MAINTENANCE AND STORAGE

To preserve the quality and longevity of your J'adore Eau de Parfum, store it in a cool, dark place away from direct sunlight and extreme temperature fluctuations. Keeping the bottle tightly closed when not in use will help prevent evaporation and maintain the integrity of the fragrance.

TROUBLESHOOTING

Scent Longevity

If the scent does not seem to last as long as desired, ensure you are applying it to pulse points as described in the "Application Instructions" section. Hydrated skin holds fragrance better, so consider applying after moisturizing. Individual body chemistry can also affect how long a fragrance lasts.

Application Issues (Dab-on)

The mini bottle is designed for dab-on application. If you find it difficult to dispense, gently tilt the bottle and dab the opening onto your skin. Avoid shaking vigorously, which can lead to spills.
