SETUP

The Xtreme Multicolor LED Gaming Mouse is designed for fast and easy installation. No additional drivers are typically required for basic functionality.

Connecting the Mouse

1. Locate an available USB port on your desktop or laptop computer.

2. Connect the mouse's 6-foot USB wire into the USB port.

3. The mouse will automatically be detected by your operating system, and the LED lighting effect will activate.

4. Your mouse is now ready for use.

OPERATING INSTRUCTIONS

DPI Adjustment

The mouse features a dedicated DPI button that allows you to quickly switch between four different DPI (Dots Per Inch) sensitivity modes. This enables you to adjust the cursor speed to suit various tasks, from precise aiming in games to fast navigation across multiple monitors.

- Press the **DPI button** (located behind the scroll wheel) to cycle through the available modes.
- The available DPI settings are: **800, 1,200, 1,600, and 2,400**
- Each press will switch to the next DPI setting in sequence.

LED Lighting Effect

The Xtreme Gaming Mouse features a dynamic LED lighting effect that cycles through multiple colors, providing an aesthetic enhancement to your setup.

- The LED lights are integrated into the mouse design and will illuminate automatically when connected to a powered USB port.
- The lighting effect is a continuous fade, transitioning between various colors.
- This feature is always active when the mouse is powered.

Scroll Wheel Functionality

The fast-motion scroll wheel allows for efficient navigation through documents, web pages, and in-game menus.

- Rotate the scroll wheel forward or backward to move content up or down.
- The scroll wheel also functions as a clickable button (middle click) for additional commands in various applications.

MAINTENANCE

To ensure the longevity and optimal performance of your Xtreme Multicolor LED Gaming Mouse, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the mouse. For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive cleaners.
- **Sensor Care:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris to

ensure accurate tracking.

- **Cable Management:** Avoid sharp bends or excessive pulling on the USB cable to prevent damage.
- **Storage:** When not in use for extended periods, store the mouse in a clean, dry environment away from extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Xtreme Multicolor LED Gaming Mouse, please refer to the following common solutions:

Problem	Possible Cause	Solution
Mouse not responding	Loose USB connection, faulty USB port, driver issue.	Ensure the USB cable is securely plugged in. Try a different USB port. Restart your computer.
LED lights not working	No power, mouse not detected.	Check USB connection. Try a different USB port. Ensure your computer is powered on.
Cursor movement is erratic or jumpy	Dirty optical sensor, unsuitable surface, high DPI setting.	Clean the optical sensor. Use the mouse on a clean, non-reflective surface (e.g., a mouse pad). Adjust DPI to a lower setting.
DPI button not changing sensitivity	Button malfunction, software conflict.	Ensure the mouse is properly connected. Try restarting your computer. If the issue persists, contact support.

SPECIFICATIONS

| Feature	Detail
Model Number	805106225612
Connectivity Technology	USB Wired
Cable Length	6 feet (approx. 1.8 meters)
DPI Modes	800, 1,200, 1,600, 2,400
Movement Detection Technology	Laser
Special Feature	LED Lights (Multicolor Fade Effect)
Color	Black
Item Weight	1.76 ounces (approx. 50 grams)
Package Dimensions	7.95 x 3.54 x 1.93 inches
