- **Wobbling Desk:** Ensure all assembly screws are securely tightened. Verify that the desk is placed on a flat, level surface. Adjust any leveling feet if present.
- **Difficulty with Reversible Setup:** Double-check the assembly instructions for the reversible desktop configuration. Ensure the correct panels are being used for the desired orientation.

- **Monitor Stand Stability:** Confirm that the monitor stands are properly attached and their screws are tightened. Ensure the weight placed on them does not exceed their capacity.
