IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before operating the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or the base unit in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "OFF", then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- The ceramic pots are not dishwasher safe.
- This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way.

COMPONENTS

Your Megachef Triple Slow Cooker and Buffet Server includes the following parts:

- Main Heating Base Unit (1)
- 2.5 Quart Ceramic Cooking Pots (3)
- Glass Lids with Knobs (3)
- Removable Lid Rests (3)

Image: The slow cooker with its three lids open and placed on the integrated lid rests, demonstrating their functionality.

SETUP

1. **Unpacking:** Carefully remove all components from the packaging. Retain packaging for storage or disposal.
2. **Initial Cleaning:** Before first use, wash the ceramic cooking pots and glass lids in warm, soapy water. Rinse thoroughly and dry completely. Wipe the exterior of the heating base unit with a damp cloth. Do not immerse the heating base unit in water.
3. **Placement:** Place the heating base unit on a stable, flat, heat-resistant surface, away from walls or

other appliances to allow for proper ventilation.

4. **Assembly:**

- Place the three ceramic cooking pots into their respective heating wells on the base unit.
- Position the removable lid rests behind each pot, if desired, for convenient lid placement during serving.
- Place the glass lids onto the ceramic pots.

5. **Power Connection:** Ensure the control knobs are in the "OFF" position before plugging the appliance into a standard 120V ~60Hz electrical outlet.

OPERATING INSTRUCTIONS

The Megachef Triple Slow Cooker allows you to cook and serve three different dishes simultaneously with independent temperature control for each pot.

1. **Prepare Food:** Place your desired ingredients into the ceramic cooking pots. Do not overfill the pots.
2. **Select Temperature:** For each individual pot, turn the corresponding control knob to one of the following settings:
 - **LOW:** For slow cooking over an extended period.
 - **HIGH:** For faster cooking.
 - **WARM:** To keep cooked food at a serving temperature. This setting is not for cooking raw food.
 - **OFF:** To turn off the heating element for that specific pot.

Each pot has its own control knob and indicator light, allowing for flexible cooking options.

3. **Cooking:** Place the glass lids securely on the pots. The transparent lids allow you to monitor cooking progress without releasing heat.
4. **Serving:** Once cooking is complete, you can switch the setting to "WARM" to maintain food temperature. Use the removable lid rests to conveniently hold the lids while serving.
5. **After Use:** Turn all control knobs to the "OFF" position and unplug the appliance from the wall outlet. Allow the unit to cool completely before cleaning.

MAINTENANCE AND CLEANING

Proper cleaning and maintenance will ensure the longevity and optimal performance of your slow cooker.

1. **Always unplug** the appliance and allow it to cool completely before cleaning.
2. **Ceramic Pots and Glass Lids:** Wash these components in warm, soapy water. Rinse thoroughly and dry completely. **Note: The ceramic pots are NOT dishwasher safe.**
3. **Heating Base Unit:** Wipe the exterior of the heating base unit with a soft, damp cloth. For stubborn stains, a mild non-abrasive cleaner can be used. Ensure no liquid enters the electrical components. Never immerse the heating base unit in water or any other liquid.
4. **Lid Rests:** The removable lid rests can be washed in warm, soapy water, rinsed, and dried.
5. **Storage:** Store the clean and dry appliance in a cool, dry place.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|--|--|---|
| Appliance does not turn on. | Not plugged in; power outlet malfunction; control knob not set. | Ensure the power cord is securely plugged into a working outlet. Check if the control knob is set to LOW, HIGH, or WARM. |
| Food is not cooking properly. | Incorrect temperature setting; lid not sealed properly; insufficient cooking time. | Verify the temperature setting (LOW/HIGH). Ensure the lid is sealed correctly. Allow adequate cooking time as per recipe. |
| Food is sticking to the ceramic pot. | Lack of liquid; cooking at too high a temperature for too long. | Ensure sufficient liquid is used in the recipe. Consider reducing the temperature setting or cooking time. |
| Unit emits an unusual odor during first use. | Normal for new appliances. | This is common and should dissipate after initial uses. Ensure good ventilation. |

If you experience any issues not covered here, please contact customer support.
