## Evajoy AMZEJ-HF010B33

# Evajoy Inflatable Play Center Kids Pool with Slide User Manual

Model: AMZEJ-HF010B33

## 1. IMPORTANT SAFETY INFORMATION

---

Read all instructions before assembling and using this product. Failure to follow these warnings and instructions can result in serious injury or death.

- **Adult Supervision Required:** Always keep children in sight and within arm's reach when they are in or near the pool. Drowning can occur quickly and silently.
- **Secure Area:** Ensure the pool is set up on a level, stable surface, free from sharp objects.
- **Water Depth:** Maintain appropriate water levels for the age and height of children using the pool.
- **No Diving or Jumping:** This pool is not designed for diving or jumping. Serious injury can result.
- **Empty After Use:** Always empty the pool completely after each use to prevent accidental drowning.
- **Electrical Safety:** Keep all electrical devices, including pumps, away from water.
- **Repair Patches:** Use included repair patches for minor punctures only. Do not use if the pool is severely damaged.

## 2. PRODUCT OVERVIEW

---

The Evajoy Inflatable Play Center is designed for recreational water play and can also be used as an indoor ball pit. It features a slide, water sprayers, and two distinct pool areas.

### Package Contents:

- 1 x Evajoy Play Center Pool
- 1 x Adapter (for water hose connection)
- 2 x Repair Patches
- 1 x User Manual (this document)

## 3. SETUP INSTRUCTIONS

---

### 3.1 Preparation

1. **Choose a Location:** Select a flat, level, and clear area in your backyard or indoors. Ensure there are no sharp objects, rocks, or debris that could puncture the pool.
2. **Unfold the Pool:** Carefully remove the pool from its packaging and unfold it completely on the chosen surface.

# Large Pool Play Center

Provides hours of fun-filled play

110 x 71 x 53in

Figure 1: The Evajoy Inflatable Play Center set up in a backyard, showcasing its full size and features.

## 3.2 Inflation

An electric air pump (not included) is highly recommended for quick and efficient inflation.

1. **Locate Air Valves:** Identify all separate air chambers and their corresponding valves on the pool structure.
2. **Inflate Each Chamber:** Open the larger cap of each valve. Insert the pump nozzle and inflate until the section is firm to the touch but not overinflated. The valves feature a two-size nub opening: a larger one for quick inflation/deflation and a smaller one inside to prevent air leakage during inflation.
3. **Close Valves:** Once inflated, securely close both the inner and outer caps of each valve to prevent air loss.

Figure 2: The Evajoy Inflatable Play Center after full inflation, ready for water play.

# Two Pools Area for Double Fun

Better accommodate kids of different heights

Figure 3: The two separate pool areas, designed to accommodate children of different heights.

### 3.3 Water Connection (for Sprayers)

1. **Connect Hose:** Locate the water inlet adapter on the side of the pool. Securely attach a standard garden hose to this adapter.
2. **Check Connections:** Ensure all connections are tight to prevent leaks.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Water Play

1. **Fill with Water:** Begin filling the pool with water to the desired level. Do not overfill.
2. **Activate Sprayers:** Slowly turn on the water supply to the garden hose. Water will begin to spray from the designated areas, including the palm leaves.
3. **Adjust Sprayers:** The palm leaves sprinkler can be adjusted to direct water towards the slide or the shallow water zone, providing a refreshing mist.
4. **Supervision:** Always ensure constant adult supervision when children are using the pool.

## Angle-adjustable Water Sprinkler

Sprays a refreshing mist to play and cool off

Figure 4: The angle-adjustable water sprinkler provides a refreshing mist for play.

### 4.2 Indoor Ball Pit Use

The Evajoy Play Center can also be used indoors as a ball pit for year-round fun.

1. **Ensure Dryness:** If previously used with water, ensure the pool is completely dry before bringing it indoors.

2. **Fill with Balls:** Fill the pool areas with play balls (not included) for an engaging indoor activity.

**Use as a Ball Pit**  
Fill with balls for indoor fun

Figure 5: The play center can be used as a ball pit for indoor entertainment.

## 5. MAINTENANCE

---

## 5.1 Cleaning and Draining

1. **Drain Water:** After each use, locate the drain hole at the bottom of the pool. Open the cap to allow water to drain completely.
2. **Clean Surfaces:** Use mild soap and water to clean the pool surfaces. Rinse thoroughly and allow to air dry completely before deflating or storing.

## 5.2 Storage

1. **Deflate:** Open all air valves and allow the pool to deflate fully. You can gently press on the pool to expel remaining air.
2. **Fold:** Once deflated and dry, carefully fold the pool to its original compact size.
3. **Store:** Store the pool in a cool, dry place, away from direct sunlight and extreme temperatures, to prolong its lifespan.

## 5.3 Repairing Punctures

Minor punctures can be repaired using the included repair patches.

1. **Locate Leak:** Inflate the affected section and apply soapy water to the surface to identify the leak by observing bubbles.
2. **Clean and Dry:** Clean the area around the puncture and ensure it is completely dry.
3. **Apply Patch:** Peel off the backing from a repair patch and firmly press it over the puncture, ensuring no air bubbles are trapped underneath. Hold for several minutes.
4. **Allow to Cure:** Wait at least 30 minutes before re-inflating the section.

# Long-Lasting Durability

Made with 0.40mm thickened BPA-free PVC material for a longer service life

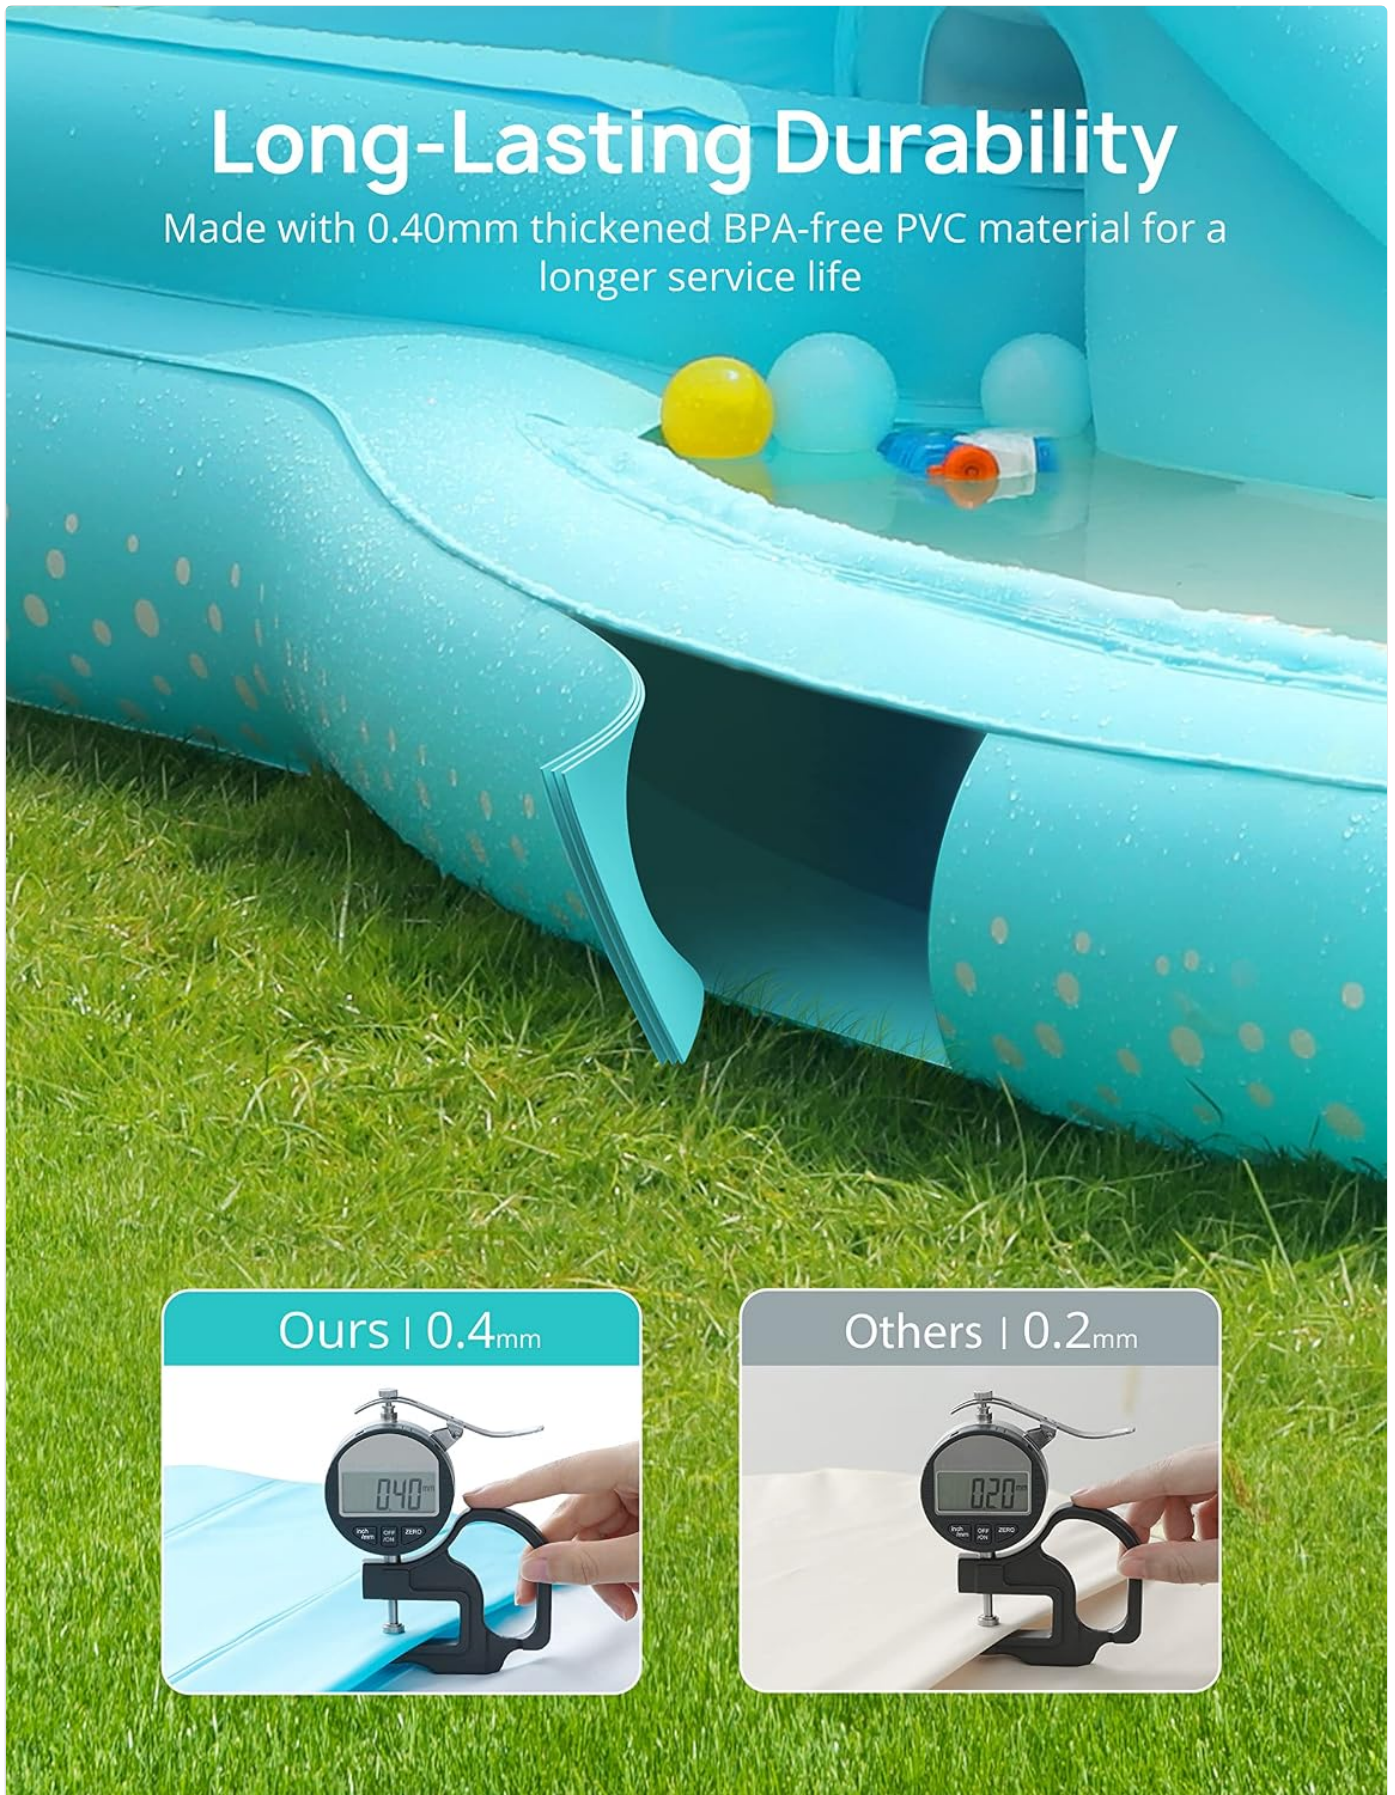

Figure 6: The pool is constructed from thickened 0.40mm BPA-free PVC for enhanced durability.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Pool deflates quickly.	Air valve not fully closed, small puncture, or overinflation.	Ensure all valves are securely closed. Check for punctures using soapy water and apply a repair patch if necessary. Avoid overinflation.
Water sprayers are weak or not working.	Hose not connected properly, water pressure too low, or blockage in sprayer nozzles.	Ensure garden hose is securely attached and water supply is fully open. Check for kinks in the hose. Clear any visible blockages in the sprayer nozzles.
Pool is unstable or lopsided.	Uneven ground, or uneven inflation of air chambers.	Ensure the pool is placed on a completely flat surface. Re-inflate air chambers evenly, ensuring each section is firm.

## 7. SPECIFICATIONS

Feature	Detail
Model Number	AMZEJ-HF010B33
Material	Polyvinyl Chloride (PVC)
Dimensions (L x W x H)	110" x 71" x 53" (279cm x 180cm x 135cm)
Weight Capacity	198 lbs (90 kg) Max
Net Weight	15 lbs (7 kg)
Color	Blue
UPC	876770009273, 719710497238

## 8. WARRANTY AND SUPPORT

For warranty information or product support, please refer to the purchase documentation or contact Evajoy customer service directly. Contact details can typically be found on the product packaging or the official Evajoy website. Please retain this user manual for future reference.
