

## Bril B09JRTFMH2

# Bril UV-C Toothbrush Sanitizer (Model B09JRTFMH2) Instruction Manual

## 1. INTRODUCTION

---

The Brill UV-C Toothbrush Sanitizer is designed to provide a clean environment for your toothbrush bristles. Utilizing UV-C light technology, this portable device aims to reduce bacteria on your toothbrush, contributing to improved oral hygiene. It features a compact design, making it suitable for both home use and travel.

## 2. KEY FEATURES

---

- **UV-C Light Technology:** Employs UV-C light to sanitize toothbrush bristles.
- **99.9% Sanitization Rate:** Designed to eliminate 99.9% of bacteria on the toothbrush surface.
- **Automatic Operation:** Activates automatically when the case is closed.
- **Quick Cycle:** Completes a sanitization cycle in approximately three minutes.
- **Universal Fit:** Accommodates various toothbrush sizes, including manual and electric brush heads.
- **Magnetic Mounting:** Includes a built-in magnet for convenient storage on mirrors or walls.
- **USB Rechargeable:** Features a rechargeable battery for portability and extended use.
- **Portable Design:** Compact and lightweight, ideal for travel.

### 3. WHAT'S INCLUDED

---

Your Bril UV-C Toothbrush Sanitizer package typically includes:

- Bril UV-C Toothbrush Sanitizer Unit(s)
- USB-C Charging Cable
- Magnetic Mount(s) with adhesive backing
- User Manual

### 4. SETUP

---

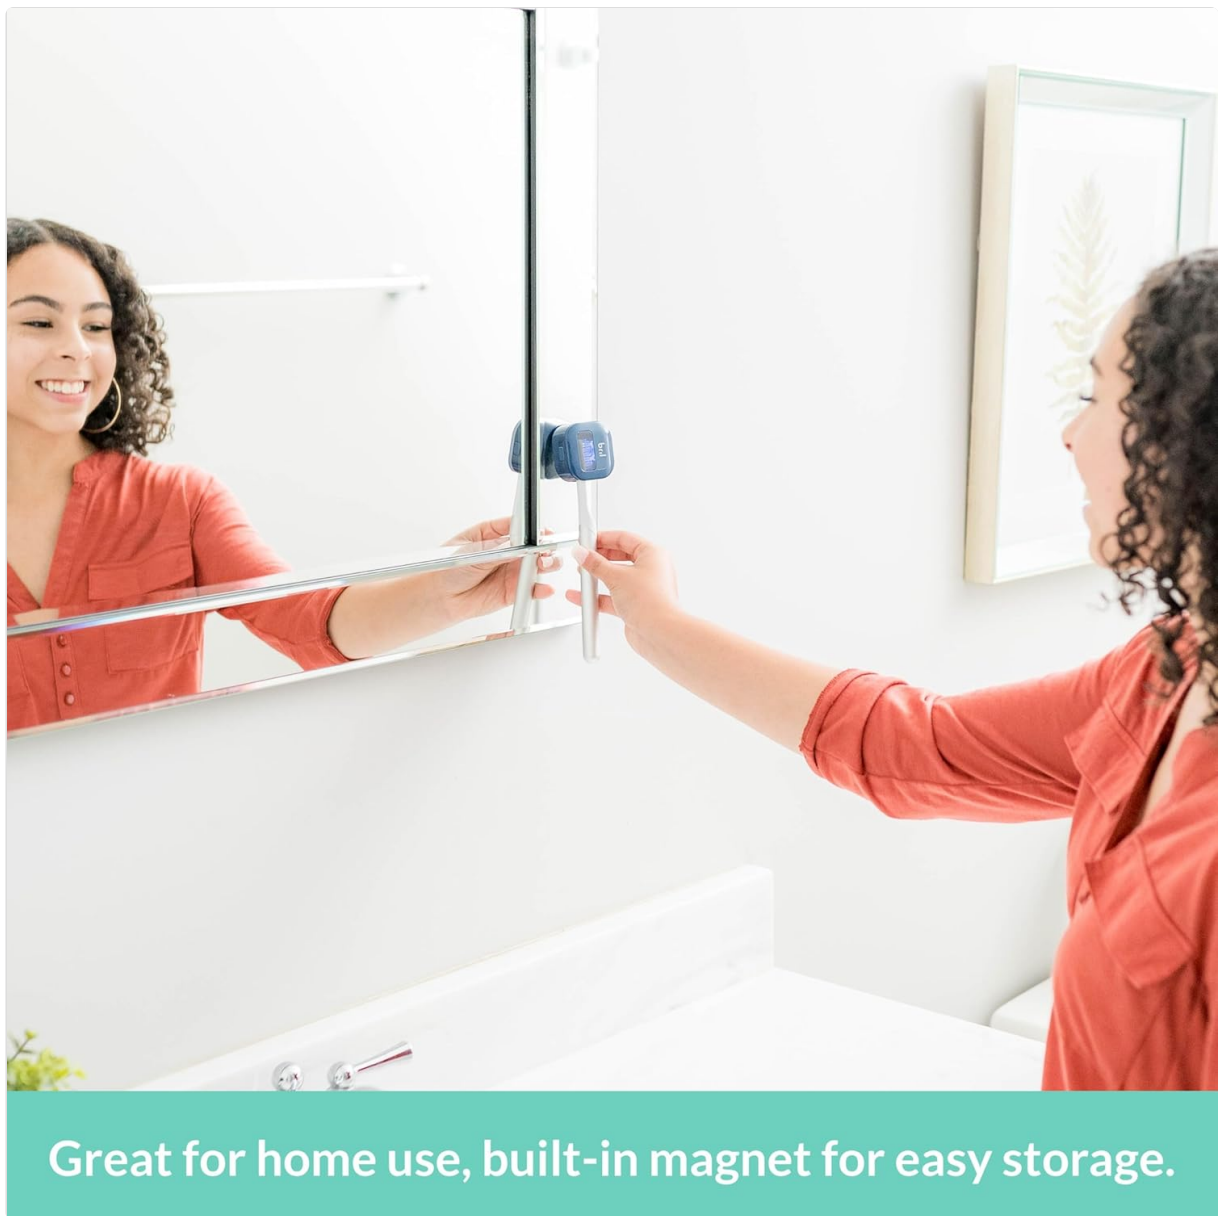

#### 4.1 Initial Charging

Before first use, fully charge your Bril UV-C Toothbrush Sanitizer. Connect the provided USB-C cable to the charging port on the device and plug the other end into a compatible USB power source. A green light will illuminate inside the unit to indicate charging. A full charge typically takes approximately two hours and can last for up to one month of regular use.

Video 1: Demonstrates how to charge the Bril UV-C Toothbrush Sanitizer.

#### 4.2 Mounting (Optional)

The Bril sanitizer includes a magnetic mount for convenient storage. Peel off the adhesive backing from the magnetic disc and attach it to a clean, dry surface such as a bathroom mirror or wall. The sanitizer unit can then be magnetically attached to this disc.

Great for home use, built-in magnet for easy storage.

Video 2: Shows the magnetic mounting feature of the Bril UV-C Toothbrush Sanitizer.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Inserting Your Toothbrush

Open the Bril sanitizer case. Insert the head of your toothbrush into the designated slot, ensuring the bristles are facing the UV-C light source. The flexible rubberized grips are designed to accommodate various toothbrush handle sizes.

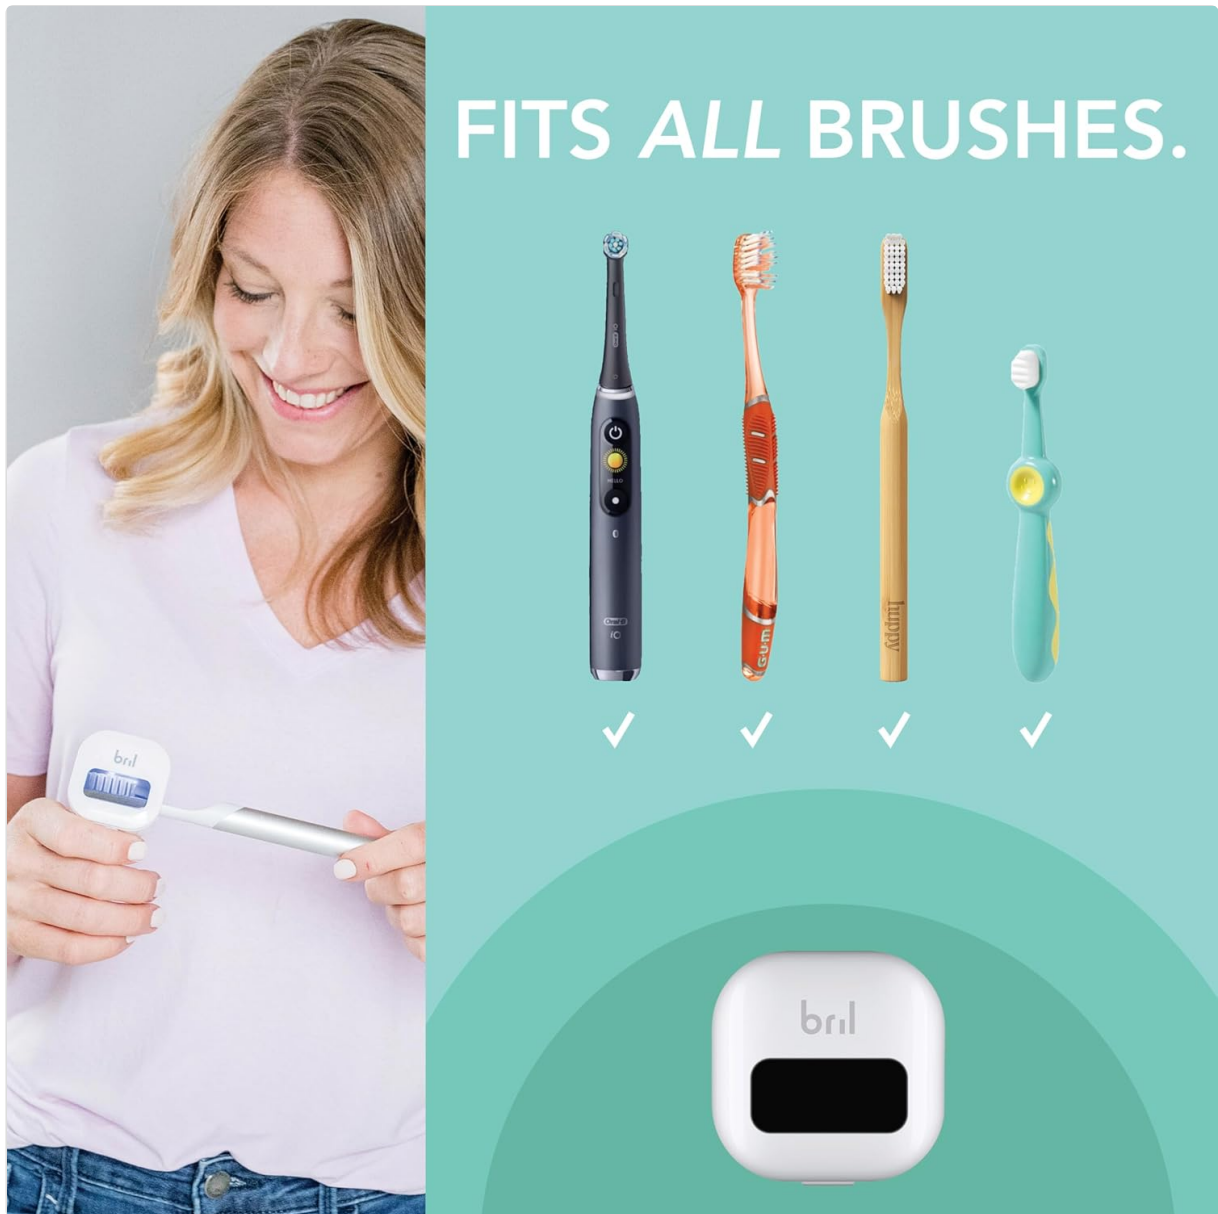

Figure 4: Bril UV-C Toothbrush Sanitizer fits various brush types.

## 5.2 Activating the Sanitization Cycle

Close the lid of the Bril sanitizer. The UV-C light will automatically activate, indicated by a blue light visible through the transparent window. The sanitization cycle lasts for approximately three minutes.

Video 3: Illustrates the automatic activation of UV-C light upon closing the sanitizer.

## 5.3 Cycle Completion

After three minutes, the UV-C light will automatically turn off, indicating the completion of the sanitization cycle. The device is designed to prevent UV-C exposure by automatically deactivating the light if the lid is opened during a cycle.

Video 4: Shows the Bril UV-C Toothbrush Sanitizer in operation with a toothbrush.

# 6. MAINTENANCE

## 6.1 Cleaning

To clean the Bril sanitizer, wipe the exterior with a soft, damp cloth. Do not submerge the device in water or use harsh chemical cleaners. Ensure the device is dry before closing the lid or charging.

## 6.2 Battery Care

Recharge the device when the battery is low. Avoid prolonged exposure to extreme temperatures. If storing for an extended period, ensure the battery is partially charged.

## 7. TROUBLESHOOTING

---

- **Device not turning on:** Ensure the device is charged. Verify the lid is fully closed to activate the UV-C light.
- **Red light blinking:** This indicates a low battery. Recharge the device using the provided USB-C cable.

## 8. SPECIFICATIONS

---

Feature	Detail
Product Dimensions	2 x 2 x 1 inches
Item Weight	2.39 ounces
Item Model Number	B09JRTFMH2
Batteries	1 Lithium Ion battery (included)
Manufacturer	Bril

## 9. SAFETY INFORMATION

---

- Do not expose eyes or skin directly to UV-C light. The device is designed with a safety mechanism that turns off the UV-C light when the lid is open.
- Keep out of reach of children.
- Use only the provided charging cable or a compatible USB-C cable.
- Do not attempt to disassemble or repair the device. Contact customer support for assistance.

## 10. WARRANTY & SUPPORT

---

The Bril UV-C Toothbrush Sanitizer comes with a one-calendar-year warranty from the date of purchase. For warranty claims, technical support, or any product-related inquiries, please contact Bril customer service directly. Refer to the contact information provided on the product packaging or the official Bril website.
