## INTRODUCTION

Thank you for choosing the HOUSNAT Popcorn Machine, Model RH-906. This electric stirring popcorn popper is designed to provide a convenient and efficient way to make fresh, delicious popcorn at home. With its 800W quick-heat technology and electric stirring mechanism, you can enjoy up to 28 cups of popcorn in approximately 4 minutes. Please read this manual thoroughly before use to ensure safe and optimal operation.

## IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, always follow these basic safety precautions:

- Read all instructions before operating the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical hazards, do not immerse cord, plugs, or the appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner. Contact customer support for examination, repair, or adjustment.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.

- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Do not use appliance for other than intended use.
- **CAUTION:** When the popcorn machine is working, please remove the black top cover to circulate ventilation. Otherwise, it will melt due to high temperatures.
- **CAUTION:** Cool-touch handles are designed to prevent burns when flipping the ejector plate. Always use caution when handling hot components.

## PRODUCT COMPONENTS

Your HOUSNAT Popcorn Machine includes the following parts:

- 1x Popcorn maker base (red and black unit with power switch)
- 1x Removable & Nonstick Popping plate (black plate with stirring arm)
- 1x Clear lid for Serving Bowl and Convenient Nesting Storage (6-quart capacity)
- 1x Black lid cap (for the vent on the clear lid)
- 1x Kernel measuring cup (100ml)
- 1x Small measuring cup (30ml)

# ONE-BUTTON OPERATION

• • •

**STEP 1** Add the oil or butter, 120 grams of corn kernels to the popping plate

**STEP 2** Put on the clear lid, then press the "I" switch

**STEP 3** Please turn off the power immediately after popping, cover the black lid cap.

**STEP 4** Hold the removable popping plate and rotate 180 degrees immediately.

*Image: All components of the HOUSNAT Popcorn Machine laid out, including the base, non-stick popping plate, transparent lid, and measuring cups.*

## SETUP

- 1. Unpack:** Carefully remove all components from the packaging.
- 2. Initial Cleaning:** Before first use, wash the transparent lid and popping plate in warm, soapy water. Rinse thoroughly and dry. Wipe the popcorn maker base with a damp cloth. Do not immerse the base in water.

3. **Assemble:** Place the removable non-stick popping plate onto the popcorn maker base, ensuring it sits securely.

## OPERATING INSTRUCTIONS

1. **Add Oil and Kernels:** Pour 30ml of oil (using the small measuring cup) onto the non-stick popping plate. Then, add 4.6 ounces (100ml) of popcorn kernels (using the large measuring cup) to the plate. Ensure kernels are spread evenly.
2. **Optional Seasoning:** For flavored popcorn, you can sprinkle sugar or other seasonings evenly over the kernels at this stage.
3. **Place Lid:** Carefully place the transparent lid onto the popping plate.
4. **Remove Vent Cover:** Ensure the black lid cap is removed from the transparent lid's vent during operation to allow steam to escape and keep popcorn crisp.
5. **Start Popping:** Plug the power cord into a standard electrical outlet and press the power switch to the 'I' (On) position. The stirring arm will begin to rotate, and the heating element will activate.
6. **Optional Butter Melting:** You can place sliced butter directly onto the transparent lid's vent cover (if removed) to melt it, allowing it to drizzle onto the popcorn as it pops.
7. **Monitor Popping:** Popcorn will typically be ready in about 3-4 minutes. The electric stirrer ensures even heating and popping, minimizing unpopped kernels.
8. **Turn Off:** Once the popping sound significantly slows or stops, immediately turn off the popcorn machine by pressing the power switch to the 'O' (Off) position. This prevents burning.
9. **Serve:** Carefully cover the transparent lid's vent with the black lid cap. Hold the cool-touch handles on the popping plate and rotate the entire unit 180 degrees. The transparent lid now acts as a serving bowl.

# Homemade Multi-Flavor Popcorn

You Can Directly Add

Spices

Salt

Sugar

Butter

Sauce

## HOUSNAT Popcorn Machine: Easy to Use and Clean

Your browser does not support the video tag.

*Video Description: This video demonstrates the simple operation and cleaning process of the HOUSNAT Popcorn Machine, emphasizing its user-friendly design and quick preparation time.*

## MAINTENANCE AND CLEANING

- **Popping Plate:** The non-stick popping plate is easy to clean. After the unit has cooled, simply wipe it with a damp cloth to remove any residue. Do not immerse the base in water.
- **Transparent Lid/Serving Bowl:** The large clear lid can be used as a popcorn bowl and is dishwasher safe. Alternatively, it can be hand-washed with warm, soapy water.
- **Storage:** The retro-looking popcorn machine can be stored compactly. The transparent lid can be inverted and nested over the base for space-saving storage.

## Convenient 1

### DISHWASHER SAFE

The transparent lid can  
be put directly  
into the dishwasher

## Convenient 2

### NON-STICK COATING

Very easy to clean, just  
wipe it with a rag

*Image: Visual guide for cleaning the popcorn machine, highlighting the dishwasher-safe lid and easy-to-wipe non-stick plate.*

## SUITABLE FOR STORAGE

Could be decorated or stored, whatever you want

*Image: The HOUSNAT Popcorn Machine demonstrating its compact storage capability by nesting the lid over the base.*

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Popcorn not popping or few kernels popped	Not plugged in; insufficient oil/kernels; old kernels.	Ensure unit is plugged in and power is on. Use recommended oil and kernel amounts. Use fresh popcorn kernels.
Popcorn is burnt	Machine left on too long; black vent cover not removed.	Turn off the machine immediately once popping stops. Always remove the black vent cover during operation.
Popcorn is not crisp	Steam trapped inside.	Ensure the black vent cover is removed during popping to allow steam to escape.

## SPECIFICATIONS

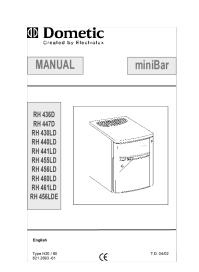

- Brand:** HOUSNAT
- Model Number:** RH-906
- Power:** 800W
- Capacity:** 28 Cups / 6 Quarts / 5.5 Liters
- Dimensions (L x W x H):** 13.97" x 11.81" x 9.76"
- Weight:** 4.99 pounds
- Material:** Glass, Metal, Plastic
- Special Features:** Electric Stirring, Quick-Heat Technology, Removable Non-Stick Surface, Cool Touch Handles, Thicken Transparent Cover (doubles as serving bowl), Ventilation Slots.
