GTRACING 890M-b

GTRACING Gaming Chair with Bluetooth Speakers (Model 890M-b) Instruction Manual

Your comprehensive guide to setup, operation, and maintenance.

1. INTRODUCTION

Thank you for choosing the GTRACING Gaming Chair with Bluetooth Speakers, Model 890M-b. This ergonomic chair is designed to provide comfort and an immersive audio experience for gaming, office work, and relaxation. This manual provides essential information for the safe assembly, operation, and maintenance of your new chair.

2. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Ensure proper assembly according to the instructions provided in the included physical manual.
- This product has a maximum weight capacity of 300 lbs (136 kg). Do not exceed this limit.
- Use caution while adjusting the height, seat, and tilt range to prevent pinching or sudden movements.
- Always follow the recommended usage guidelines to ensure safety and stability.
- Keep children and pets away from the chair during assembly.
- Do not stand on the chair or use it as a ladder.

3. PACKAGE CONTENTS

Upon opening the package, verify that all components are present and undamaged. Refer to the detailed parts list and

diagrams in the physical assembly manual included with your chair. Typically, the package includes:

- Backrest
- Seat Cushion
- Armrests (2)
- Five-star Base
- Casters (5)
- Gas Lift Cylinder with Cover
- Mechanism Plate
- Lumbar Support Pillow
- Headrest Pillow
- Hardware Kit (screws, washers, Allen wrench)
- Instruction Manual

4. ASSEMBLY INSTRUCTIONS

Assembly of the GTRACING Gaming Chair is required. A detailed, step-by-step assembly guide with illustrations is provided in the box with your product. Please follow those instructions carefully for proper and safe assembly. Ensure all screws are tightened securely before using the chair.

General Assembly Tips:

- Lay out all components on a clean, flat surface.
- Identify all hardware and match them to the corresponding steps in the manual.
- Do not fully tighten screws until all components are loosely assembled, then tighten them in sequence.
- Seek assistance if needed, especially when attaching the backrest to the seat.

5. OPERATING INSTRUCTIONS

5.1 Chair Adjustments

Your GTRACING Gaming Chair offers multiple adjustment options for personalized comfort:

- **Height Adjustment:** Use the lever located under the seat on the right side. Pull the lever up while seated to lower the chair, or pull it up while standing to raise the chair. Release the lever to lock the height.
- **Recline Function:** The backrest can recline up to 155 degrees. Pull the lever on the right side of the seat (separate from the height lever) to adjust the backrest angle. Release the lever to lock the backrest in your desired position.
- **Tilt Lock/Tension:** The chair features a rocking function. Pull the main lever (often the same as height adjustment) outwards to enable rocking, and push it inwards to lock the chair in an upright position. The tilt tension knob, usually located under the front of the seat, can be rotated to adjust the resistance of the rocking motion.
- **Armrest Adjustment:** The armrests are vertically adjustable. Press the button on the side of each armrest and move it up or down to your preferred height. They can also rotate inward and outward for optimal support.
- **Lumbar and Headrest Pillows:** The included lumbar support and headrest pillows are adjustable and removable. Position them to provide optimal support for your lower back and neck.

5.2 Bluetooth Speaker Operation

Your GTRACING Gaming Chair is equipped with upgraded dual Bluetooth 5.1 speakers for an immersive audio experience.

- **Powering On/Off:** Locate the power button, typically on the side of the backrest or under the seat. Press and hold to power on or off.
- **Pairing:** Once powered on, the speakers will enter pairing mode (indicated by a flashing LED). On your device (smartphone, tablet, computer), search for Bluetooth devices and select "GTRACING Speaker" (or similar name) to connect.
- **Audio Experience:** The chair features left and right symmetrical speakers designed to reflect sound from surrounding surfaces, creating an immersive audio environment.
- **Volume Control:** Adjust volume directly from your connected Bluetooth device.
- **Connectivity for Consoles/PCs:** For devices without a built-in Bluetooth sending function (e.g., some PS4/PS5, Xbox, Nintendo Switch, or PCs), a GTRACING USB GT-Lynck Bluetooth adapter can be purchased separately to enable connection.

GTRACING ORIGINAL Bluetooth music chair - back stereo channel design

Left and right symmetrical Bluetooth speakers

Due to the reflection principle, the sound will be reflected from the ceiling and walls, giving an immersive feeling.

6. MAINTENANCE

Proper maintenance will extend the life and appearance of your GTRACING Gaming Chair.

- **Cleaning:** Wipe clean with a damp cloth. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the PU leather and other materials.
- **Regular Checks:** Periodically check all screws and bolts to ensure they are tight. Re-tighten if necessary.
- **Caster Care:** Keep casters free of hair and debris to ensure smooth rolling.
- **Material Care:** The chair is constructed with latest PU leather, highly elastic integrated shaped sponge, ultra-high breathability non-woven fabric, and a durable all-steel frame. Avoid prolonged exposure to direct sunlight or extreme temperatures.

Leisure is also an attitude towards life

7. TROUBLESHOOTING

If you encounter issues with your GTRACING Gaming Chair, refer to the following common solutions:

- **Chair Sinks/Doesn't Hold Height:** Ensure the gas lift lever is fully engaged. If the issue persists, the gas lift cylinder may need replacement.
- **Chair Wobbles:** Check that all assembly bolts are securely tightened, especially those connecting the seat to the mechanism and the base. Ensure the casters are fully inserted into the base.
- **Speakers Not Connecting:** Make sure the speakers are powered on and in pairing mode. Verify Bluetooth is enabled on your device and that it's within range. Try unpairing and re-pairing the device. If connecting to a console/PC, ensure you have a compatible Bluetooth adapter if needed.
- **No Sound from Speakers:** Check the volume levels on both your connected device and the chair (if applicable). Ensure the speakers are properly paired.

- **Difficulty Reclining/Adjusting:** Check for any obstructions. Ensure the adjustment levers are fully engaged or disengaged as required.

If these steps do not resolve the issue, please contact GTRACING customer support for further assistance.

8. SPECIFICATIONS

Feature	Detail
Brand	GTRACING
Model Name	890M-b
Color	Black
Overall Height	48.43" - 51.97" (adjustable)
Backrest Height	33.07"
