Pyrex 7404-SCU, 7404-PC

Pyrex 7404 4.5Qt Glass Mixing Bowl and 7404-PC Blue Lid Instruction Manual

Model: 7404-SCU (Bowl), 7404-PC (Lid)

PRODUCT OVERVIEW

The Pyrex 7404 4.5-quart glass mixing bowl with its 7404-PC blue lid is designed for food preparation, mixing, and storage. This set includes one clear glass mixing bowl and one BPA-free plastic lid, both manufactured in the USA. The non-porous tempered glass resists stains and odors, ensuring long-lasting clarity and hygiene.

SAFETY INFORMATION

- Always handle glass products with care.
- Avoid sudden temperature changes, which can cause glass to break. Do not place hot glass on a cold surface or add cold liquids to hot glass.
- Do not use on stovetop, under a broiler, or in a toaster oven.
- Inspect glass for chips or cracks before each use. Discard if damaged.
- The lid is BPA-free plastic.

SETUP

Before first use, wash the glass bowl and plastic lid thoroughly with warm, soapy water. Rinse completely and dry. Ensure both components are dry before storage or use.

OPERATING INSTRUCTIONS

General Use

- Use the glass bowl for mixing ingredients for baking, cooking, or general food preparation.
- The bowl's non-porous surface prevents absorption of food odors, flavors, or stains.

Food Storage

- Place the blue plastic lid firmly onto the rim of the glass bowl to create a seal for food storage.
- The bowl and lid are safe for use in the refrigerator and freezer.
- **Note:** The lid is specifically designed for the Pyrex 7404 4.5Qt bowl and may not fit other bowls. Similarly, this bowl is designed for the 7404-PC lid only.

Microwave Use

- The glass bowl is microwave safe.
- The plastic lid is also microwave safe. When microwaving with the lid, ensure it is loosely placed or vented to allow steam to escape and prevent pressure buildup.

MAINTENANCE

Cleaning

- Both the glass bowl and the plastic lid are top-rack dishwasher safe.
- For hand washing, use warm, soapy water and a non-abrasive sponge or cloth.
- Avoid using abrasive cleaners or scouring pads, as these can scratch the glass or plastic.

Storage

- Store the bowl and lid in a clean, dry place.
- To prevent scratches, avoid stacking other heavy items directly inside or on top of the glass bowl without protection.

TROUBLESHOOTING

Problem	Possible Cause / Solution
Lid does not fit properly.	Ensure you are using the correct lid (model 7404-PC) for the 4.5Qt Pyrex 7404 bowl. This lid is designed for a specific fit.
Glass appears cloudy or stained.	While Pyrex glass resists stains, hard water deposits can occur. Try cleaning with white vinegar or a specialized glass cleaner.
Lid retains odors.	Wash the lid thoroughly with warm, soapy water. For persistent odors, try soaking the lid in a solution of baking soda and water.

SPECIFICATIONS
