## VGR V-085A

# VGR V-085 Rechargeable Hair Clipper User Manual

Model: V-085A

## INTRODUCTION

---

Thank you for choosing the VGR V-085 Rechargeable Hair Clipper. This professional-grade hair clipper is designed for precise and efficient hair cutting and trimming, suitable for various hair types and styles. Its cordless design, long-lasting battery, and sharp T-blade make it an ideal tool for personal grooming at home or for professional use. Please read this manual thoroughly before using the product to ensure safe and optimal performance.

## IMPORTANT SAFETY INFORMATION

---

To reduce the risk of electric shock, injury, or fire, always follow these basic safety precautions:

- Do not immerse the clipper in water or other liquids.
- Keep the appliance away from water sources, especially when charging.
- Always unplug the clipper from the power outlet immediately after charging and before cleaning.
- Do not use the clipper if it has a damaged cord or plug, or if it is not working properly.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Use this appliance only for its intended use as described in this manual.
- Do not use attachments not recommended by the manufacturer.
- Keep the cord away from heated surfaces.
- Never drop or insert any object into any opening.
- Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
- Always store the clipper in a dry area.

## PACKAGE CONTENTS

---

Verify that all items are present in your package:

- VGR V-085 Hair Clipper
- 3 Guide Combs (1mm, 2mm, 3mm)
- Cleaning Brush
- USB Charging Cable
- Blade Oil
- User Manual

The image is a promotional graphic for the VGR V-085 Hair Clipper. On the right side, the hair clipper is shown vertically, featuring a gold-colored body with intricate embossed patterns and a silver blade head. The VGR logo is visible on the body. On the left side, there are three battery level indicators. The first indicator shows a full battery with the text '1500 mAh' above it. The second indicator shows a partially charged battery with the text '2.5 Hours' above it and 'Charge Time' below it. The third indicator shows a low battery with the text '300 Min' above it and 'Work Time' below it. At the bottom left, the text 'Convenient And Safe USB Charging' is displayed above four icons: a computer monitor, a laptop, a USB charger, and a powerbank. The VGR logo is also present in the top left corner of the graphic.

## SETUP AND CHARGING

### Initial Charge

Before first use, fully charge your VGR V-085 Hair Clipper. A full charge takes approximately 2.5 hours and provides up to 300 minutes of cordless operation.

1. Connect the USB charging cable to the clipper's charging port.
2. Plug the other end of the USB cable into a compatible USB power source (e.g., computer, laptop, USB charger, power bank).
3. The indicator light will illuminate during charging. It will change or turn off once fully charged.

Image: Visual representation of the clipper's battery specifications: 1500mAh capacity, 2.5 hours charge time, and 300 minutes work time, along with compatible USB charging methods.

### Attaching Guide Combs

The clipper comes with 3 guide combs (1mm, 2mm, 3mm) to achieve different hair lengths.

1. Select the desired guide comb size.
2. Align the comb with the clipper blade and push it firmly until it clicks into place.
3. To remove, gently pull the comb away from the blade.

1mm(0.04inch)

2mm(0.08inch)

3mm(0.12inch)

Image: Detailed view of the three guide combs (1mm, 2mm, 3mm) and how they attach to the clipper blade.

## OPERATING INSTRUCTIONS

### General Hair Cutting

1. Ensure the clipper is fully charged.
2. Attach the desired guide comb for the desired hair length.
3. Turn on the clipper by pressing the power button.
4. Start cutting from the nape of the neck, moving upwards against the direction of hair growth.
5. Use smooth, overlapping strokes for an even cut.
6. For detailing or baldheaded cuts, remove the guide comb and use the bare blade with caution.

## **Beard and Body Trimming**

The VGR V-085 is also suitable for beard and body hair trimming.

- For beard trimming, use a guide comb or the bare blade for precise lines and shaping.
- For body hair, use the appropriate guide comb to trim hair to your preferred length.
- Always ensure the skin is clean and dry before trimming.

## **MAINTENANCE AND CLEANING**

---

Regular cleaning and maintenance will ensure the longevity and optimal performance of your clipper.

### **Cleaning the Blades**

1. Turn off the clipper and unplug it from any power source.

2. Use the provided cleaning brush to remove loose hairs from the blades.
3. The blades are waterproof. You can rinse the blade head under running water. **Do not immerse the entire clipper body in water.**
4. Allow the blades to air dry completely before reattaching or storing.

Image: The clipper blade being cleaned under running water, demonstrating its waterproof design for easy maintenance.

## Oiling the Blades

After every few uses, or if the blades feel sluggish, apply a few drops of the included blade oil to the blades.

1. Apply 1-2 drops of oil across the top of the blades.
2. Turn on the clipper for a few seconds to allow the oil to distribute evenly.
3. Wipe off any excess oil with a soft cloth.

## Storage

Store the clipper in a cool, dry place, away from direct sunlight and moisture.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Clipper does not turn on.	Battery is depleted.	Charge the clipper fully.
Blades pull hair or cut poorly.	Blades are dirty or not oiled.	Clean the blades and apply blade oil.
Clipper makes unusual noise.	Blades need oiling or are misaligned.	Oil the blades. If noise persists, contact customer support.
Charging indicator not working.	Faulty cable or power source.	Try a different USB cable or power adapter.
