HAIBOXING H166

HAIBOXING RC Car Body Clips H166 Instruction Manual

Model: H166

1. INTRODUCTION

This instruction manual provides essential information for the HAIBOXING RC Car Body Clips, model H166. These clips are designed as spare parts for various HAIBOXING remote control trucks, ensuring the secure attachment of the vehicle's body shell. Proper use and maintenance will extend the lifespan of these components and enhance your RC experience.

2. PRODUCT OVERVIEW

The HAIBOXING H166 Body Clips are essential components for securing the body shell of your remote control vehicle. Each pack contains 20 durable clips, featuring a metal pin and a black plastic handle for easy grip and removal.

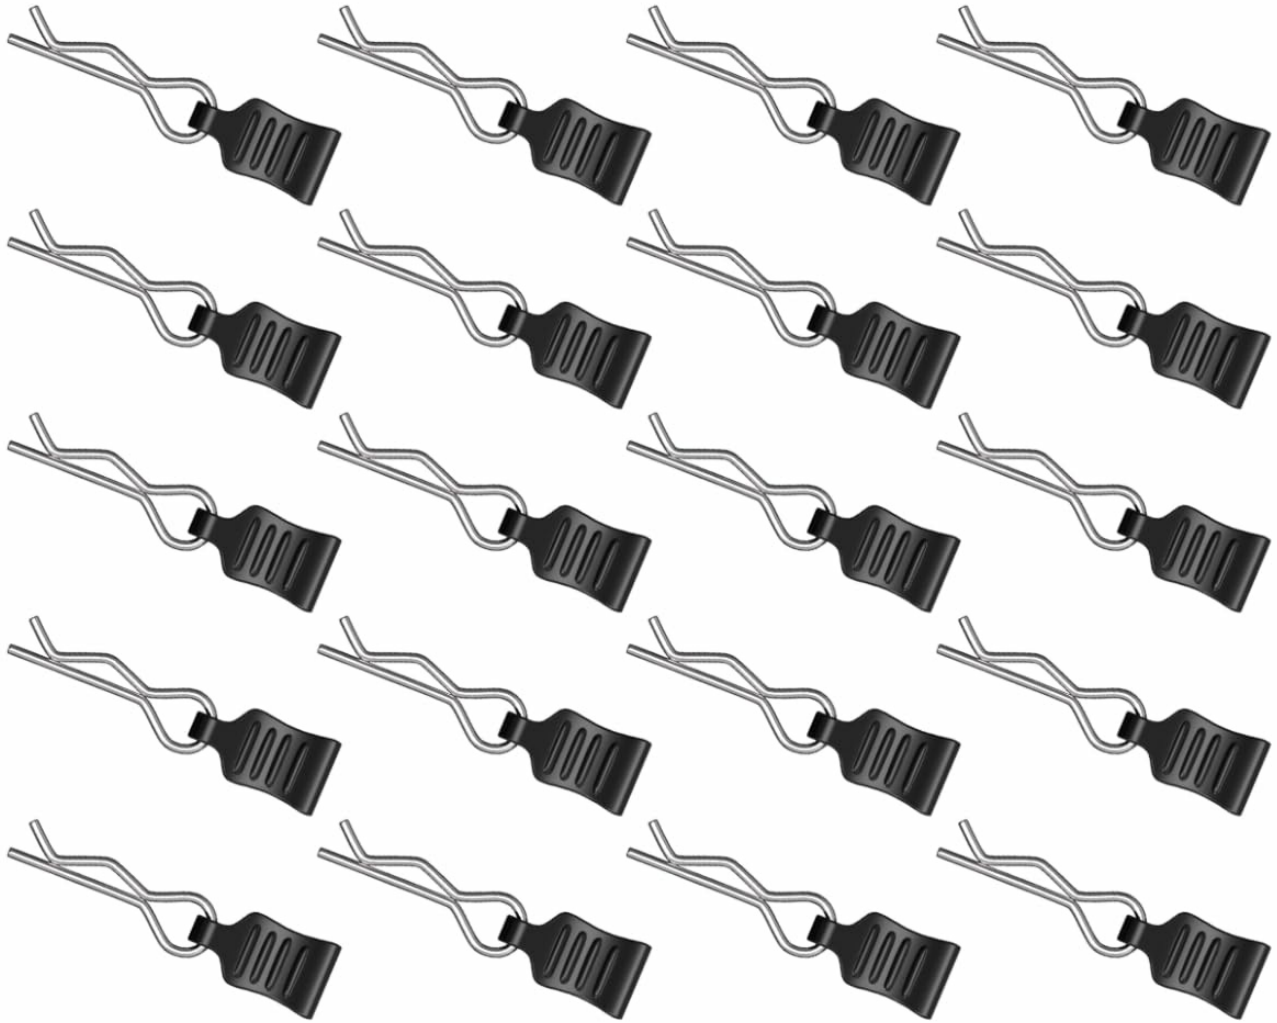

Image 1: A set of twenty HAIBOXING RC Car Body Clips, model H166, featuring metal pins and black plastic handles.

3. COMPATIBILITY

These body clips are compatible with a range of HAIBOXING RC truck models, including:

- HAIBOXING 18858
- HAIBOXING 18859
- HAIBOXING 18859A
- HAIBOXING 12815
- HAIBOXING 2995
- HAIBOXING 16890A
- HAIBOXING 903
- HAIBOXING 903A

They are suitable for 1/18th, 1/16th, 1/14th, and 1/12th scale RC vehicles that utilize this type of body clip design.

4. INSTALLATION GUIDE

Installing the HAIBOXING H166 Body Clips is a straightforward process:

1. **Prepare the RC Body:** Ensure your RC vehicle's body shell is correctly aligned with the chassis mounting posts.
2. **Insert the Clip:** Take one body clip. Align the metal pin with the hole in the body post.
3. **Secure the Body:** Push the metal pin through the hole until the body shell is firmly held in place by the clip. The plastic handle should be facing outwards for easy removal.
4. **Repeat:** Install a body clip on each designated body post (typically four posts per vehicle).

5. USAGE

To use the body clips:

- **To Attach:** Follow the installation guide to secure the body shell to the chassis.
- **To Remove:** Grip the plastic handle of each body clip and pull it outwards from the body post. Once all clips are removed, carefully lift the body shell off the chassis.

6. CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your HAIBOXING H166 Body Clips:

- **Regular Inspection:** Periodically check clips for any signs of bending, rust, or damage. Replace any damaged clips immediately to prevent the body shell from detaching during operation.
- **Cleaning:** If clips become dirty, wipe them with a clean, dry cloth. Avoid harsh chemicals that may degrade the plastic handle.
- **Storage:** Store spare clips in a dry, secure location to prevent loss or damage.

7. TROUBLESHOOTING

- **Clips are difficult to insert/remove:** Ensure the body post holes are clear of debris. If the clips are new, they may be slightly stiff; gentle force should be sufficient. Do not bend the clips excessively.
- **Body shell feels loose:** Verify that all body clips are properly inserted through their respective body posts. If clips are old or bent, they may not provide a secure fit and should be replaced.
- **Lost clips:** Body clips are small and can be easily lost during use or maintenance. Always keep spare clips on hand. This product provides 20 clips for this reason.

8. SPECIFICATIONS

Feature	Detail
Model Number	H166
Item Name	Body Clips
Quantity	20 pieces
Approximate Length	3 cm (1.18 inches)
Approximate Width (Handle)	0.8 cm (0.31 inches)
