

Fodsports FX8 AIR/PRO Clip

Fodsports FX8 AIR/FX8 PRO Motorcycle Bluetooth Intercom Headset Accessories Kit Instruction Manual

Comprehensive guide for installation and use of your Fodsports FX8 AIR/FX8 PRO accessory kit.

1. INTRODUCTION

This instruction manual provides detailed guidance for the installation and use of the Fodsports FX8 AIR/FX8 PRO Motorcycles Bluetooth Intercom Headset Communication System Accessories Kit. This kit is designed to enhance the functionality and versatility of your existing Fodsports FX8 AIR or FX8 PRO intercom unit, specifically focusing on mounting options and microphone compatibility.

2. WHAT'S IN THE BOX

Your Fodsports FX8 AIR/FX8 PRO Accessories Kit includes the following components:

- **Stainless Steel Clip:** A durable metal clip for secure attachment to your helmet.
- **Plastic Mount:** A plastic mounting bracket designed to work with the intercom unit.
- **Adhesive Pad:** For alternative or supplementary mounting of the plastic mount.
- **Ear Cushions:** Replacement or spare ear cushions for comfort.

3. SETUP AND INSTALLATION

This kit provides various options for mounting your Fodsports FX8 AIR/FX8 PRO intercom unit to different helmet types. Ensure your intercom unit (not included in this accessory kit) is compatible with these accessories.

3.1. Attaching the Stainless Steel Clip

1. **Identify Mounting Location:** Choose a flat, secure area on the left side of your helmet where the intercom unit will not obstruct your vision or helmet functionality.
2. **Insert Clip:** Slide the stainless steel clip between the helmet shell and the inner padding. Ensure it is firmly seated and does not move.
3. **Secure Intercom Unit:** Attach your Fodsports FX8 AIR/FX8 PRO intercom unit to the stainless steel clip. The unit should snap securely into place.

3.2. Using the Plastic Mount with Adhesive Pad (Alternative)

For helmets where the clip mount is not suitable, or for a more permanent attachment, use the plastic mount with the adhesive pad.

1. **Clean Surface:** Thoroughly clean the chosen mounting area on your helmet with an alcohol wipe (not included) and allow it to dry completely. This ensures optimal adhesion.
2. **Attach Adhesive Pad:** Peel the backing from the adhesive pad and firmly press it onto the cleaned helmet surface. Hold for at least 30 seconds to ensure a strong bond.
3. **Mount Plastic Bracket:** Attach the plastic mount to the adhesive pad.

4. **Secure Intercom Unit:** Attach your Fodsports FX8 AIR/FX8 PRO intercom unit to the plastic mount.

3.3. Speaker and Microphone Installation

The kit includes ear cushions, which are essential for comfortable speaker placement. The Fodsports FX8 AIR/FX8 PRO intercom system typically supports both wired boom microphones (for open-face helmets) and wired microphones (for full-face helmets). Ensure your intercom unit has the appropriate microphone connected.

1. **Speaker Placement:** Position the speakers inside the helmet's ear pockets. Use the provided ear cushions to adjust the speakers closer to your ears for improved audio quality and volume. Secure them with the hook-and-loop fasteners.
2. **Microphone Placement (Boom Mic):** For open-face helmets, attach the boom microphone to the inside of the helmet, ensuring the microphone head is positioned directly in front of your mouth for clear communication. Use hook-and-loop fasteners to secure the base.
3. **Microphone Placement (Wired Mic):** For full-face helmets, attach the wired microphone to the inside of the chin bar, again positioning it directly in front of your mouth. Secure it with the provided adhesive or hook-and-loop fasteners.
4. **Cable Management:** Route all cables neatly under the helmet padding to prevent discomfort and ensure they do not interfere with helmet removal or safety features.

4. OPERATING INSTRUCTIONS (INTERCOM UNIT - NOT INCLUDED)

This accessory kit provides physical components for your Fodsports FX8 AIR/FX8 PRO intercom unit. For detailed operating instructions on the intercom unit itself (e.g., power on/off, pairing, intercom functions, volume control, voice commands), please refer to the main user manual provided with your Fodsports FX8 AIR or FX8 PRO Bluetooth Intercom Headset.

Key features of the Fodsports FX8 AIR/FX8 PRO intercom system typically include:

- **Bluetooth Intercom:** Connects up to 4 riders with a working distance of up to 2 km (1.2 miles) in open terrain.
- **Mesh Intercom 3.0:** Offers enhanced reliability and can connect virtually limitless riders over a working distance of up to 2 km (1.2 miles), extendable up to 8 km (5 miles) between a minimum of 6 riders.
- **AI Noise Cancellation:** Advanced technology to prioritize your voice over ambient noise for clearer communication.
- **Over-the-Air (OTA) Firmware Updates:** Update your device easily via a dedicated smartphone app.
- **Battery Life:** Up to 16 hours on Mesh Intercom, 22 hours on Bluetooth Intercom. Charge time is approximately 1.5 hours.

5. MAINTENANCE

5.1. Waterproof Rating

The Fodsports FX8 AIR/FX8 PRO intercom unit (and by extension, its compatible accessories) features an **IPX7 waterproof rating**. This means the unit can be fully submerged in water up to 1 meter (3 feet) for up to 30 minutes. This provides protection against rain and splashes, making it suitable for various riding conditions.

5.2. Cleaning

To maintain the longevity and performance of your accessories:

- Wipe down the stainless steel clip and plastic mount with a damp cloth as needed.
- Ensure all components are dry before re-attaching them to the intercom unit or helmet.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the materials.

6. TROUBLESHOOTING

If you encounter issues with the accessory kit, consider the following:

- **Loose Mount:** Re-check the installation of the stainless steel clip or adhesive mount. Ensure they are firmly attached and properly seated.
- **Audio Issues:** Verify that speakers are correctly positioned and securely connected to the intercom unit. Adjust ear cushions for optimal sound.
- **Microphone Clarity:** Ensure the microphone is positioned directly in front of your mouth and is securely attached.

For issues related to the intercom unit's electronic functions (e.g., pairing, connectivity, sound quality from the unit itself), please refer to the main Fodsports FX8 AIR/FX8 PRO intercom user manual or contact Fodsports customer support.
