## Scandinavian Hub No-Screw Under Desk Cable Management Tray (2-piece set, Black)

# Scandinavian Hub No-Screw Under Desk Cable Management Tray

Model: 2-piece set, Black

Instruction Manual

## 1. INTRODUCTION

---

Thank you for choosing the Scandinavian Hub No-Screw Under Desk Cable Management Tray. This product is designed to help you organize and conceal cables, power strips, and adapters under your desk, creating a cleaner and more efficient workspace. Its self-adhesive installation method eliminates the need for drilling, making it suitable for various desk types.

## 2. PRODUCT FEATURES

---

- **Improved Desk Aesthetics:** Effectively reduces visible cable clutter for a neat and organized appearance.
- **Easy Self-Adhesive Installation:** Features strong adhesive backing for quick setup without drilling or additional tools.
- **Versatile and Spacious Design:** Ample room to accommodate multiple cables, power strips, and even larger adapters.
- **Durable and Sturdy Construction:** Made from robust Polyvinyl Chloride (PVC) material, capable of securely holding various equipment.
- **Suitable for Various Surfaces:** Adheres well to smooth surfaces such as glass, wood, and metal desks.
- **Heat Dissipation:** Designed with micro-ventilation channels to maximize airflow and help keep enclosed electronics cool.

## 3. PACKAGE CONTENTS

---

Your package should contain the following items:

- 2 x Under Desk Cable Management Trays (Black) with pre-installed double-sided adhesive
- 2 x Black Cable Straps

## 4. INSTALLATION GUIDE

---

Follow these steps for a secure and effective installation:

1. **Prepare the Surface:** Ensure the underside of your desk is clean, dry, and free from dust or grease. Use a mild cleaner if necessary, and allow it to dry completely.
2. **Peel the Adhesive:** Carefully peel off the red protective film from the double-sided adhesive strip located on the top surface of the cable management tray.

Image: Step 1 - Peeling the protective film.

- 3. Attach the Tray:** Position the tray firmly against the desired location on the underside of your desk. Press down evenly and hold for at least 30 seconds to ensure good contact.

# HEAT DISSIPATING SURFACE HELPS TO KEEP THE SURGE PROTECTORS COOL AT ALL TIMES

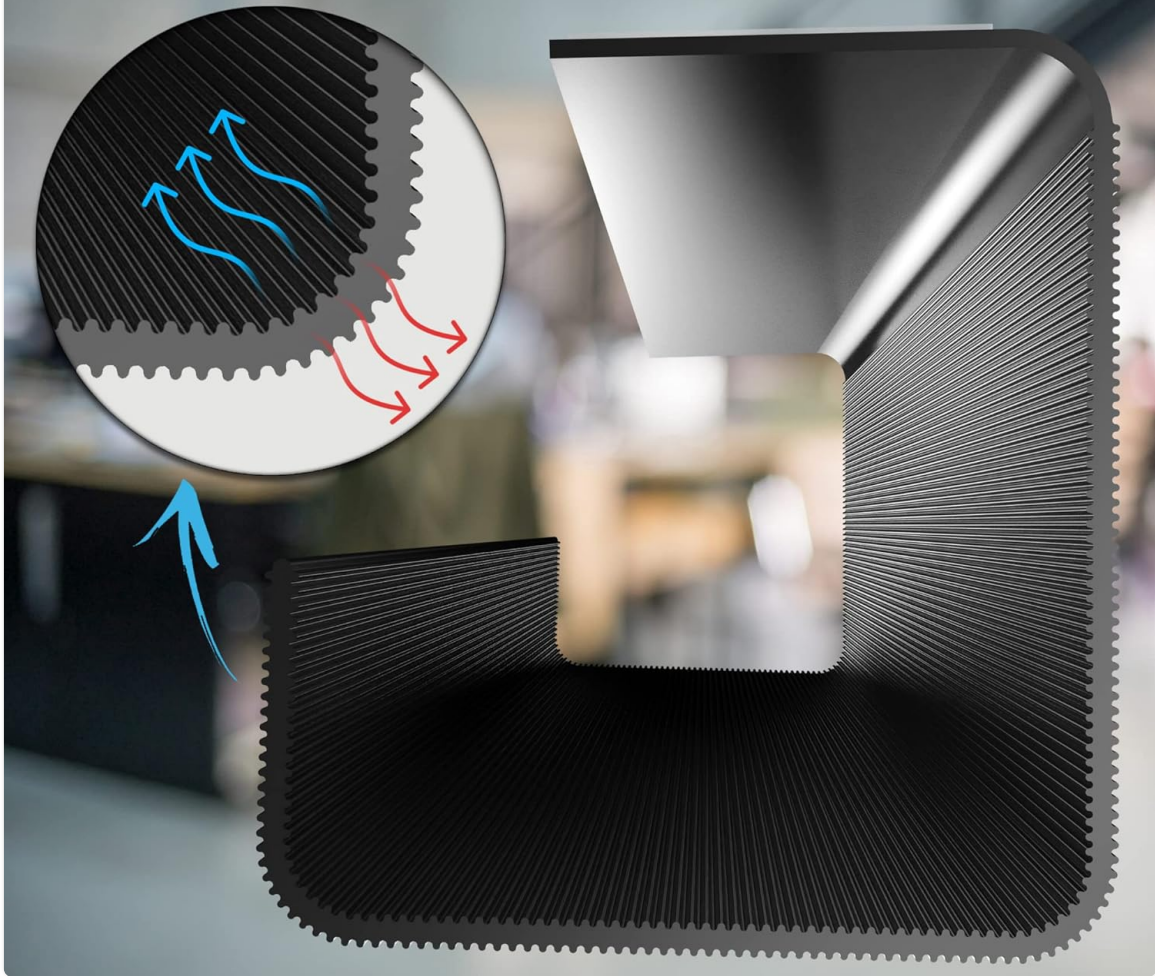

Image: Step 2 - Attaching the tray to the desk.

4. **Allow to Cure:** For optimal adhesion and maximum weight capacity, allow the double-sided tape to cure for 24 hours before placing heavy items or a significant number of cables into the tray.

## Installation Video

Your browser does not support the video tag.

Video: This official seller video demonstrates the simple self-adhesive installation process for the cable management tray, showing how to peel the backing and attach it to the desk. It also highlights the product's capacity for organizing cables and power strips.

## 5. USAGE

---

Once installed, the cable management trays provide a convenient space to store and organize your desk cables and power accessories.

- **Cable Organization:** Place excess cable lengths, power bricks, and power strips directly into the trays.
- **Cable Straps:** Use the included cable straps to bundle and secure any cables that need to run from the tray down to wall outlets or other devices, maintaining a tidy appearance.
- **Airflow:** The ribbed design of the trays promotes airflow, which helps to prevent overheating of power strips and adapters stored inside.

Image: Example of the cable management trays in use, organizing cables and a power strip under a desk.

## 6. MAINTENANCE

---

To keep your cable management trays in optimal condition:

- Wipe the trays periodically with a soft, damp cloth to remove dust and debris.
- Avoid using harsh chemicals or abrasive cleaners, as these may damage the material or adhesive.

## 7. TROUBLESHOOTING

---

**Issue: Tray is not adhering properly or falls off.**

**Solution:**

- Ensure the desk surface was thoroughly cleaned and dried before application. Any dust, oil, or moisture can compromise adhesion.
- Apply firm, even pressure across the entire adhesive strip during installation.
- Allow the adhesive a full 24 hours to cure without placing significant weight into the tray.
- If your desk surface is highly textured or porous, the adhesive may not form a strong bond. In such cases, consider using additional adhesive strips or alternative mounting solutions (e.g., screws, if compatible with your desk and desired).

**Issue: Not enough space for all cables and power strips.**

**Solution:**

- The trays are designed to be spacious. For very extensive setups, multiple trays can be installed side-by-side or in different locations under the desk to distribute the load and maximize organization.
- Utilize the included cable straps to bundle cables tightly before placing them in the tray, optimizing space.

## 8. SPECIFICATIONS

<b>Product Dimensions (each tray)</b>	17" L x 5" W x 3.9" H (43cm L x 12.7cm W x 10cm H)
<b>Item Weight (total)</b>	2.49 pounds
<b>Material</b>	Polyvinyl Chloride (PVC)
<b>Color</b>	Black
<b>Installation Type</b>	Self-Adhesive
