Piranha 9918

Piranha 9918 Smart Bracelet User Manual

Model: 9918

INTRODUCTION

The Piranha 9918 Smart Bracelet is a versatile activity tracker designed to help you monitor your health and fitness. It features a 0.96-inch screen and offers various functions including heart rate measurement, blood pressure and oxygen monitoring, sleep tracking, and step counting. Stay connected with call and text notifications, and benefit from its vibration alerts and IP67 water resistance for daily use.

Figure 1: The Piranha 9918 Smart Bracelet. This image displays the smart bracelet in black, featuring its digital screen which shows the current time, date, and an activity tracking indicator.

SETUP

1. **Charging the Device:** Before first use, fully charge your Piranha 9918 Smart Bracelet. Connect the charging cable to the designated port on the device and a USB power source. A full charge typically takes approximately 2 hours.
2. **Downloading the App:** Scan the QR code provided in the product packaging or search for the official Piranha Smart Bracelet app in your smartphone's app store (Google Play Store for Android, Apple App Store for iOS).
3. **Pairing with Your Smartphone:**
 - Ensure Bluetooth is enabled on your smartphone.
 - Open the Piranha Smart Bracelet app and follow the on-screen instructions to add a new device.
 - Select "Piranha 9918" from the list of available devices.
 - Confirm the pairing request on both your smartphone and the smart bracelet if prompted.
4. **Setting Up Your Profile:** Within the app, enter your personal details such as age, height, weight, and gender to ensure accurate tracking of your activities and health metrics.

OPERATING

Basic Navigation

- **Screen Activation:** Raise your wrist or tap the touch button below the screen to wake up the display.
- **Scrolling Menus:** Swipe up or down on the screen, or tap the touch button repeatedly to cycle through different functions and menus.
- **Selecting Options:** Long-press the touch button to select an option or enter a sub-menu.

Key Features

- **Heart Rate Measurement:** Navigate to the heart rate interface on the bracelet. The device will automatically start measuring your heart rate. Ensure the bracelet is snug on your wrist for accurate readings.
- **Blood Pressure & Oxygen Monitoring:** Similar to heart rate, access the blood pressure or blood oxygen interface. Remain still during measurement for best results.
- **Sleep Monitoring:** The bracelet automatically tracks your sleep patterns when worn during sleep. View detailed sleep data (deep sleep, light sleep, awake time) in the companion app.
- **Pedometer (Step Counter):** The bracelet continuously tracks your steps, distance, and calories burned throughout the day. This data syncs with the app.
- **Notifications (Text & Call):** Once paired with your smartphone, the bracelet will vibrate and display incoming call alerts and message notifications. Ensure notification permissions are enabled in the app.
- **Vibration Alerts:** The bracelet uses vibration for notifications, alarms, and reminders.
- **IP67 Water Resistance:** The device is resistant to splashes, rain, and brief immersion in water. It is not suitable for swimming or showering with hot water.

MAINTENANCE

- **Cleaning:** Regularly clean your smart bracelet, especially the sensor area, with a soft, dry cloth. If necessary, use a slightly damp cloth and then dry thoroughly. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use for extended periods, store the bracelet in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** Avoid completely draining the battery frequently. Charge the device when the battery level is low. If storing for a long time, charge it to about 50% to prolong battery life.
- **Water Exposure:** While IP67 water resistant, avoid prolonged exposure to water, especially hot water or steam. Dry the device thoroughly if it gets wet.

TROUBLESHOOTING

- **Device Not Turning On:** Ensure the device is fully charged. If it still doesn't turn on, try connecting it to a different USB port or charger.
- **Cannot Pair with Smartphone:**
 - Make sure Bluetooth is enabled on your phone and the bracelet is within range.
 - Restart both your phone and the smart bracelet.
 - Check if the app has necessary permissions (location, Bluetooth).
 - Forget the device in your phone's Bluetooth settings and try pairing again through the app.

- **Inaccurate Readings (Heart Rate, Steps):**
 - Ensure the bracelet is worn snugly on your wrist, about one finger's width above the wrist bone.
 - Clean the sensor on the back of the device.
 - For heart rate/blood pressure, remain still during measurement.
- **Notifications Not Appearing:**
 - Verify that notifications are enabled in the Piranha app settings.
 - Check your phone's system settings to ensure the app has permission to send notifications.
 - Ensure the app is running in the background and not being closed by your phone's battery optimization.

SPECIFICATIONS

Feature	Detail
Brand	Piranha
Model Name	9918
Screen Size	0.96 Inches
Water Resistance	IP67 Life Water Resistant
Case Material Type	Plastic
Battery Required	No (Built-in)
Package Dimensions	20.4 x 12.4 x 1.6 cm
Weight	120 grams
