SAFETY INFORMATION

- Always follow the assembly instructions carefully to ensure the table is stable and safe for use.
- Do not overload the table. The maximum weight recommendation is 10 kg (22 lbs).
- Keep small parts out of reach of children during assembly to prevent choking hazards.

- Place the table on a level surface to prevent tipping.
- Avoid placing hot items directly on the tabletop without protective coasters.

PACKAGE CONTENTS

Before assembly, ensure all parts are present. Refer to the included assembly diagram for a complete list of components and hardware.

- Table frame (Alloy Steel)
- Reversible tabletop (Plastic, Dark Grey Concrete Effect / White)
- Shelf panel
- Assembly hardware (screws, connectors, etc.)

SETUP AND ASSEMBLY

Assembly typically requires two people. Use the provided tools or standard household tools as indicated in the separate assembly guide. Follow the step-by-step illustrations for correct assembly.

1. Unpack all components and lay them out on a soft, clean surface to prevent scratches.
2. Attach the legs to the main frame using the specified hardware. Ensure all connections are secure but do not overtighten.
3. Insert the lower shelf panel into its designated slots on the frame.
4. Place the reversible tabletop onto the top frame. Ensure it sits flush and is stable.
5. Once assembled, gently lift and move the table to its desired location. Avoid dragging to prevent damage to the legs or floor.

OPERATING AND USAGE

Reversible Tabletop Feature

The NYBODA side table features a reversible tabletop, allowing you to choose between two different finishes: a dark grey concrete effect and a clean white surface. To change the tabletop's appearance:

1. Carefully lift the tabletop from the frame.
2. Flip the tabletop over to expose the desired finish.
3. Place the tabletop back onto the frame, ensuring it is securely seated.

MAINTENANCE

Cleaning Instructions

- Wipe clean with a damp cloth. Use a mild cleaner if necessary.
- Wipe dry with a clean cloth.
- Avoid using abrasive cleaners or harsh chemicals, as these can damage the surface finish.

General Care

- Regularly check and retighten any loose screws to maintain stability.
- Protect the surface from direct sunlight and excessive heat to prevent discoloration or warping.

TROUBLESHOOTING

- **Table is wobbly:** Ensure all screws are tightened. Check that the table is placed on a flat, even surface.
- **Tabletop does not sit flush:** Remove the tabletop and re-seat it, ensuring it aligns correctly with the frame's edges. Check for any obstructions.
- **Scratches on surface:** Minor scratches may be minimized with furniture polish suitable for plastic surfaces. For deeper scratches, consider using the reversible side of the tabletop.
