## AGARO Elegant 700ML

# AGARO Elegant Stainless Steel Vacuum Flask 700ML User Manual

Model: Elegant 700ML

## INTRODUCTION

---

Thank you for choosing the AGARO Elegant Stainless Steel Vacuum Flask. This manual provides essential information for the safe and effective use, maintenance, and care of your new flask. Please read these instructions thoroughly before first use and retain them for future reference.

This 700ML vacuum flask is designed to keep your beverages hot for up to 20 hours and cold for up to 24 hours, thanks to its dual insulation technology. It features a durable stainless steel construction and includes a convenient tea filter.

## SAFETY INFORMATION

---

- Do not use the flask in a microwave, oven, or freezer.
- Do not overfill the flask. Leave space for the stopper/lid to prevent spills.
- Ensure the lid is securely fastened to prevent leaks, especially when carrying hot liquids.
- Keep out of reach of children when containing hot liquids.
- Avoid dropping the flask, as this may damage the vacuum insulation and affect its performance.
- Do not use abrasive cleaners or scrubbers, as they can damage the stainless steel finish.

## PACKAGE CONTENTS

---

- 1 x AGARO Elegant Stainless Steel Vacuum Flask (700ML)

## SETUP AND FIRST USE

---

1. **Unpack:** Carefully remove the flask from its packaging.

2. **Initial Cleaning:** Before first use, wash the flask and all its components (lid, tea filter) with warm water and mild dish soap. Rinse thoroughly.
3. **Pre-heating/Pre-cooling (Optional):**
  - For hot beverages: Fill the flask with hot water for 5-10 minutes, then empty.
  - For cold beverages: Fill the flask with cold water or ice for 5-10 minutes, then empty.

This step helps maximize temperature retention.
4. **Assemble:** Ensure the tea filter is correctly placed if you intend to use it. Securely attach the lid.

## OPERATING INSTRUCTIONS

---

### Filling the Flask

1. Unscrew the cap.
2. Pour your desired hot or cold beverage into the flask. Do not fill beyond the neck to allow space for the lid and prevent overflow.
3. If using the tea filter, place loose tea leaves or tea bags into the filter basket before screwing it into place at the mouth of the flask.
4. Securely screw the cap back on, ensuring a tight seal to prevent leaks and maintain temperature. The cap features food-grade sealed silicone for an effective seal.

### Temperature Retention

The AGARO Elegant flask is designed with dual insulation to maintain beverage temperatures:

- **Hot Beverages:** Up to 20 hours
- **Cold Beverages:** Up to 24 hours

## TEMPERATURE RETENTION

**Keep Drinks Cold  
For 24 Hours**

**Keep Drinks Hot  
For 20 Hours**

This image illustrates the temperature retention capabilities of the AGARO Elegant flask, showing it keeps drinks cold for 24 hours and hot for 20 hours.

### **Key Features Overview**

## KEY FEATURES OF PRODUCT

This image highlights the various components and features of the flask, such as the integrated tea filter (splash cup), the food-grade silicone seal for leak prevention, the durable SS304 stainless steel interior, and the secure clip-on lock mechanism.

## MAINTENANCE AND CARE

Proper care ensures the longevity and performance of your flask.

- **Cleaning:** The flask is **Hand Wash Only**. Wash with warm water and mild dish soap after each use. Use a bottle brush for thorough cleaning of the interior.
- **Rinsing:** Rinse all components thoroughly to remove any soap residue.
- **Drying:** Allow the flask and lid to air dry completely with the cap off to prevent odors and mildew.
- **Stains:** For stubborn stains, a mixture of baking soda and water can be used. Let it sit for a few hours, then rinse thoroughly.
- **Storage:** Store the flask with the lid off or slightly ajar to allow air circulation.
- **Avoid:** Do not use bleach or cleaners containing chlorine. Do not immerse the entire flask in water for extended periods.

## TROUBLESHOOTING

---

- **Reduced Temperature Retention:**

- Ensure the lid is tightly sealed.
- Perform pre-heating or pre-cooling steps before filling.
- Avoid frequently opening the flask, as this allows heat/cold to escape.
- Check for any visible damage to the flask body, which could compromise the vacuum seal.

- **Leaking:**

- Ensure the lid is screwed on straight and tightly.
- Check the silicone seal/gasket inside the lid for proper placement or damage. Replace if necessary.
- Do not overfill the flask.

- **Unpleasant Odor:**

- Wash thoroughly with warm soapy water and rinse well.
- Allow to air dry completely with the lid off.
- A mixture of baking soda and water can help neutralize odors.

## **SPECIFICATIONS**

---

## DIMENSION & WEIGHT

This image provides a visual representation of the flask's dimensions and weight, showing its approximate height of 10 inches (25 cm) and a weight of 392 grams.

## DUAL INSULATION BODY

This image displays a cutaway view of the flask, illustrating its dual-wall vacuum insulation design. It highlights the use of SS304 stainless steel for both the inner and outer walls, along with an additional copper coating layer for enhanced thermal performance.

Feature	Detail
Model Name	Elegant
Capacity	700 ML
