Oliso TG1600 ProPlus Smart Iron with Auto-Lift User Manual

Your guide to operating and maintaining your Oliso Smart Iron.

PRODUCT OVERVIEW

The Oliso TG1600 ProPlus Smart Iron is an 1800-watt steam iron designed for clothes, sewing, quilting, and crafting. It features an innovative Auto-Lift system and a Diamond Ceramic-Flow Soleplate for efficient and safe ironing.

iTouch® + auto-lift®

KEY FEATURES

- **Auto-Lift System:** The iron automatically lifts off the fabric when you release the handle, preventing scorching and reducing wrist strain.
- **Diamond Ceramic-Flow Soleplate:** Provides an ultra-smooth, durable, and non-stick surface that glides effortlessly across all fabrics. It ensures even heat distribution and easy cleanup.
- **1800 Watts Power:** Offers rapid heat-up for efficient ironing.
- **TriplePlay Steam System:** Delivers horizontal, vertical, and variable steam bursts for effective wrinkle removal and crisp seams.
- **12.75 oz Water Tank:** Ensures maximum performance with ample water capacity.
- **Anti-Drip Protection:** Helps prevent water leaks during use.
- **2" Precision Detailer Tip:** Designed for precise ironing in pleats, around buttons, along seams, and between layers.

- **12-foot, 360° Swivel Cord:** Provides flexibility and ease of movement.
- **Extended 30-Minute Auto Shut-Off:** Ideal for sewing and quilting projects requiring uninterrupted heat.

SETUP

1. **Unpacking:** Carefully remove the iron and all accessories from the packaging. Retain packaging for future storage or transport.
2. **Water Filling:** Open the side-fill water reservoir cap. Fill the 12.75 oz (375ml) tank with regular tap water. Ensure the cap is securely closed after filling.

Figure 2: Filling the water reservoir through the side opening.

3. **Power Connection:** Plug the 12-foot, 360° swivel cord into a standard 120V electrical outlet.

Figure 3: The 360° swivel cord provides flexibility during use.

4. **Initial Heat-up:** Select the desired fabric setting using the temperature dial. The iron will begin to heat up. Wait for the indicator light to turn solid green, indicating it has reached the set temperature.

OPERATING INSTRUCTIONS

Temperature and Fabric Settings

Use the temperature dial to select the appropriate setting for your fabric type. For best steam performance, use at the highest heat setting (Linen + Cotton).

A close-up photograph of the iron's soleplate tip. The soleplate is white with a light blue upper section. A small, white, rounded detailing tip is visible on the side of the soleplate. The iron is resting on a grey, textured fabric. In the top right corner, there is a black rectangular box with the text 'TG1600ProPlus' in white and orange.

Auto-Lift System (iTouch®)

The patented Auto-Lift system automatically raises the iron off the fabric when you release the handle, preventing scorching and reducing repetitive wrist strain. To iron, simply touch the handle to lower the soleplate. To pause, release the handle, and the iron will lift.

Steam Functions

- **Horizontal Steam:** For general ironing, press the steam button to release steam while moving the iron across the fabric.
- **Vertical Steam:** Hold the iron upright and press the steam button to steam hanging garments or drapes.
- **Variable Steam Bursts:** Adjust the steam output using the steam control slider for different fabric needs.
- **Water Spray:** Use the spray button to mist fabric for stubborn wrinkles.

Figure 6: The water spray function helps tackle tough wrinkles.

Precision Tip

The 2-inch precision detailer tip allows for easy access into tight spaces like pleats, around buttons, and along seams, making it ideal for detailed work in sewing and crafting.

Figure 7: The precision tip is useful for intricate ironing tasks.

Auto Shut-Off

The iron features an extended 30-minute auto shut-off when left untouched, providing safety and convenience, especially during longer crafting sessions.

Figure 8: The iron automatically turns off after 30 minutes of inactivity.

MAINTENANCE

- **Cleaning the Soleplate:** The Diamond Ceramic-Flow Soleplate is designed for easy cleanup. For best results,

clean the soleplate when it is cool. Use a damp cloth or a non-abrasive cleaner specifically designed for iron soleplates.

- **Water Tank:** Empty the water tank after each use to prevent mineral buildup.
- **Storage:** Store the iron upright on its heel or in a safe, dry place.

TROUBLESHOOTING

- **No Steam:** Ensure the water tank is filled and the temperature dial is set to a steam-compatible fabric setting (e.g., Linen + Cotton). Allow sufficient time for the iron to heat up until the indicator light is solid green.
- **Water Leaks/Dripping:** The anti-drip system minimizes leaks. Ensure the iron has reached the correct temperature for steaming. If using steam at lower temperatures, dripping may occur.
- **Iron Not Heating:** Check if the iron is properly plugged into a working outlet. Verify the temperature dial is not set to the 'Off' position.
- **Auto-Lift Not Engaging:** Ensure the iron is placed on a flat, stable surface. The Auto-Lift mechanism activates when the handle is released.

SPECIFICATIONS

Feature	Detail
Brand	oliso
Model Name	TG ProPlus SmartIron
Model Number	10003078
Wattage	1800 watts
Voltage	120 Volts
Product Dimensions	12.6"L x 7.9"W
