

Zinus EU-FPPST2-12L

Zinus Maddon Ottoman Storage Bed Frame

Model: EU-FPPST2-12L | Size: 160 x 190 cm

INTRODUCTION

Thank you for choosing the Zinus Maddon Ottoman Storage Bed Frame. This bed frame is designed to provide both comfort and practical storage solutions for your bedroom. Featuring a hydraulic lift mechanism, it allows easy access to a spacious under-bed compartment, ideal for storing linens, seasonal clothing, and other items. This manual provides essential information for safe assembly, operation, maintenance, and troubleshooting to ensure you get the most out of your new bed frame.

SAFETY INFORMATION

Please read and understand all safety warnings and instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Weight Capacity:** Do not load the bed frame with more than 318 kg (700 lbs). For the 80 x 190 cm size, the maximum weight is 159 kg. Exceeding this limit can cause structural damage or injury.
- **Hydraulic Mechanism:** Use the hydraulic lifting mechanism with caution to prevent injury. Ensure hands and fingers are clear of moving parts when operating.
- **Assembly:** Assemble the bed frame carefully according to the provided instructions. Incorrect assembly can lead to instability or collapse. It is recommended to assemble with a friend.
- **Children and Pets:** Keep children and pets away from the bed frame during assembly and operation of the hydraulic lift.
- **Regular Checks:** Periodically check all bolts and connections to ensure they remain tight. Loose connections can compromise stability.

PACKAGE CONTENTS

Before beginning assembly, verify that all components are present. All parts, tools, and instructions are conveniently stored within the zippered compartment of the headboard.

Trova i tuoi componenti qui

Tutti gli utensili e le istruzioni sono opportunamente collocati nello scomparto con zip della testiera

The package typically includes:

- Headboard
- Bed Frame Foundation (side rails, footboard)
- Slats (wooden or metal)
- Hydraulic Lift Mechanism components
- Assembly Hardware (bolts, washers, nuts)
- Assembly Tools (e.g., ratchet wrench)
- Instruction Manual

SETUP (ASSEMBLY)

Assembly of the Zinus Maddon Ottoman Storage Bed Frame is designed to be straightforward and can typically be completed in under an hour with the help of a friend.

1. **Unpack Components:** Carefully remove all parts from the packaging. Locate the zippered compartment in the headboard to retrieve the assembly tools and instruction manual.
2. **Identify Parts:** Refer to the parts list in your instruction manual to identify each component.
3. **Assemble Headboard and Footboard:** Attach the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure but do not overtighten initially.
4. **Install Hydraulic Mechanism:** Follow the specific instructions for attaching the hydraulic lift arms to the bed frame. Pay close attention to the orientation of the arms.
5. **Place Slats:** Lay the wooden or metal slats across the bed frame. Secure them according to the instructions to create a stable mattress support.
6. **Final Tightening:** Once all components are in place, go back and securely tighten all bolts and screws.

OPERATING INSTRUCTIONS

Using the Hydraulic Lift Storage

The Zinus Maddon bed frame features an ingenious hydraulic lift mechanism that assists in raising the mattress support, providing easy access to the under-bed storage compartment without needing to move the mattress.

1. **Clear the Bed:** Ensure there are no items on the bed that could fall off when the mattress is lifted.
2. **Lift the Mattress Support:** Grasp the frame at the foot end or side (depending on design) and gently lift upwards. The hydraulic pistons will engage and assist in raising the mattress support. Continue lifting until the mechanism locks into its fully open position.
3. **Access Storage:** Once the mattress support is fully open, you can access the spacious storage area beneath.

4. **Close the Mattress Support:** To close, gently push down on the mattress support frame. The hydraulic pistons will compress, allowing the frame to lower smoothly. Ensure hands and fingers are clear of the closing mechanism.

MAINTENANCE

Regular maintenance will help prolong the life and functionality of your Zinus Maddon Ottoman Storage Bed Frame.

- **Check Connections:** Periodically (e.g., every 3-6 months) inspect all bolts and screws. Tighten any that have become loose to maintain the bed's stability and prevent creaking.
- **Upholstery Care:** For upholstered parts, spot clean with a damp cloth and mild detergent if necessary. Avoid harsh chemicals that may damage the fabric. Vacuum regularly to remove dust.
- **Hydraulic Mechanism:** The hydraulic pistons are generally maintenance-free. If you notice any stiffness or difficulty in operation, ensure the mechanism is clean and free of obstructions. Do not attempt to lubricate or disassemble the pistons.
- **Slats:** Inspect wooden slats for any signs of damage or wear. Replace any broken slats to ensure proper mattress support.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed frame feels unstable or creaks.	Loose bolts or incorrect assembly.	Check all assembly bolts and tighten them securely. Refer to the assembly instructions to ensure all parts are correctly installed.
Hydraulic lift is difficult to close.	New hydraulic pistons may be stiff; insufficient weight on the bed.	For new beds, the pistons may require several cycles of opening and closing to loosen. Ensure a mattress is placed on the bed, as the pistons are designed to work with the mattress weight. If still difficult, try pushing down firmly several times to "empty" the gas slightly, as suggested by some users.
Hydraulic lift does not stay open.	Mechanism not fully engaged; faulty piston.	Ensure you lift the mattress support until it clicks or locks into the fully open position. If the issue persists, contact Zinus customer support for assistance.
Slats are breaking or sagging.	Excessive weight; damaged slats.	Ensure the bed's weight capacity is not exceeded. Inspect individual slats for damage and replace as needed.

SPECIFICATIONS

Image: Zinus Maddon Ottoman Storage Bed Frame with dimensions.

Feature	Detail
Brand	Zinus
Model Number	EU-FPPST2-12L
Product Dimensions (L x W x H)	190 x 160 x 30.5 cm (Frame height 31 cm, Headboard height 87.8 cm)
Compatible Mattress Size	160 x 190 cm
