# Hasbro Gaming Clue Board Game: Robbery at The Museum - Instruction Manual

Model: F6109

## 1. INTRODUCTION

The Hasbro Gaming Clue Robbery at the Museum is an escape and solve mystery game. Players work together to escape the museum and identify a traitor, what they stole, and where they hid it. This manual provides comprehensive instructions for setting up and playing the game.

### Key Features:

- **Escape and Solve Mystery Game:** Combines classic Clue intrigue with a heist-themed escape room format.
- **Cooperative Gameplay:** Players collaborate to solve the mystery, escape the museum, and catch the traitor. Designed for 1-6 players.
- **Dynamic Gameboard:** The gameboard evolves as players explore exhibits, draw cards, and unlock new rooms.
- **Clue Collection:** Gather evidence to deduce the who, where, and what of the crime.
- **Single-Play Experience:** Offers a cinematic, one-time solve mystery for immersive gameplay.

## 2. COMPONENTS

Verify that all components are present before starting the game:

- 6 Plastic Pawns
- 8 Gameboards
- 1 Secret Object
- 1 Secret Envelope
- 117 Cards

**Figure 2.1:** All game components laid out, showing the various gameboards, character cards, clue cards, pawns, and the "SOLVE" envelope.

### 3. SETUP

1. **Prepare the Gameboard:** Unfold the main gameboard sections and arrange them as indicated in the game guide. The museum layout will evolve as you play.
2. **Character Selection:** Each player chooses a character pawn. Place the pawns at their designated starting positions on the gameboard.
3. **Card Separation:** Separate the 117 cards into three distinct piles: Suspects (characters), Weapons (stolen items), and Rooms (locations).
4. **Secret Envelope:** From each of the three piles (Suspects, Weapons, Rooms), secretly select one card without looking and place it into the "Secret Envelope." This envelope contains the solution to the mystery. Place the sealed envelope aside, face down.
5. **Distribute Remaining Cards:** Shuffle the remaining cards from all three piles together. Deal these cards face down to all players as evenly as possible. Players should keep their cards secret.
6. **Detective Notebooks:** Each player receives a detective notebook and a pencil (not included). Players mark off the

cards they hold, as these cannot be the solution.

**Figure 3.1:** Initial game setup showing players arranging gameboards and distributing cards.

## 4. OPERATING (HOW TO PLAY)

The game is played cooperatively. The objective is to escape the museum and correctly identify the traitor, the stolen item, and its hiding place.

### Game Flow:

1. **Player Turns:** Players take turns moving their pawns around the museum gameboard. The game involves exploring exhibits, drawing cards, and solving puzzles.
2. **Movement:** Move your pawn to explore different rooms and areas of the museum. Some areas may require solving puzzles to unlock.
3. **Gathering Clues:** As you move and interact with the game, you will uncover clues. These clues help you narrow down the possibilities for the traitor, the stolen item, and its location. Mark off possibilities in your detective

notebook.

4. **Solving Puzzles:** The game features various puzzles that must be solved to progress. Work together with other players to decipher these challenges.
5. **Making Accusations:** Once you believe you have enough information, you can make an accusation. If your accusation is correct, you win the game! If incorrect, the game continues until the correct solution is found or all players are eliminated.

**Figure 4.1:** A player moving their pawn across the gameboard to enter a new room.

**Figure 4.2:** Players collaborating during a game session, discussing clues and strategy.

**Figure 4.3:** The "SOLVE" envelope, used to reveal the mystery's solution.
