

## Ledvion LVO10037

# Ledvion Nevada Smart LED Wall Lamp User Manual

**Brand:** Ledvion | **Model:** LVO10037

This manual provides detailed instructions for the installation, operation, and maintenance of your Ledvion Nevada Smart LED Wall Lamp.

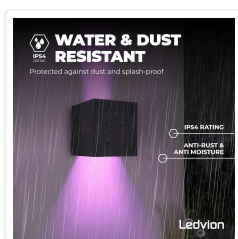

## 1. SAFETY INFORMATION

Please read these instructions carefully before installation and use. Keep this manual for future reference.

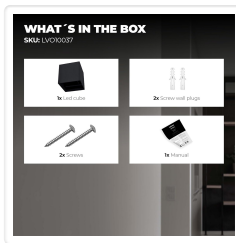

- Ensure the power supply is disconnected before installation or maintenance.
- Installation should be performed by a qualified electrician to prevent electric shock or damage.
- This product is rated IP54, suitable for both indoor and outdoor use, protecting against dust and splashing water.
- Do not attempt to disassemble or modify the lamp, as this will void the warranty and may cause damage or injury.
- Avoid looking directly into the LED light source when it is active, as it may cause eye strain.

## 2. WHAT'S IN THE BOX

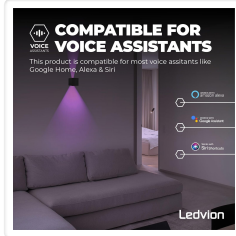

Verify that all components are present before proceeding with installation.

1x Led cube

2x Screw wall plugs

2x Screws

1x Manual

### 3. SPECIFICATIONS

## 4. INSTALLATION GUIDE

Follow these steps for proper installation of your Ledvion Nevada Smart LED Wall Lamp.

### 4.1. Preparing for Installation

1. **Unpack the Lamp:** Carefully remove all components from the packaging and check against the "What's in the Box" section.
2. **Disconnect Power:** Before starting any electrical work, ensure the main power supply to the installation area is switched off at the circuit breaker.
3. **Mark Drilling Points:** Use the lamp's mounting plate as a template to mark the drilling points on the wall. Ensure the marks are level.

### 4.2. Mounting the Lamp

1. **Drill Holes:** Drill holes at the marked points using an appropriate drill bit for your wall type.
2. **Insert Wall Plugs:** Insert the provided wall plugs into the drilled holes.
3. **Attach Mounting Plate:** Secure the lamp's mounting plate to the wall using the provided screws. Ensure it is firmly attached.
4. **Wire Connections:** Connect the electrical wires from your wall to the lamp's terminals. Typically, the brown wire is Live (L) and the blue wire is Neutral (N). Ensure connections are secure.
5. **Secure the Lamp Body:** Attach the main body of the lamp to the mounting plate, ensuring all wires are tucked away safely and the lamp is securely fastened.

**Video:** Installation guide for a similar wall lamp. This video demonstrates the general steps for mounting and wiring a wall lamp. Please refer to the specific instructions in this manual for your Ledvion Nevada lamp.

## 5. OPERATING INSTRUCTIONS

Your Ledvion Nevada Smart LED Wall Lamp offers multiple control options.

### 5.1. Remote Control Pairing

To pair the lamp with a remote control:

1. Quickly switch the wall lamp ON and OFF five times. The lamp will flash to indicate it's in pairing mode.
2. On the remote control, press and hold the "SETUP" button for 3-5 seconds.
3. The wall lamp will blink, confirming successful pairing.

4. Repeat this process to pair additional wall lamps to the same remote control.

**Video:** Remote control pairing for a wall lamp. This video illustrates the steps to pair a wall lamp with its remote control.

## 5.2. App Control Pairing

To control your lamp via a smartphone app:

1. **Download the App:** Scan the QR code on the product packaging or manual, or search for "Smart Life App" or "Tuya Smart App" in your device's app store (App Store or Google Play).
2. **Enable Bluetooth and Wi-Fi:** Ensure your mobile phone's Bluetooth is ON and it is connected to a 2.4GHz Wi-Fi network.
3. **Enter Pairing Mode:** Turn the lamp's power ON and OFF three times. The lamp will flash to indicate it's ready for pairing.
4. **Add Device in App:** Open the "Smart Life" or "Tuya Smart" app. The app should automatically detect the new device. Tap "Add Device" or follow the on-screen prompts to connect.
5. **Connect to Wireless Network:** Follow the app's instructions to connect the lamp to your home Wi-Fi network.
6. **Confirmation:** The lamp will stop flashing and remain steadily lit, indicating successful pairing.

**Video:** App pairing for a wall lamp. This video demonstrates the process of connecting a wall lamp to a smartphone application for smart control.

## 5.3. App Features

- **Color Temperature Adjustment:** Adjust the white light from warm (2700K) to cool (6500K).
- **Brightness Control:** Dim or brighten the light to your preference.
- **RGB Color Selection:** Choose from 16 million colors to create various ambiances.
- **Scene Modes:** Select from 12 pre-set scenes for different moods or occasions.
- **Musical Rhythms:** Sync the light with music for dynamic effects.
- **Timer Function:** Set schedules for the lamp to turn on/off automatically.

## 6. MAINTENANCE

To ensure the longevity and optimal performance of your Ledvion Nevada Smart LED Wall Lamp, follow these maintenance guidelines:

- **Cleaning:** Disconnect power before cleaning. Use a soft, dry cloth to wipe the lamp. Do not use abrasive cleaners or solvents, as they may damage the finish.
- **Inspection:** Periodically check the lamp for any signs of damage, loose connections, or wear. If any issues are found, consult a qualified electrician.
- **LEDs:** The integrated LEDs are designed for long life and are not user-replaceable.

## 7. TROUBLESHOOTING

If you encounter issues with your Ledvion Nevada Smart LED Wall Lamp, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Lamp does not turn on.	No power supply, loose wiring, faulty switch.	Check circuit breaker. Ensure all wiring connections are secure. Test the switch.
Lamp flickers or dims unexpectedly.	Unstable power supply, loose connection, incompatible dimmer (if applicable).	Check power stability. Verify wiring. Ensure any dimmer used is compatible with LED smart lamps.
Cannot connect to the app.	Incorrect Wi-Fi (not 2.4GHz), Bluetooth off, incorrect pairing procedure, app issues.	Ensure phone is on 2.4GHz Wi-Fi and Bluetooth is on. Repeat the app pairing steps (Section 5.2). Restart the app and your phone.
Remote control not working.	Remote not paired, battery low, obstruction.	Repeat remote control pairing steps (Section 5.1). Replace remote battery. Ensure no obstructions between remote and lamp.
Light color or brightness not responding.	App/remote not connected, software glitch.	Verify app/remote connection. Restart the lamp by turning off and on the power supply.

If the problem persists after trying these solutions, please contact Ledvion customer support.

## 8. WARRANTY AND SUPPORT

Ledvion products are manufactured with high-quality materials and undergo strict quality control. This product comes with a standard manufacturer's warranty. For detailed warranty terms and conditions, please refer to the warranty card included in your product packaging or visit the official Ledvion website. For technical support, troubleshooting assistance, or warranty claims, please contact Ledvion customer service through their official channels. Have your model number (LVO10037) and purchase information ready.

**Manufacturer:** Ledvion

**Contact:** Refer to your product packaging or the Ledvion website for the most up-to-date contact information.
