### IBERLS 50001277

# Instruction Manual for IBERLS Hatteker Shaver Charger Cord

Model: 50001277

## PRODUCT OVERVIEW

---

This IBERLS charger cord is specifically designed as a replacement power supply for select Hatteker electric shavers, hair clippers, and beard trimmers. It provides a reliable and safe charging solution, ensuring your device is always ready for use. The kit includes the specialized shaver charger cord, a 5V USB adapter, and cleaning brushes for maintenance.

## COMPATIBILITY

---

This charger cord is compatible with the following Hatteker electric shaver, hair clipper, and beard trimmer models:

- RSCX-7568
- RFC-696
- RFC-692
- RFC-690
- RFC-598
- RFC-588
- RSCX-9598

**Important: This charger is not applicable to other models. Please verify your shaver's model number before use.**

## SETUP AND USAGE

1. **Verify Compatibility:** Before connecting, ensure the charging cord's interface matches your Hatteker shaver's charging port.
2. **Connect the Cable:** Insert the USB-A end of the specialized shaver charger cord into the provided 5V USB adapter.
3. **Connect to Power:** Plug the 5V USB adapter into a standard 100-240V AC wall outlet.
4. **Connect to Shaver:** Carefully insert the specialized shaver connector end of the cord into the charging port of your Hatteker shaver.
5. **Charging Indication:** Your shaver should indicate that it is charging, typically via an LED light or screen display.

## SAFETY FEATURES

---

The IBERLS charger kit is designed with multiple safety features to protect both the charger and your device. It meets FCC, CE, and RoHS standards, ensuring a safe charging experience.

- **Over-charging Protection:** Prevents damage to the battery from excessive charging.
- **Over-current Protection:** Safeguards against current surges.
- **Over-voltage Protection:** Protects against voltage fluctuations.
- **Over-load Protection:** Manages power delivery to prevent overloading.
- **Short Circuit Protection:** Automatically cuts off power in case of a short circuit.
- **Temperature Protection:** Monitors and regulates operating temperature.

## MAINTENANCE AND CARE

---

To ensure the longevity and optimal performance of your charger cord and shaver, follow these maintenance guidelines:

- **Cable Care:** Avoid bending or twisting the cable excessively, especially near the connectors, to prevent internal wire damage. The 5-foot cable is designed with reinforced stress points for durability.
- **Cleaning:** Use the included shaver cleaning brushes to regularly remove hair and debris from your shaver's blades and charging port. This helps maintain efficient charging and shaver performance.
- **Storage:** Store the charger cord and adapter in a cool, dry place when not in use.
- **Environmental Protection:** The cable features Environmental Protection PVC for enhanced durability.

# High Quality Cord

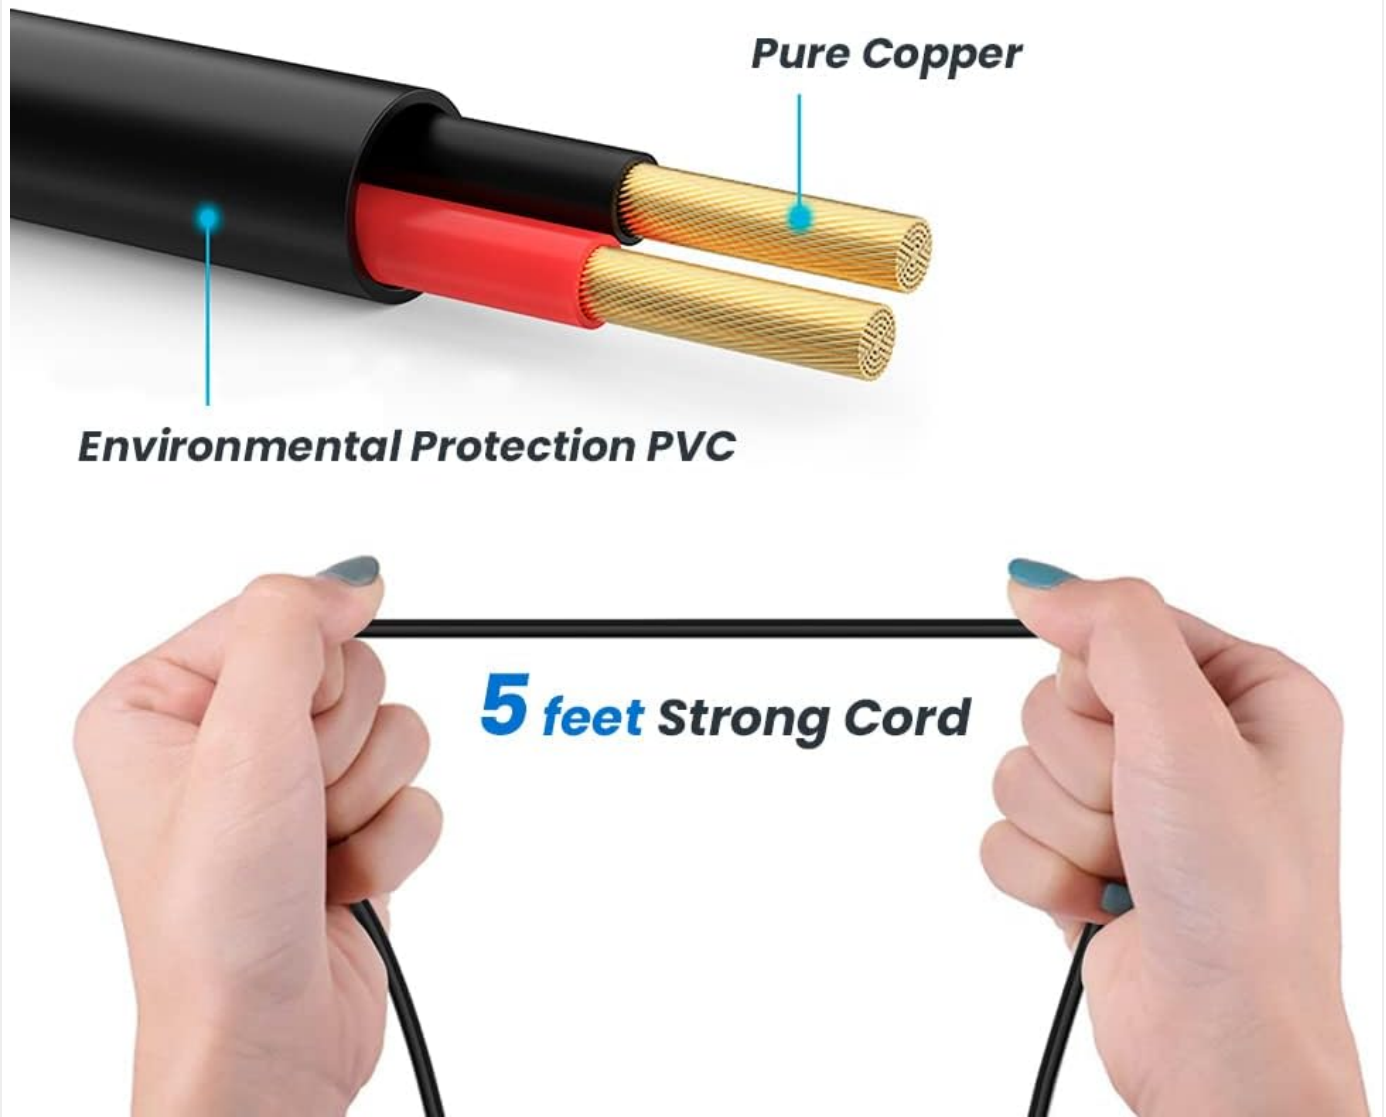

Image: A cross-section view of the charger cord, showing its pure copper wires and Environmental Protection PVC insulation, emphasizing its high-quality construction and 5-foot length.

## TROUBLESHOOTING

---

If you encounter issues with your charger, consider the following:

- **Shaver Not Charging:**

- Ensure the charger cord is fully inserted into both the USB adapter and the shaver's charging port.
- Verify the USB adapter is securely plugged into a working wall outlet.
- Confirm that your shaver model is listed as compatible with this charger.
- Inspect the charging port of your shaver for any debris that might obstruct the connection.

- **Loose Connection:**

- Double-check all connections. The specialized shaver connector should fit snugly.

- **Overheating:**

- If the adapter or shaver feels excessively hot during charging, disconnect it immediately. This charger has built-in temperature protection, but persistent overheating may indicate an issue with the shaver itself or the power source.

If troubleshooting steps do not resolve the issue, please contact customer support.

## SPECIFICATIONS

---

<b>Product Name</b>	IBERLS Hatteker Shaver Charger Cord
<b>Model Number</b>	50001277
<b>Input Voltage (Adapter)</b>	100-240V AC
<b>Output Voltage (Adapter)</b>	5V DC
<b>Output Current (Adapter)</b>	2000mA (2A), suitable for 1000mA devices
<b>Cable Length</b>	5 feet (1.5 meters)
<b>Product Dimensions (Adapter)</b>	Approximately 1.4 x 1.4 x 0.7 inches (36mm x 36mm x 19mm)
<b>Item Weight</b>	2.39 ounces
<b>Certifications</b>	FCC, CE, RoHS
