## Supersonic SC-2330RGB

# Supersonic SC-2330RGB 10-inch Heart Ring Light User Manual

Model: SC-2330RGB | Brand: Supersonic

## INTRODUCTION

The Supersonic SC-2330RGB 10-inch Heart Ring Light is designed to provide versatile and customizable illumination for various applications, including live streaming, makeup tutorials, product photography, video recording, and selfies. This manual provides essential information for the safe and effective setup, operation, and maintenance of your device.

## SAFETY INFORMATION

- Read all instructions before use and retain for future reference.
- Do not expose the device to water or excessive moisture.
- Avoid direct eye exposure to the LED light for prolonged periods.
- Ensure the tripod is stable on a flat surface before attaching the ring light and phone.
- Use only the provided USB power cable or a compatible USB power source.
- Keep out of reach of children.
- Disconnect power before cleaning or when not in use.

## PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 10-inch Heart Ring Light with integrated USB cable and in-line controller
- Adjustable Tripod Stand
- 360° Rotatable Phone Holder
- Instruction Manual

## SETUP INSTRUCTIONS

### 1. Assemble the Tripod Stand:

Unfold the tripod legs and extend the stand to your desired height. Secure the sections by tightening the locking clamps. The tripod can extend from approximately 15.7 inches to 42.5 inches.

*Image: The base of the tripod stand, showing its folded legs and adjustable sections.*

## 2. **Attach the Ring Light:**

Mount the 10-inch Heart Ring Light onto the top of the tripod stand. Ensure it is securely fastened to prevent accidental detachment.

*Image: The Supersonic SC-2330RGB Heart Ring Light fully assembled on its tripod stand, displaying its vibrant RGB lighting.*

### 3. Install the Phone Holder:

Attach the 360° rotatable phone holder to the designated mounting point within the heart ring light. Adjust its position and angle as needed.

*Image: A detailed view of the flexible, rotatable phone holder designed to secure a smartphone within the ring light.*

#### 4. **Connect Power:**

Plug the USB power cable into a compatible USB power source (e.g., laptop, PC, power bank, USB wall charger, AC adapter). The in-line controller is located on this cable.

## **OPERATING INSTRUCTIONS**

### **Using the In-Line Controller**

The in-line controller allows you to manage the ring light's functions. It features buttons for power, mode selection, and brightness adjustment.

- **Power On/Off:** Press the **Power** button to turn the light on or off.
- **Mode Selection:** Press the **Mode** button to cycle through the different lighting modes (white light modes and RGB modes).
- **Brightness Adjustment:** Use the **+/-** buttons to increase or decrease the brightness level for the selected mode. There are 10 brightness levels available for white light modes.

## White Lighting Modes

The ring light offers 3 distinct white lighting modes, each with 10 adjustable brightness levels:

- **Warm Light (3,000K):** Provides a soft, warm glow.
- **Cool White (4,500K):** Offers a neutral, bright white light.
- **Daylight (6,000K):** Simulates natural daylight, ideal for clarity.

Image: The Supersonic SC-2330RGB Heart Ring Light illuminated with a bright white light, showcasing its heart shape.

## RGB Lighting Modes

Enhance your content with 32 dynamic RGB modes, including:

- **15 Static RGB Colors:** Solid colors for a consistent aesthetic.
- **17 Dynamic RGB Effects:** Various color-changing patterns and transitions.

## Adjusting the Phone Holder

The phone holder can be rotated 360° to achieve horizontal, vertical, high-angle, or low-angle orientations. It extends up to 6.5 inches wide, accommodating most smartphones. Gently place your phone into the holder, ensuring it is secure.

## MAINTENANCE

- **Cleaning:** Disconnect the power. Use a soft, dry cloth to wipe the ring light and tripod. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the ring light and tripod in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid bending or crimping the USB cable excessively.

## TROUBLESHOOTING

### Light does not turn on:

- Ensure the USB cable is securely connected to both the ring light and a functioning USB power source.

- Verify that the USB power source is providing power (e.g., try a different USB port or adapter).
- Press the Power button on the in-line controller.

**Light modes or brightness cannot be changed:**

- Ensure the light is powered on.
- Press the Mode button repeatedly to cycle through all available modes.
- Use the +/- buttons to adjust brightness. If already at minimum or maximum, no further change will occur.

**Phone does not fit or is unstable in the holder:**

- The phone holder extends up to 6.5 inches wide. Ensure your phone's width is within this limit.
- Gently but firmly secure the phone in the holder.
- Ensure the holder is properly attached to the ring light.
