HATHASPACE HSP003

HATHASPACE HSP003 H13 True HEPA Filter Replacement User Manual

INTRODUCTION

Welcome to the HATHASPACE HSP003 H13 True HEPA Filter Replacement user manual. This guide provides essential information for the proper installation, maintenance, and optimal performance of your replacement filters for the HATHASPACE HSP003 Air Purifier. Regular filter replacement is crucial for maintaining indoor air quality and extending the lifespan of your air purifier.

SAFETY INFORMATION

- Always unplug the air purifier from the power outlet before attempting any maintenance or filter replacement.
- Keep replacement filters out of reach of children and pets.
- Dispose of used filters according to local regulations.
- Do not wash or reuse the H13 True HEPA or Activated Carbon filters. Only the pre-filter screen may be cleaned if applicable to your air purifier model.
- Use only certified HATHASPACE replacement filters to ensure proper fit, performance, and to maintain product warranty.

PRODUCT OVERVIEW

The HATHASPACE HSP003 H13 True HEPA Filter Replacement is designed specifically for the HATHASPACE HSP003 Dual Filtration HEPA Air Purifier. This replacement pack contains two filter cartridges, each providing dual-stage filtration:

- **Advanced H13 True HEPA Filtration:** Captures 99.97% of particles as small as 0.3 microns, including pollen, dust, pet dander, and ultrafine particles.
- **Enhanced Activated Carbon Filter:** Features a honeycomb design with increased carbon content for superior absorption of odors, gases, and volatile organic compounds (VOCs).

These filters work together to provide comprehensive air purification, effectively removing a wide range of airborne pollutants from your indoor environment.

H13 TRUE HEPA FILTRATION

Superior to standard true H11 HEPA filters, H13 True HEPA can filter particles down to 0.1 microns in diameter.

INSTALLATION (FILTER REPLACEMENT)

It is recommended to replace your HATHASPACE HSP003 filters every 4 months to maintain optimal air purification performance. Follow these steps to replace the filters:

1. **Power Off and Unplug:** Ensure your HATHASPACE HSP003 Air Purifier is turned off and unplugged from the power outlet.
2. **Remove Front Panel:** Gently pull the front panel of the air purifier to detach it. It is held in place by magnets.
3. **Remove Used Filters:** Locate the used filters inside the air purifier. The HSP003 model uses two distinct filter cartridges. Carefully pull them out using any integrated pull tabs.
4. **Clean Pre-Filter Screen (if applicable):** If your air purifier model includes a washable pre-filter screen, remove it and clean it under running water or with a vacuum cleaner. Allow it to dry completely before reinstallation.
5. **Insert New Filters:** Unpack the new HATHASPACE HSP003 replacement filter cartridges. Insert them into the air purifier, ensuring they are seated correctly. Pay attention to any
