

**Beats MK2G3LL/A**

# Beats Fit Pro True Wireless Earbuds User Manual

Model: MK2G3LL/A

## 1. INTRODUCTION

---

Welcome to the user manual for your Beats Fit Pro True Wireless Noise Cancelling Earbuds. These earbuds are designed to provide a powerful and balanced sound experience with flexible, secure-fit wingtips for all-day comfort and stability. Featuring Apple's H1 chip, they offer seamless integration with Apple devices, along with Active Noise Cancelling, Transparency Mode, and Spatial Audio capabilities. This manual will guide you through setup, operation, maintenance, and troubleshooting to ensure you get the most out of your device.

## 2. WHAT'S IN THE BOX

---

Your Beats Fit Pro package includes the following components:

- Beats Fit Pro True Wireless Noise Cancelling Earbuds
- Matching Charging Case
- Eartips with three size options (Small, Medium, Large)
- USB-C to USB-C Charging Cable
- Quick Start Guide
- Warranty Card

*Note: A USB-C power adapter is sold separately.*

### **3. SETUP**

---

#### **3.1 Initial Charge**

Before first use, fully charge your Beats Fit Pro earbuds and charging case. Connect the USB-C to USB-C charging cable to the charging case and a compatible USB-C power adapter (not included). The LED indicator on the front of the case will show charging status.

#### **3.2 Pairing with Devices**

### For Apple Devices (iOS 14.6 or later)

1. Ensure Bluetooth is enabled on your iPhone or iPad.
2. Open the charging case with your Beats Fit Pro inside, and hold it near your unlocked Apple device.
3. A setup animation will appear on your device's screen. Follow the on-screen instructions to connect.
4. Once connected, your Beats Fit Pro will automatically pair with all supported devices signed into your iCloud account.

## Active Noise Cancelling (ANC)

Blocks external noise for immersive sound.

### For Android Devices and Other Bluetooth Devices

1. Download the Beats app for Android from the Google Play Store for enhanced features.
2. With the earbuds in the charging case, open the lid.
3. Press and hold the system button on the charging case until the LED indicator light begins to flash white.
4. On your device, go to Bluetooth settings and select 'Beats Fit Pro' from the list of available devices.

## 4. FIT AND COMFORT

---

Achieving the correct fit is crucial for optimal sound quality and noise cancellation. Your Beats Fit Pro come with three sizes of silicone eartips (Small, Medium, Large) to ensure a secure seal and comfortable fit.

## 4.1 Securing Your Wingtips

The flexible wingtips are designed to provide stability. Follow these steps for a secure fit:

1. **Twist:** Insert the earbud into your ear and gently twist it backward until the wingtip tucks into the concha of your ear.
2. **Fit:** Use your finger to gently push the wingtip into the upper ear fold, ensuring it sits snugly.
3. **Go:** Once the wingtip is secure, the earbud should feel stable and comfortable.

### How to Secure Your Wingtips

#### Twist.

Insert earbud and gently twist into place.

#### Fit.

Use your finger to fit the wingtip into the upper ear.

#### Go.

Secure your earbuds in place and go.

Image: A man wearing the Beats Fit Pro earbuds, demonstrating how they sit securely and comfortably in the ear with the wingtip.

## 4.2 Eartip Seal Test (for Apple Devices)

For the best audio experience and Active Noise Cancellation, perform the Eartip Fit Test in your iPhone's Bluetooth settings. This will help you determine the best eartip size for your ears.

## 5. OPERATING CONTROLS

---

Each earbud features a multi-function 'b' button for various controls:

- **Press once:** Play/Pause audio, Answer/End call.
- **Press twice:** Skip forward.
- **Press three times:** Skip backward.
- **Press and hold:** Toggle between Active Noise Cancelling and Transparency Mode (default). This action can be customized in your device's Bluetooth settings or the Beats app.
- **Voice Control:** Activate Siri by saying "Hey Siri" (for Apple devices). Other voice assistants can be activated via a customizable press-and-hold action.

## 6. LISTENING MODES

Beats Fit Pro offers three distinct listening modes to adapt to your environment:

### 6.1 Active Noise Cancelling (ANC)

ANC continuously blocks external noise for an immersive listening experience. Microphones detect unwanted external sounds, and the earbuds generate an anti-noise to cancel them out.

## Personalized Spatial Audio

With dynamic head tracking for immersive music, movies and games.

Compatible hardware and software required. Works with compatible content in supported apps. Not all content available in Dolby Atmos. Head tracking feature requires iPhone or iPad.

Image: A close-up of the earbud with visual cues demonstrating how Active Noise Cancelling technology blocks external sound waves.

### 6.2 Transparency Mode

Transparency Mode allows you to hear your surroundings while still enjoying your audio. This is ideal for situations where you need to be aware of your environment, such as walking in a city or listening for announcements.

### 6.3 Adaptive EQ

Adaptive EQ automatically tunes the low and mid frequencies to the shape of your ear, ensuring consistent

and rich sound delivery.

## 7. SPATIAL AUDIO

---

Experience immersive sound with Spatial Audio and dynamic head tracking. This feature places sound all around you, creating a theater-like experience for music, movies, and games, with sound that stays fixed to your device even as you move your head.

### Enhanced by the Apple H1 chip Delivers Automatic Switching and hands-free "Hey Siri".

Automatic Switching requires macOS 11.1, iOS 14.3, iPadOS 14.3, watchOS 7.2, or tvOS 14.3 or later. Siri may not be available in all languages or in all areas, and features may vary by area.

## 8. BATTERY AND CHARGING

---

Your Beats Fit Pro earbuds and charging case provide extended listening time:

- **Earbuds:** Up to 6 hours of listening time on a single charge (with ANC/Transparency enabled).
- **With Charging Case:** Up to 24 hours of combined listening time.
- **Fast Fuel:** A 5-minute charge provides up to 1 hour of playback when the battery is low.

To charge the case, connect the included USB-C to USB-C cable to the charging port on the back of the case and a power source. The LED indicator on the front of the case shows the charging status and current battery level.

## 9. MAINTENANCE

---

Proper care will extend the life of your Beats Fit Pro earbuds:

- **Cleaning Earbuds:** Gently wipe the earbuds with a soft, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water. Avoid getting moisture in any openings.
- **Cleaning Eartips:** Remove the silicone eartips and rinse them with water. Allow them to dry completely before reattaching.
- **Cleaning Charging Case:** Wipe the case with a soft, dry, lint-free cloth. Do not use abrasive materials or harsh chemicals.
- **Water Resistance:** The earbuds are sweat and water resistant (IPX4-rated), making them suitable for workouts and light rain. They are not waterproof and should not be submerged in water. The charging case is not water resistant.
- **Storage:** Always store the earbuds in their charging case when not in use to protect them and keep them charged.

## 10. TROUBLESHOOTING

---

If you encounter issues with your Beats Fit Pro, try the following solutions:

- **No Sound/Intermittent Sound:**
  - Ensure earbuds are charged.
  - Check Bluetooth connection on your device.
  - Move closer to your device to avoid range issues.
  - Clean any debris from the earbud speakers and eartips.
- **Earbuds Not Charging:**
  - Ensure the charging cable is securely connected to both the case and the power adapter.
  - Check if the power adapter is working.
  - Ensure the charging contacts on the earbuds and inside the case are clean and free of debris.
- **Pairing Issues:**
  - Place earbuds in the case, close the lid for 10 seconds, then open and try pairing again.
  - Forget the device in your Bluetooth settings and re-pair.
- **Resetting Your Beats Fit Pro:**
  - Place both earbuds in the charging case and leave the lid open.
  - Press and hold the system button on the charging case for 15 seconds, or until the LED indicator light flashes red and white.
  - Release the button. The LED will flash white, indicating the earbuds are ready to pair again.
