings and instructions provided with your refrigerator and the filter packaging.

Installation Steps:

1. Locate the water filter compartment in your Samsung refrigerator. This is typically found in the upper right corner of the fresh food compartment or within the bottom freezer drawer, depending on your model.
2. Turn off the water supply to the refrigerator.
3. Twist the old filter counter-clockwise to unlock it, then pull it straight out. A small amount of water may drip; this is normal.
4. Remove the protective cap from the new filter.
5. Align the new filter with the filter housing and push it firmly into place.
6. Twist the filter clockwise until it locks securely. You should feel a click.
7. Turn the water supply back on.
8. Run water through the dispenser for approximately 3-5 minutes (about 1-2 gallons) to flush out any air and carbon fines. This ensures optimal filtration and taste.
9. Reset the 'Filter Indicator' light on your refrigerator's display, if applicable. Refer to your refrigerator's user manual for specific instructions on resetting the indicator.

Authenticating Your Filter:

To ensure your filter is a genuine Samsung product, use the Authentication Tag provided on the filter packaging:

1. Detach the Authentication Tag from the filter.
2. Place the Tag over the back of the provided magnet (found inside the filter box).
3. Green stripes will appear if it’s an authentic Samsung water filter.

For visual guidance, official instructional videos from Samsung are available online. Please refer to the Samsung support website for more details.

4. Operation

Once installed, your Samsung water filter operates continuously to provide filtered water and ice. Simply use your refrigerator's water dispenser and ice maker as usual to enjoy clean, clear, and fresh-tasting water.

5. Maintenance

Regular replacement of your water filter is crucial for maintaining water quality and preventing potential issues. The filter has a recommended usage life.

Filter Replacement Schedule:

- It is recommended to replace your water filter every **6 months** or after dispensing approximately **300 gallons (1,136 liters)** of water, whichever comes first.
- Your refrigerator may have a filter indicator light that will turn on when it's time to replace the filter.
- Use the included month stickers to mark the installation date on the filter or a visible location on your refrigerator to help track replacement intervals.

6. Troubleshooting

If you encounter any issues with your water filter, consider the following common troubleshooting steps:

- **Reduced Water Flow:** This often indicates a clogged filter that needs replacement. Ensure the filter is properly seated and locked.
- **Unpleasant Taste or Odor:** If the water develops an unusual taste or odor, it's likely time to replace the filter. Also, ensure you have flushed the new filter adequately after installation.
- **Leaking:** Check that the filter is correctly installed and fully twisted into its locked position. Ensure the O-rings on the filter are not damaged. If leaking persists, turn off the water supply and contact Samsung support.
- **Filter Indicator Light Not Resetting:** Refer to your refrigerator's user manual for specific instructions on how to reset the filter indicator light for your model.

For persistent issues not resolved by these steps, please contact Samsung customer support.

7. Specifications

Attribute	Detail
Model Code	HAF-QIN/EXP
Replacement Cartridge	DA97-17376B
For Use In System	DA97-08006C
Capacity	300 Gallons (1,136 Liters)
Usage Life	6 Months
Temperature Range	34-100°F (1-38°C)
Flow Rate	0.4 GPM (1.5 LPM)
Pressure Range	30-125 PSI (207-862 KPA)
Material	Plastic
Product Dimensions (D x W x H)	2.13" x 2.13" x 8.86"
Item Weight	2.14 Pounds (for pack of 3)
External Testing Certification	ANSI, NSF
Product Benefits	Carbon Block Filtration
UPC	887276429366
Number of Items	3

Compatible Refrigerator Models:

This filter is compatible with a wide range of Samsung refrigerator models, including but not limited to:

- Samsung BRF425200AP, RF18A5101SR, RF20A5101SR, RF22R7551SR, RF23A9071SG, RF23A9071SR, RF23A9671SG, RF23A9671SR, RF23A9771SG, RF23BB8200AP, RF23BB86004M, RF23BB8600AP, RF23BB8900AC, RF23M8570SR, RF23M8960S4, RF23R6301SR, RF24BB620012, RF24BB6200AP, RF24BB69006M, RF24BB6900AC, RF24BB6900AW, RF25C5551SR, RF27CG5100SR, RF27T5201SG, RF28R6241SR, RF28R6301SG, RF28R7351SG, RF28T5001SG, RF28T5101SR, RF28T5101WW, RF28T5F01SR, RF29A9071SR, RF29A9671SG, RF29A9671SR, RF29A9675AP, RF29BB820012, RF29BB8200AP,
