Logicool LBUSB1

Logicool Logi Bolt USB Receiver (LBUSB1) User Manual

Secure and Reliable Wireless Connectivity

1. INTRODUCTION

The Logicool Logi Bolt USB Receiver (model LBUSB1) is an advanced wireless receiver designed to provide a robust, secure, and high-performance connection between your Logi Bolt compatible devices and your computer. This receiver utilizes Logicool's new Logi Bolt wireless communication technology, ensuring a stable and efficient user experience.

The Logi Bolt USB Receiver (LBUSB1) provides a secure wireless connection for your compatible devices.

This manual provides essential information on setting up, operating, and maintaining your Logi Bolt USB Receiver, along with troubleshooting tips and product specifications.

2. KEY FEATURES

- **Logi Bolt Wireless Technology:** Utilizes Logicool's latest wireless communication technology for enhanced security and performance.
- **Secure Connection:** Designed based on a global standard secure connection dedicated mode, compliant with Federal Information Processing Standards (FIPS), ensuring a safer and more closed connection.

- **Multi-Device Connectivity:** Connect up to 6 Logi Bolt compatible devices using a single USB receiver.
- **Extended Range:** Offers a reliable connection distance of up to 10 meters (33 feet).
- **Broad OS Compatibility:** Supports Windows 10 or later, macOS 10.14 or later, and Chrome OS.

新ワイヤレス通信技術「Logi Bolt（ロジボルト）」を、搭載したUSB-Aレシーバーが登場。

「Logi Bolt」対応端末で使用可能なこのレシーバーは、グローバルスタンダードのセキュア接続専用モードに基づいた設計で、

より安全でクローズドな接続を実現しています。

The Logi Bolt receiver provides a secure and high-performance wireless connection.

3. SETUP GUIDE

Follow these steps to set up your Logi Bolt USB Receiver and connect your compatible devices:

1. **Insert the Receiver:** Plug the Logi Bolt USB Receiver into an available USB-A port on your computer.

The Logi Bolt USB Receiver.

2. **Install Logi Options Software:** For optimal functionality and to pair your Logi Bolt devices, download and install the Logi Options software. This software is essential for establishing the connection. You can find the latest version on the official Logicool support website.

3. **Pair Your Devices:** Open the Logi Options software and follow the on-screen instructions to pair your Logi Bolt compatible mouse, keyboard, or other devices with the receiver. The software will guide you through the pairing process.

対応するデバイス最大6台に
1つのUSBレシーバーで接続可能
接続距離：最大10m

Once the receiver is plugged in and software installed, you can pair your devices.

4. **Verify Connection:** Once paired, your devices should be ready for use. Test their functionality to ensure a stable connection.

4. OPERATING INSTRUCTIONS

Once set up, the Logi Bolt USB Receiver operates seamlessly in the background, providing a reliable wireless link. Here are some operational considerations:

- **Automatic Reconnection:** Paired devices will automatically reconnect to the receiver when they are turned on and within range.
- **Multi-Device Management:** Use the Logi Options software to manage multiple paired devices, customize settings, and check battery levels for your Logi Bolt peripherals.
- **Optimal Placement:** For the best wireless performance, ensure the receiver is not obstructed and is placed within 10 meters of your Logi Bolt devices. Avoid placing it near large metal objects or other sources of wireless interference.

5. MAINTENANCE

The Logi Bolt USB Receiver requires minimal maintenance. Follow these guidelines to ensure its longevity:

- **Keep Clean:** Gently wipe the receiver with a soft, dry cloth to remove dust or debris. Do not use liquid cleaners or abrasive materials.
- **Protect from Damage:** Avoid dropping the receiver or exposing it to extreme temperatures or moisture.
- **Safe Storage:** When not in use, store the receiver in a safe place to prevent loss or damage. Many Logi Bolt compatible devices have a dedicated storage slot for the receiver.

6. TROUBLESHOOTING

If you encounter issues with your Logi Bolt USB Receiver, try the following troubleshooting steps:

- **No Connection/Device Not Recognized:**
    - Ensure the receiver is fully inserted into a working USB-A port. Try a different USB port.
    - Verify that the Logi Options software is installed and up-to-date. This software is crucial for pairing and managing Logi Bolt devices.
    - Restart your computer.
    - Re-pair your device using the Logi Options software.

- **Intermittent Connection/Lag:**
    - Ensure the receiver is within the 10-meter range of your device.
    - Move the receiver closer to your device, or use a USB extension cable to position it more optimally.
    - Avoid placing the receiver near sources of strong wireless interference (e.g., Wi-Fi routers, cordless phones, microwave ovens, large metal objects).
    - Check for firmware updates for your Logi Bolt devices and the receiver via the Logi Options software.

- **Device Battery Life:** The receiver itself does not use batteries. If your connected device is not working, check its battery level.

7. SPECIFICATIONS

Feature	Detail
Model Number	LBUSB1
Brand	Logicool

Feature	Detail
Hardware Interface	USB-A
Data Link Protocol	USB
Compatible Devices	Logi Bolt Keyboards, Logi Bolt Mice, Desktop PCs
Supported OS	Windows 10 or later, macOS 10.14 or later, Chrome OS
