

STRONG SRT8208

STRONG SRT8208 Digital Terrestrial HD Receiver User Manual

Model: SRT8208 | Brand: STRONG

1. INTRODUCTION

This user manual provides comprehensive instructions for the installation, operation, and maintenance of your STRONG SRT8208 Digital Terrestrial HD Receiver. Please read this manual carefully before using the device to ensure proper functionality and to maximize your viewing experience. Keep this manual for future reference.

2. PRODUCT FEATURES

- **High Definition Reception:** Compatible with HEVC/H.265 and Dolby Digital Plus, allowing reception of free-to-air DVB-T2 HD channels with excellent sound and clear images up to 1080p resolution.
- **Automatic Channel Installation:** Simplifies setup by automatically scanning and installing available channels.
- **USB Recording (PVR):** Record TV programs directly to an external USB hard drive. Features 30 programming areas with daily and weekly modes.
- **Multimedia Playback:** Enjoy your personal media (photos, videos, music) from a USB stick or hard drive.
- **Electronic Program Guide (EPG):** Provides detailed event information for up to 7 days, assisting with program selection and recording scheduling.
- **Advanced Channel Management:** Includes options for locking, moving, skipping, deleting, searching, and renaming channels.
- **Parental Control:** Menu lock and program control features for managing content access.
- **Connectivity:** Equipped with TV input, HDMI output, coaxial digital audio output, and USB port.
- **Energy Saving:** Features an inactive USB port for power conservation.

3. PACKAGE CONTENTS

Please check the box for the following items:

- STRONG SRT8208 Digital Terrestrial HD Receiver
- Remote Control
- 2 x AAA Batteries (for remote control)
- Power Adapter

- Installation Manual (this document)

4. SETUP GUIDE

4.1 Physical Connections

Before connecting, ensure all devices are powered off.

The rear panel of the STRONG SRT8208 receiver, detailing the antenna input (ANT IN), coaxial S/PDIF audio output, HDMI output, and SCART output ports for connecting to a television and audio systems.

An illustrative diagram demonstrating how to connect the STRONG SRT8208 receiver to a television using either an HDMI or SCART cable, and connecting the antenna.

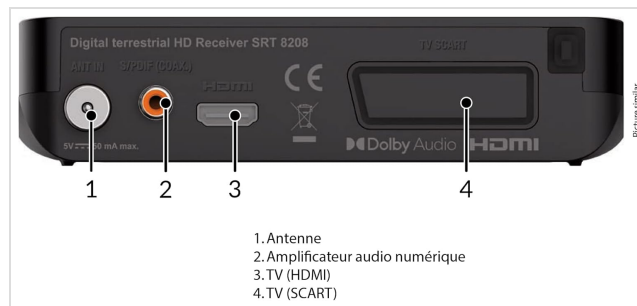

1. **Connect Antenna:** Connect your terrestrial antenna cable to the 'ANT IN' port on the back of the receiver.
2. **Connect to TV:**
 - For High Definition (HD) connection, use an HDMI cable to connect the 'HDMI' port on the receiver to an HDMI input on your TV.
 - Alternatively, for Standard Definition (SD) connection, use a SCART cable to connect the 'TV SCART' port on the receiver to the SCART input on your TV.
3. **Connect Audio (Optional):** If you have an external audio system, connect the 'S/PDIF (COAX)' port on the receiver to your audio amplifier or soundbar for digital audio output.
4. **Connect Power:** Plug the power adapter into the 'DC IN' port on the receiver, then plug the adapter into a wall outlet.

4.2 Initial Setup and Channel Scan

1. Power on your TV and select the correct HDMI or SCART input source corresponding to the receiver's connection.
2. Power on the STRONG SRT8208 receiver using the power button on the front panel or the remote control.
3. The receiver will typically guide you through an initial setup wizard. Follow the on-screen prompts to select your language and country.
4. The receiver will then perform an automatic channel scan. This process may take several minutes. Do not interrupt the scan.
5. Once the scan is complete, the receiver will save the found channels, and you should be able to view TV programs.

5. OPERATING INSTRUCTIONS

5.1 Remote Control Overview

The remote control for the STRONG SRT8208 receiver, featuring power, channel, volume, EPG, recording, media playback, and navigation buttons.

Familiarize yourself with the remote control buttons for easy navigation and control of your receiver's functions.

5.2 Electronic Program Guide (EPG)

Press the **EPG** button on your remote control to access the Electronic Program Guide. You can browse program schedules for up to 7 days, view program details, and set reminders or recording timers.

5.3 Recording Functionality (PVR)

To record programs, connect a USB hard drive (not included) to the USB port on the front of the receiver. Ensure the drive is formatted correctly (FAT32 or NTFS).

- **Instant Recording:** While watching a program, press the **Record** button on the remote to start recording immediately. Press again to stop.
- **Scheduled Recording:** Access the EPG, select the desired program, and press the **Record** or **Timer** button to set a scheduled recording. You can set up to 30 programming areas.
- **Timeshift:** Press the **Timeshift** button to pause live TV. Press again to resume. This requires a connected USB storage device.

5.4 Media Playback

To play media files (photos, music, videos) from a USB storage device, connect the device to the USB port. Navigate to the 'Media Player' section in the receiver's menu and select the type of media you wish to play.

5.5 Channel Management and Parental Control

Access the 'Channel Manager' or 'Settings' menu to organize your channels. You can move, delete, or skip channels. The parental control feature allows you to set a password to lock specific channels or menu options, preventing unauthorized access.

6. MAINTENANCE

- **Cleaning:** Disconnect the receiver from the power supply before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid or aerosol cleaners.
- **Software Updates:** Periodically check the manufacturer's website for available software updates. Updates can often be installed via the USB port. Refer to the specific update instructions provided by STRONG.
- **Ventilation:** Ensure the receiver has adequate ventilation. Do not block any ventilation openings.

7. TROUBLESHOOTING

If you encounter issues with your receiver, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No picture or sound	Incorrect TV input selected; Loose cable connections; Receiver not powered on.	Select the correct HDMI/SCART input on your TV. Check all cable connections (antenna, HDMI/SCART, power). Ensure the receiver is powered on.
No signal / Poor signal quality	Antenna not connected or misaligned; Weak broadcast signal.	Check antenna connection. Adjust antenna direction. Perform a new channel scan. Consider a signal amplifier if in a weak signal area.
Remote control not working	Batteries are dead or inserted incorrectly; Obstruction between remote and receiver.	Replace batteries with new AAA batteries, ensuring correct polarity. Remove any obstructions. Point the remote directly at the receiver's front panel.
Cannot record programs	USB storage not connected or formatted incorrectly; Insufficient space on USB device.	Ensure USB hard drive is securely connected. Format the USB device to FAT32 or NTFS. Check available storage space.
Receiver freezes or becomes unresponsive	Temporary software glitch.	Disconnect the power cable from the receiver, wait 10 seconds, then reconnect it to perform a soft reset.

8. SPECIFICATIONS

Feature	Specification
Brand	STRONG
Model	SRT8208
Compatible Devices	Television
Special Features	FM Tuner
Audio Output Mode	Multichannel
Audio Output Type	Coaxial
Surround Sound Channel Configuration	5.1
Battery Composition	Alkaline (for remote)
Connector Type	HDMI, SCART, USB
Media Format	MP3 Audio (and other multimedia formats via USB)
Remote Control Included	Yes
Product Dimensions	15 x 9 x 3 cm; 330 g
Video Encoding	H.265

9. WARRANTY AND SUPPORT

For technical support, troubleshooting beyond this manual, or warranty service, please contact STRONG customer support through their official website or the contact information provided with your product packaging. Do not attempt to repair the device yourself, as this may void the warranty.
