MAINTENANCE

Proper care will extend the life and appearance of your bamboo shoe rack.

- **Cleaning:** Wipe the frames with a damp cloth. Do not use bleach, acid, or other harsh solvents, as these can damage the natural bamboo and its protective finish.

- **Water Resistance:** The surface is treated with waterproof paint, offering protection against moisture. However, it is recommended to wipe up spills promptly to maintain its condition.
- **Regular Checks:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary to maintain stability.
- **Avoid Extreme Conditions:** While durable, avoid placing the rack in areas with extreme humidity or direct, prolonged sunlight to prevent warping or fading of the bamboo.
