SUPVAN E10 Black

SUPVAN E10 Bluetooth Label Maker Machine
USER MANUAL

Introduction

The SUPVAN E10 Bluetooth Label Maker Machine is a versatile and inkless labeler designed for efficient organization in various environments, including home, kitchen, school, and office. This compact device connects wirelessly via Bluetooth to your smartphone, allowing you to create customized labels using a dedicated mobile application. Its thermal printing technology eliminates the need for ink or toner, offering a cost-effective and convenient labeling solution. The E10 supports both continuous and fixed-size label tapes, providing flexibility for different labeling needs.

Setup

1. Charging the Device

Before initial use, fully charge your SUPVAN E10 Label Maker using the provided USB-C cable. A full charge can provide approximately one month of standby time, ensuring readiness for your labeling tasks.

The SUPVAN E10 features a rechargeable battery, thermal printing technology, and a built-in cutter.

2. Installing Label Tape

The SUPVAN E10 supports both continuous and fixed-size label tapes. To install, open the label compartment, insert the tape roll with the label side facing up, and feed the leading edge of the tape through the output slot. Ensure the tape is properly aligned for optimal printing.

No Ink & Toner Needed
Cost-Effective with Higher Quality

The E10 works with both continuous and pre-cut label tapes.

3. App Download and Connection

The SUPVAN E10 operates via the "Katasymbol" mobile application, available for both Android and iOS devices. There are no fees or registration required to use the app.

1. **Download the App:** Scan the QR code on the product packaging or search for "Katasymbol" in your device's app store.
2. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
3. **Connect to Printer:** Open the Katasymbol app. The app will guide you to connect to your E10 label maker via Bluetooth. Select "E10" from the list of available devices.

Operating Instructions

1. Creating and Editing Labels

Once connected, use the Katasymbol app to design your labels. The app offers extensive customization options:

- **Text:** Input your desired text.
- **Fonts:** Choose from over 40 available fonts.
- **Icons & Symbols:** Access over 1000 icons and 450+ symbols to enhance your labels.
- **Frames:** Select from 30 frames to add decorative borders.
- **Other Features:** The app also supports QR codes, barcodes, and integration with Excel for batch printing.

Water & Oil-proof

Easy to Remove

No Sticky Residue

Anti-scratch

Waterproof

Customize your labels with a wide range of fonts, symbols, and frames.

Video: This video demonstrates how to create and customize labels using the E10 label maker and its app.

2. Printing Labels

After designing your label, tap the "Print" button in the app. The E10 will quickly print your label using thermal technology. The built-in cutter allows for a precise and clean cut of the label tape.

The E10 prints labels quickly and efficiently.

3. Application Examples

The SUPVAN E10 is suitable for a wide range of labeling applications:

- **Home Organization:** Label storage boxes, spice jars, food containers, and personal items.
- **Office & School:** Organize files, label office supplies, and create name tags.
- **Cable Management:** Identify cables and wires for electronic devices.

- **Kitchen & Bathroom:** Labels are waterproof, oil-proof, anti-scratch, and heat-resistant, making them ideal for these environments. They leave no residue upon removal.

Examples of how the E10 can be used for home and kitchen organization.

The labels produced are waterproof and durable.

Maintenance

To ensure the longevity and optimal performance of your SUPVAN E10 Label Maker, follow these maintenance guidelines:

- **Cleaning:** Periodically wipe the exterior of the device with a soft, dry cloth. If print quality degrades, gently clean the print head with a cotton swab lightly dampened with rubbing alcohol. Ensure the device is powered off before cleaning.
- **Tape Replacement:** Replace label tape rolls as needed. Always use genuine SUPVAN label tapes for best results.
- **Storage:** Store the label maker in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

If you encounter issues with your SUPVAN E10 Label Maker, refer to the following common solutions:

Problem	Possible Cause	Solution
Device not turning on	Low battery or no charge.	Connect the device to a power source using the USB-C cable and charge it fully.
Cannot connect to app	Bluetooth is off, device is out of range, or app issue.	Ensure Bluetooth is enabled on your phone. Move the device closer to your phone. Restart the app and the label maker.
Poor print quality / Faded labels	Print head is dirty or tape is improperly installed.	Clean the print head. Reinstall the label tape, ensuring it is correctly aligned.
Label tape not feeding	Tape jam or incorrect installation.	Open the compartment and check for any obstructions. Reinstall the tape correctly.
