Sharper Image SpaStudio™ 10" Vanity Mirror

Sharper Image® SpaStudio™ 10" Vanity Mirror Instruction Manual

Model: SpaStudio™ 10" Vanity Mirror

INTRODUCTION

Thank you for purchasing the Sharper Image® SpaStudio™ 10" Vanity Mirror. This advanced vanity mirror is designed to enhance your daily beauty routine with its innovative features, including adjustable LED lighting, multiple magnification options, and integrated storage. Please read this manual thoroughly before use to ensure proper operation and care.

IMPORTANT SAFETY INFORMATION

CAUTION:

- This product contains electrical components and glass. Keep out of reach of children.
- Always unplug the product when not in use.
- Handle with care to avoid breakage.
- Do not use if the cord is damaged.
- Always follow the manufacturer's instructions for use and maintenance.

WHAT'S INCLUDED

Your Sharper Image® SpaStudio™ 10" Vanity Mirror package should contain the following items:

- SpaStudio™ Vanity Plus Mirror Unit
- Magnetic Mini Mirror (10X magnification)
- 2x Tray Inserts
- DC Adapter

FEATURES

The Sharper Image® SpaStudio™ 10" Vanity Mirror is equipped with several features to enhance your experience:

- **Swing-Out Storage Trays:** Built-in trays for organizing makeup and accessories, neatly closing for a clean look.
- **Dimmable LED Halo Light Ring:** Provides bright, adjustable illumination for your face.
- **Dual Magnification:** Features a standard view on one side and 5X magnification on the backside.
- **10X Magnetic Mirror Attachment:** For detailed close-up work.
- **Swivel & Tilt Rotation:** Allows for optimal viewing angles.
- **Touch-Activated Controls:** Easy adjustment of light brightness.

SETUP

1. **Unpack:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Placement:** Place the mirror on a stable, flat surface, such as a vanity or countertop. Ensure there is enough space for the swing-out trays to open fully.
3. **Connect Power:** Locate the DC input port on the back of the mirror's base. Insert the provided DC adapter into the port, then plug the adapter into a standard electrical outlet.

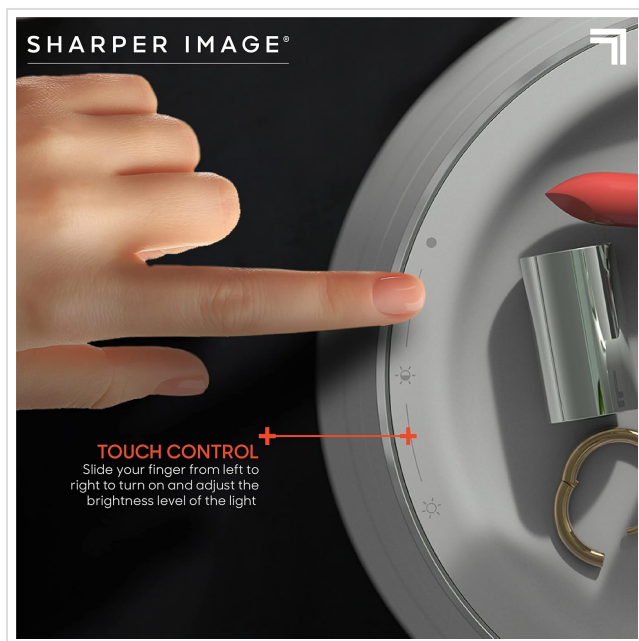

4. **Insert Trays:** Place the two tray inserts into the swing-out storage compartments in the base.

OPERATING INSTRUCTIONS

1. Powering On/Off and Adjusting Light:

The LED halo light ring is touch-activated. To turn on the light, simply touch the designated touch control area on the mirror's surface. To adjust brightness, slide your finger left or right along the touch control area to increase or decrease the light levels. Touch again to turn off.

2. Using Magnification:

The main mirror offers a standard view on one side and 5X magnification on the reverse side. To switch between views, simply flip the mirror 180 degrees.

For even closer inspection, attach the magnetic 10X mini mirror to either side of the main mirror. This allows for precise application and detailed grooming.

3. Adjusting Mirror Angle:

The mirror can be swiveled and tilted to find the most comfortable and effective angle for your needs. Gently adjust the mirror head to achieve your desired position.

4. Utilizing Storage Trays:

The base of the mirror features swing-out trays. Gently pull them out to store small cosmetic items, jewelry, or other accessories. Push them back in when not in use to maintain a tidy appearance.

MAINTENANCE

- **Cleaning the Mirror:** Use a soft, lint-free cloth and a non-abrasive glass cleaner to wipe the mirror surface. Do not spray cleaner directly onto the mirror; apply it to the cloth first.
- **Cleaning the Base:** Wipe the base and storage trays with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** When not in use for extended periods, unplug the mirror and store it in a cool, dry place, ideally in its original packaging to protect it from dust and damage.
- **General Care:** Always unplug the unit before cleaning or if it will be left unattended. Do not immerse the unit in

water or any other liquid.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	Not plugged in; power outlet issue; touch control not activated.	Ensure the DC adapter is securely plugged into the mirror and a working electrical outlet. Try a different outlet. Firmly touch the touch control area.
Light is too dim or too bright.	Brightness setting needs adjustment.	Slide your finger along the touch control area to adjust the brightness to your desired level.
Mirror does not swivel/tilt smoothly.	Dust or debris in the mechanism; overtightened.	Gently clean around the swivel points. Do not force rotation; it should move freely.
Magnetic mini mirror does not attach securely.	Surface is dirty or obstructed.	Ensure both the main mirror surface and the back of the mini mirror are clean and free of debris.
