It was pleasant to wake up in Florence, to open the eyes upon a bright bare room, with a floor of red tiles which look clean though they are not; with a painted ceiling whereon pink griffins and blue amorini sport in a forest of yellow violins and bassoons. It was pleasant, too, to fling wide the windows, pinching the fingers in unfamiliar fastenings, to lean out into sunshine with beautiful hills and trees and marble churches opposite, and close below, the Arno, gurgling against the embankment of the road.

Over the river men were at work with spades and sieves on the sandy foreshore, and on the river was a boat, also diligently employed for some mysterious end. An electric tram came rushing underneath the window. No one was inside it, except one tourist; but its platforms were overflowing with Italians, who preferred to stand. Children tried to hang on behind, and the conductor, with no malice, spat in their faces to make them let go. Then soldiers appeared – good-looking, undersized men – wearing each a knapsack covered with mangy fur, and a great-coat which had been cut for some larger soldier. Beside them walked officers, looking foolish and fierce, and before them went little boys, turning somersaults in

4. MAINTENANCE

Waterproofing

The Kobo Libra 2 is designed to be fully waterproof with an IPX8 rating. This means it can be submerged in up to 2 meters of water for up to 60 minutes. While it offers robust protection, it is recommended to avoid prolonged submersion and ensure the charging port is dry before connecting any cables.

Cleaning

To clean your Kobo Libra 2, use a soft, lint-free cloth. For smudges or fingerprints, a slightly damp cloth can be used. Avoid abrasive materials or harsh chemicals that could damage the screen or casing.

Battery Life and Charging

The Kobo Libra 2 offers an impressive battery life of approximately 21 hours of continuous reading. To charge the device, use the provided USB-C cable and connect it to a compatible power source (e.g., computer USB port or wall adapter). A full charge typically takes a few hours.

5. TROUBLESHOOTING

Device Freezing

If your Kobo Libra 2 becomes unresponsive or freezes, press and hold the power button for about 15-20 seconds to perform a hard reset. This should restart the device and resolve most freezing issues.

Screen Blinking/Lag

E Ink screens periodically refresh, which may cause a brief blink or flash. This is normal behavior for E Ink technology and helps maintain optimal display quality. Minor lag when navigating menus or loading new content is also typical due to the nature of the display.

OverDrive Issues

If you experience issues with OverDrive, such as books not downloading or progress being lost, ensure your device has a stable Wi-Fi connection. Sometimes, returning and re-borrowing a book can resolve synchronization problems. Kobo automatically downloads "preview" copies when library books are returned; these can be manually removed from your library if not desired.
