## SETUP

### 1. Initial Charging

1. Before first use, fully charge the PLEX with Flex device.
2. Connect the provided USB charging cable to the charging port on the device.
3. Plug the other end of the USB cable into a compatible USB power source (e.g., computer, USB wall adapter).
4. The indicator light on the device will show charging status (refer to device for specific light behavior).
5. Allow approximately 2-3 hours for a full charge.

## 2. Remote Control Battery

The remote control typically comes with a CR2032 battery installed, often with a protective tab. Remove any protective tab before first use. If the remote does not function, replace the battery with a new CR2032 type.

## MAINTENANCE

### 1. Cleaning

- Clean the device thoroughly before and after each use.
- Wash with warm water and a mild, toy-safe soap.
- Rinse thoroughly to remove all soap residue.
- Pat dry with a lint-free cloth or allow to air dry completely.
- Do not use harsh chemicals, alcohol-based cleaners, or petroleum-based lubricants, as these can damage the silicone material.

### 2. Storage

- Store the device in the provided storage pouch in a cool, dry place, away from direct sunlight and extreme temperatures.
- Keep away from other silicone products to prevent material degradation.
