Maintenance

Cleaning

Regularly clean your earbuds and charging case to ensure optimal performance and hygiene.

- Use a soft, dry, lint-free cloth to wipe the earbuds and charging case.
- Do not use abrasive cleaners, solvents, or aerosol sprays.
- Avoid getting moisture in any openings.

Storage

When not in use, store the earbuds in their charging case to protect them and keep them charged.

Troubleshooting

If you encounter any issues, please refer to the following common solutions:

- **Earbuds not pairing:** Ensure both earbuds are in the charging case, then remove them to activate pairing mode. Check your device's Bluetooth settings to ensure it's enabled and visible.
- **Only one earbud working:** Place both earbuds back into the charging case, close the lid, then open it again. This often resets the connection between them.
- **No sound:** Check the volume level on both your device and the earbuds. Ensure the earbuds are properly connected to your device.
- **Charging issues:** Verify that the charging cable is securely connected to both the case and the power source. Ensure the charging contacts on the earbuds and inside the case are clean and free of debris.
- **Poor sound quality or disconnections:** Move closer to your connected device to avoid interference. Ensure there are no obstacles between the earbuds and your device.

If the problem persists, try resetting the earbuds (refer to the full user manual for specific reset instructions if available) or contact customer support.
