MODDEDZONE MZ Titan Smart Modded Controller

MODDEDZONE MZ Titan Smart Modded Controller for Xbox One Elite: User Manual

INTRODUCTION

Welcome to your MODDEDZONE MZ Titan Smart Modded Controller, designed for compatibility with Xbox One Elite consoles. This manual provides essential instructions for the setup, operation, and maintenance of your controller, aiming to enhance your gaming experience with advanced modification capabilities.

Figure 1: Front view of the MODDEDZONE MZ Titan Smart Modded Controller.

FEATURES

The MODDEDZONE MZ Titan Smart Modded Controller incorporates several features to optimize gameplay:

- Advanced Custom Modded Controller compatible with Xbox One Elite 2.
- MZ Titan App integration for comprehensive control, adjustment, and mod management via a smartphone.
- Utilizes the MZ Titan chip for fully adjustable and reprogrammable modifications.
- Simplified mod adjustment process through the smartphone app, eliminating complex button combinations.
- Includes a pre-installed FPS Mod Pack with features such as Rapid Fire, Burst Fire, Akimbo, Drop Shot, Jump Shot, Auto Scope, Quick Scope, Auto Hold Breath, and Auto Sprint.
- Supports customizable mod profiles and access to a Mod Marketplace for additional mod packs and perks.
- Designed to be 100% undetectable during online play.

SETUP

Follow these steps to set up your MODDEDZONE MZ Titan Smart Modded Controller:

1. **Unboxing:** Verify that the package contains the custom painted original modded controller and this instruction manual. Please note that a charging cable or other accessories are not included.
2. **Powering On:** Ensure your Xbox One Elite console is powered on and ready for controller pairing.
3. **Pairing the Controller:** Press the pairing button on your Xbox One Elite console. Then, press and hold the pairing button on the top of your MODDEDZONE controller until the Xbox button flashes, indicating it is searching for the console. The Xbox button will become solid when successfully paired.
4. **MZ Titan App Installation:** Download and install the MZ Titan App on your smartphone. This app is essential for managing and customizing your controller's mods.
5. **Connecting to App:** Open the MZ Titan App on your smartphone. Enable Bluetooth on your phone and follow the in-app instructions to connect to your MODDEDZONE controller. This connection allows for real-time mod adjustments and profile management.

OPERATING THE CONTROLLER

Your MODDEDZONE controller is equipped with an MZ Titan chip, enabling advanced mod functionalities. These features are primarily managed through the MZ Titan App.

FPS Mod Pack Features

The controller comes pre-loaded with the following First Person Shooter (FPS) Mod Pack features:

- **Rapid Fire:** Increases the firing rate of semi-automatic weapons.
- **Burst Fire:** Converts automatic weapons into burst-fire mode.
- **Akimbo:** Optimizes dual-wielding weapon performance.
- **Drop Shot:** Automatically drops your character to a prone position while firing.
- **Jump Shot:** Automatically makes your character jump while firing.
- **Auto Scope:** Automatically scopes in when aiming.
- **Quick Scope:** Facilitates rapid aiming and firing for precision shots.

- **Auto Hold Breath:** Automatically holds breath when aiming with sniper rifles.
- **Auto Sprint:** Automatically engages sprint without needing to press the joystick.

Adjusting Mods with MZ Titan App

The MZ Titan App provides a user-friendly interface for customizing and reprogramming your controller's mods. After connecting your controller to the app via Bluetooth:

- Navigate through the app to select specific mods.
- Adjust parameters for each mod to suit your preferences and game style.
- Save your customized settings into various mod profiles for quick switching.
- Explore the Mod Marketplace within the app to discover and acquire additional mod packs and perks, expanding your controller's capabilities.

MAINTENANCE

To ensure the longevity and optimal performance of your MODDEDZONE controller, adhere to the following maintenance guidelines:

- Keep the controller clean and free from dust, dirt, and debris. Use a soft, dry, lint-free cloth for regular cleaning.
- Avoid exposing the controller to extreme temperatures, direct sunlight, or high humidity.
- Do not immerse the controller in water or any other liquids.
- Store the controller in a safe place when not in use to prevent accidental drops or physical damage.

TROUBLESHOOTING

If you encounter issues with your MODDEDZONE controller, consider the following common solutions:

- **Controller Not Connecting:** Ensure the controller has sufficient battery charge and is within range of the console. Re-attempt the pairing process as described in the Setup section.
- **MZ Titan App Connectivity Issues:** Verify that Bluetooth is enabled on your smartphone and that the controller is powered on. Try restarting both the app and the controller if connection problems persist.
- **Mod Functionality Issues:** Check the MZ Titan App to confirm that the desired mods are correctly configured and activated for your current profile. Ensure the app is updated to its latest version.
- **Unintended Mod Changes:** If mod presets or settings change unexpectedly, reconnect to the MZ Titan App to verify and reset your desired configurations. Ensure both the app and controller firmware are up to date to prevent such occurrences.
- **Controller Unresponsive:** If the controller becomes unresponsive, try performing a soft reset by holding down the Xbox button for 5-10 seconds until it powers off, then power it back on.

SPECIFICATIONS

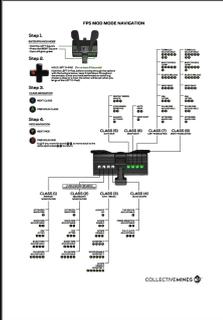

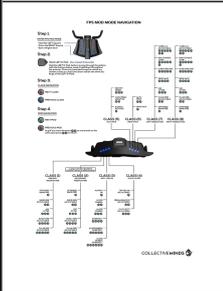

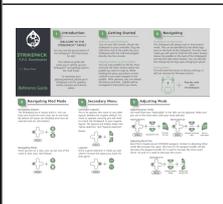

ASIN	B09JL2YFBY
Manufacturer	MODDEDZONE
Batteries	1 Lithium Ion battery required (included)
First Available Date	March 30, 2017
