SETUP

1. Charging the Case and Earbuds

Before first use, fully charge the charging case and earbuds. Connect the provided USB-C cable to the charging port on the case and a power source. The LED display on the case will show the charging status. The earbuds will charge automatically when placed inside the case.

80Hrs Long Battery Life

Figure 2: Battery Life Overview. This image illustrates the impressive 80-hour total playtime with the charging case, providing 8 hours per earbud and 600mAh capacity for the case.

Dual LED Digital Display

Figure 3: Dual LED Digital Display. The charging case features a digital display indicating the case's battery capacity and separate LED indicators for the power status of each earbud (R and L).

2. Pairing the Earbuds

1. Open the charging case. The earbuds will automatically power on and enter pairing mode.
2. On your device (smartphone, tablet, laptop), enable Bluetooth.
3. Search for "T16" in the list of available Bluetooth devices and select it to connect.
4. Once connected, you will hear a confirmation prompt, and the earbuds will be ready for use.

The earbuds support one-step pairing and wide compatibility, automatically reconnecting to the last paired device when removed from the case.

One-step Pairing Wide Compatibility

Take out both headphones and they will automatically power on and pair with each other.
