## TROUBLESHOOTING

If you encounter any issues with your sofa, please refer to the following common solutions:

Problem	Possible Cause	Solution
<b>Sofa feels unstable or wobbly.</b>	Loose assembly screws or uneven floor.	Check and tighten all assembly screws. Ensure the sofa is on a flat, level surface. Adjust anti-slip feet if necessary.
<b>Missing parts or hardware.</b>	Packaging error or lost during unpacking.	Carefully check all packaging materials. If parts are still missing, contact Dripex customer support with your purchase details.
<b>Cushions feel too firm.</b>	New foam padding requires break-in.	The high-density foam will soften slightly with regular use. Continue to use the sofa normally.
