SETUP INSTRUCTIONS

Follow these steps to correctly set up your UpBright AC/DC Adapter with your Trexonic portable DVD player.

1. Unpacking and Inspection

1. Carefully remove the AC/DC adapter from its packaging.
2. Inspect the adapter and its cable for any signs of damage. Do not use the adapter if it appears damaged.

2. Connecting the Adapter to Your Device

1. Locate the DC input port on your Trexonic TRX-1580 or TRX-1680 portable DVD player. This port is typically labeled "DC IN" or similar.
2. Insert the barrel connector of the UpBright adapter firmly into the DC input port of your DVD player. Ensure a snug fit.
3. Plug the AC plug of the adapter into a standard wall outlet (100-240VAC, 50/60Hz).
4. Verify that the DVD player receives power. Some devices may have an indicator light.

OPERATING INSTRUCTIONS

Once the adapter is correctly connected, your Trexonic portable DVD player is ready for operation.

Powering Your Device:

- The UpBright AC/DC adapter provides continuous power to your DVD player when plugged into a wall outlet.
- If your DVD player has an internal battery, the adapter will also charge the battery while providing power to the device.
- Refer to your Trexonic DVD player's specific manual for instructions on powering on/off and operating its functions.

CARE AND MAINTENANCE

Proper care extends the life of your adapter and ensures safe operation.

- **Cleaning:** Disconnect the adapter from the power outlet and the device before cleaning. Use a soft, dry cloth to wipe the adapter. Do not use liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly coiling the cable to prevent damage.
- **Handling:** Do not expose the adapter to water or excessive moisture. Avoid dropping or subjecting the adapter to strong impacts.
- **Cable Integrity:** Regularly check the power cable for any cuts, fraying, or exposed wires. Discontinue use immediately if any damage is found.

TROUBLESHOOTING

If you encounter issues with your UpBright AC/DC Adapter, refer to the following common solutions:

Problem	Possible Cause	Solution
Device not powering on.	Adapter not properly connected to outlet or device. No power from outlet. Faulty adapter or device.	Ensure both ends of the adapter are securely plugged in. Test the outlet with another device. Try a different compatible adapter if available. If the issue persists, contact support.
Device powers on but battery does not charge.	Adapter output not matching device requirements. Device battery issue.	Verify the adapter specifications match your DVD player's requirements. Consult your DVD player's manual for battery charging indicators and troubleshooting.
Adapter feels excessively hot.	Overload or poor ventilation. Internal fault.	Ensure the adapter is not covered and has adequate airflow. Disconnect immediately if it feels dangerously hot. Do not use if overheating persists.

If these solutions do not resolve the issue, please contact UpBright customer support.

PRODUCT SPECIFICATIONS

Specification	Detail
