3. PRODUCT OVERVIEW

The Denver PFF-1024 is a sophisticated 10.1-inch digital photo frame designed for ease of use and seamless photo sharing. It features an IPS touchscreen display for crisp images and intuitive navigation.

Key Features:

- **10.1-inch IPS Touchscreen:** High-resolution display (1280 x 800 pixels) for vivid, clear images and easy operation.
- **FRAMEO Software Integrated:** Pre-installed software for secure and direct sharing of photos and videos from your smartphone.
- **Wi-Fi Functionality:** Enables wireless sending and receiving of media for fast transmission.
- **16GB Internal Storage:** Ample memory to save thousands of photos directly on the frame. Expandable via MicroSD card.
- **Customizable Text Options:** Add captions to your photos to commemorate special moments.

- **Energy Efficient Timer Function:** Automatically turns off the photo frame at night to save energy.
- **Adjustable Image Rotation Time:** Set the display duration for images between 10 seconds and 30 minutes.

4. SETUP GUIDE

4.1 Unpacking and Placement

1. Carefully remove the photo frame and all accessories from the packaging.
2. Place the frame on a stable, flat surface, away from direct sunlight, heat sources, and moisture.

4.2 Power Connection

1. Connect the power adapter to the DC input port on the back of the photo frame.
2. Plug the power adapter into a standard electrical outlet. The frame will automatically power on.

4.3 Initial Setup and Wi-Fi Connection

1. Upon first power-on, the frame will guide you through the initial setup process. Follow the on-screen instructions.
2. Select your preferred language.
3. Connect to a Wi-Fi network:
 - Tap on the desired Wi-Fi network from the list.
 - Enter the Wi-Fi password using the on-screen keyboard.
 - Tap "Connect" to establish the connection.
4. Once connected, the frame will display a unique FRAMEO ID. Make a note of this ID, as it is required to connect your smartphone app.

5. OPERATING INSTRUCTIONS

5.1 Using the FRAMEO App

1. **Download the App:** Search for "FRAMEO" in the Apple App Store (for iOS) or Google Play Store (for Android) and install it on your smartphone.
2. **Create an Account:** Open the FRAMEO app and follow the instructions to create a new user account.
3. **Connect to Your Frame:**
 - In the FRAMEO app, select "Add Frame" or a similar option.
 - Enter the unique FRAMEO ID that was displayed on your photo frame during initial setup.
 - Once connected, your smartphone app is linked to your digital photo frame.
4. **Sending Photos and Videos:**
 - From the FRAMEO app, select the photos or short videos (up to 15 seconds) you wish to send.
 - You can add a caption or text to your selected media.
 - Tap "Send" to transfer the media to your Denver PFF-1024 frame. The media will appear on the frame shortly after.

Share your moments instantly

Send your favorite photos and videos from your smartphone to your Wi-Fi digital photo frame with the free FRAMEO app

– the perfect way to stay close to the ones you love.

5.2 Frame Navigation and Settings

The Denver PFF-1024 features an intuitive touchscreen interface.

- **Swiping:** Swipe left or right on the screen to navigate through photos and videos.
- **Tapping:** Tap on the screen to reveal options such as adding reactions, viewing sender information, or accessing settings.
- **Settings Menu:** Access the main settings menu to adjust various frame parameters.
 - **Slideshow Settings:** Adjust the duration each photo is displayed (10 seconds to 30 minutes) and the transition effects.
 - **Timer Function:** Set a schedule for the frame to automatically turn on and off (e.g., off at night).
 - **Wi-Fi Settings:** Manage your Wi-Fi connection.
 - **Storage:** View available storage and manage media files. You can also insert a MicroSD card for additional storage.
 - **Friends:** Manage connected FRAMEO users who can send photos to your frame.

16GB Built-in Memory

Save thousands of photos directly on the frame

Send 10 pictures & 15 second video clips at once

Add micro SD card to load more pictures and longer videos

6. MAINTENANCE

6.1 Cleaning the Frame

- Always unplug the frame before cleaning.
- Use a soft, dry, lint-free cloth to gently wipe the screen and frame.
- For stubborn marks on the screen, slightly dampen the cloth with water or a screen-cleaning solution specifically designed for electronics. Do not spray liquid directly onto the screen.
- Avoid using abrasive cleaners, solvents, or alcohol-based solutions, as these can damage the surface.

6.2 Storage

- If storing the frame for an extended period, ensure it is powered off and unplugged.
- Store it in a cool, dry place, away from extreme temperatures and humidity.

- It is recommended to keep the original packaging for safe storage and transport.

7. TROUBLESHOOTING

7.1 Frame Does Not Turn On

- Ensure the power adapter is securely connected to both the frame and a working electrical outlet.
- Check if the power outlet is functional by plugging in another device.

7.2 Cannot Connect to Wi-Fi

- Verify that your Wi-Fi network is active and within range.
- Double-check the Wi-Fi password for accuracy. Passwords are case-sensitive.
- Restart your Wi-Fi router and the photo frame, then attempt to connect again.
- Ensure the frame is not too far from the Wi-Fi router.

7.3 Photos Are Not Appearing on the Frame

- Confirm that your smartphone app is successfully connected to the frame using the correct FRAMEO ID.
- Ensure both your smartphone and the photo frame are connected to the internet.
- Check the FRAMEO app for any error messages during the sending process.
- Verify that the frame has sufficient storage space.

7.4 Touchscreen is Unresponsive

- Restart the frame by unplugging it from the power source, waiting 10 seconds, and plugging it back in.
- Ensure the screen is clean and free of debris or moisture.

8. SPECIFICATIONS
